**Art and Nonart** Marcia Muelder Eaton, 1983 In this contemporary approach to aesthetics Marcia Eaton presents a theory that provides a method of dealing with skepticism regarding the possibility of distinguishing art from non art

**Cultural Literacy and Arts Education** Ralph Alexander Smith, 1991 Thirteen experts in the visual arts literature music dance and theater responded to the arguments of E D Hirsch's Cultural Literacy What Every American Needs to Know focusing particularly on his alarm at the serious slippage that has occurred in the background knowledge and information prerequisite for effective communication These authorities addressed two questions 1 What it means for people to be literate that is able to understand communications and have relevant experiences in various art forms 2 What sorts of context should such individuals bring to their encounters with works in these art forms and what would that imply for arts education The contributing specialists are E D Hirsch Jr Harry S Broudy Jerrold Levinson Patti P Gillespie Walter H Clark Jr John Adkins Richardson Francis Sparshott Clifton Olds Marcia Muelder Eaton Ronald Berman Lucian Krukowski Michael J Parsons and David J Elliot KM *Theories of Art Today* Noël Carroll, 2000 What is art The contributors to Theories of Art Today address the assertion that the term art no longer holds meaning They explore a variety of issues including aesthetic and institutional theories of art feminist perspectives on the philosophy of art the question of whether art is a cluster concept and the relevance of tribal art to philosophical aesthetics Contributors to this book include such distinguished philosophers and historians as Arthur Danto Joseph Margolis and George Dickie Art in Three Dimensions Noël Carroll, 2010-07-15 This is a collection of essays by one of the most eminent figures in philosophy of art Carroll argues that philosophers of art need to refocus their attention on the ways in which art enters the life of culture and the lives of individual audience members

Merit, Aesthetic and Ethical Marcia Muelder Eaton, 2001 To look good and to be good have traditionally been considered two very different notions Indeed philosophers have seen aesthetic and ethical values as fundamentally separate Now at the crossroads of a new wave of aesthetic theory Marcia Muelder Eaton introduces this groundbreaking work in which a bold new concept of merit where being good and looking good are integrated into one *Lolita in Peyton Place* Ruth Pirsig Wood, 2014-01-14 This book analyzes the differences in content reader expectation and social moral ethical functions of the three types of novels in America of the 1950s It challenges the notion that highbrow novels Lolita do important cultural work while popular novels contribute to personal and social decay and examines how time periods influence the moral content of novels The book separates popular fiction into lowbrow Peyton Place and middlebrow Man in the Grey Flannel Suit and explains that lowbrow like highbrow evolves from the folklore tradition and contains messages about how to be a good man or good woman and how to find a satisfying niche in the social order Middlebrow on the other hand evolves from myth

tradition and relates lessons on what personal adjustments need to be made to succeed in the economic order Middlebrow novels most reflect the time and place of their writing because conditions for economic survival change more than conditions for social survival Arguing that what most distinguishes highbrow from lowbrow is the audience highbrow writers try to separate from the flock lowbrow writers to include This study differs from such well known studies of popular fiction as John Cawelti's and Janice Radway's in looking beyond the surface features of plot character and theme The book also challenges arguments that novels in which marriage is women's highest triumph and aggressive heroism men's reinforce limiting cultural paradigms

Aesthetics and the Good Life Marcia Muelder Eaton, 1989 This book provides a characterization of the aesthetic that enables the reader to understand what it means to view something aesthetically and how people's lives can be made aesthetically full Influential philosophical theories of the aesthetic are explored as well as the profound connection between aesthetic and ethical value

Quilt Culture Cheryl B. Torsney, Judy Elsley, 1994 As a blanket a commemorative covering and a work of art the quilt is a nearly universal cultural artifact In recent years it has been recognized as one of our most compelling symbols of cultural diversity and the power of women In this collection Cheryl B Torsney and Judy Elsley bring together eleven provocative essays on the quilt as metaphor in literature history politics and philosophy This interdisciplinary approach makes Quilt Culture an extraordinarily rich exploration of a cultural artifact whose meaning is far more complex than that of a simple bed covering Publishers website

**Form, Content, and Power** Eric v.d. Luft, 2024-08-02 This book is meant to be disconcerting It asks many more questions than it answers but perhaps that is how philosophy should be especially if the questions posed are capable of rousing interest in a topic and stimulating individual thought It challenges sometimes attacks and even ridicules various traditions and theoretical positions in the history of the philosophy of art not for merely destructive or polemical purposes but rather to encourage insightful readers to proceed beyond these positions in their own minds Its arguments are not didactic and its conclusions are not dogmatic but evocative and provisional in the hope that its readers will confront them with a vigor at least equal to that with which these arguments and conclusions have already confronted the traditional opinions Its general aims are 1 to try to answer the basic questions What is art and What is good art and 2 to try to develop a unified theory of art i e a theory which would embrace and be equally applicable to all types and

media of art from architecture to rock songs from symphonies to sculpture from Shakespeare to street graffiti Toward this second aim it examines the traditional concept of beauty and finds it incoherent undefinable philosophically unsatisfactory and incapable of serving as the ground of any rigorous unified theory of art because it cannot without equivocation be made equally applicable to all sorts of art Thus instead of beauty it proposes the concept of power which can be clearly and precisely defined and which is not only universally and univocally applicable but also rich enough as a concept to be able to shed light on the whole idea of art It is not a difficult book It is written for people at all levels of erudition from college frosh to tenured professors It does not aim primarily toward any level and tries not to pander but presents interpretations within the philosophy of art which should be both sufficiently original to provide grist for the professors speculative mills and at the same time sufficiently lucid for beginning students to be able to grasp the main ideas In short the book aims to become both a course textbook and a work which will be discussed at scholarly conferences and written about in journal articles At least with regard to this twofold aim to be simultaneously intelligible to tyros and interesting to experts and its consequent claim to a broad audience it is akin to such works as John Dewey s *Art as Experience* Robin Collingwood s *The Principles of Art* or Susanne Langer s *Philosophy in a New Key*      **Nordic Italies** Elettra Carbone,2016-01-22 Because of its history art and natural and cultural landscapes Italy has been a popular destination for North European travellers since the age of the Grand Tour Yet literary images of Italy are not all linked to the tradition of the journey to this country and cannot be labelled as a manifestation of Northerners yearning for the Southern sun The corpus of critical literature which deals with Italy in Nordic literatures is very wide but also fragmentary While many scholars have written about this topic and chiefly on the relations between individual Scandinavian literatures or well known authors such as Henrik Ibsen Selma Lagerl f and Hans Christian Andersen and Italy few have emphasised their variety plurality and complexity With its comparative approach this study casts a new light on a selection of nineteenth and twentieth century representations of Italy and presents some of these Nordic Italies Taking into account texts of different genres poetry drama and novel and focusing on theories of representation genre and space this book examines complex and heterogeneous literary representations that cannot be reduced to a single stereotype In these texts Italy emerges both as a set of physical spaces and as a series of metaphorical concepts How are these Italian spaces and identities constructed and what do they stand for What forms does the broad concept of Italianness take in these literary works How are the Italian settings and characters as well as the aspects of Italian politics history society culture and folklore that populate so many literary texts shaped and combined Is there a relationship between specific literary genres and the way in which Italy is represented These are only some of the questions addressed by this study which demonstrates how Nordic representations of Italy express much more than unanimous praise for the sun idyllic landscapes ruins and mandolin players      **The Journal of Aesthetic Education** ,1990 Includes special issues      [The Arts and Critical Thinking in American Education](#) Ivan Olson,2000 This text stresses that the arts are cognitive and effective

essentials in human development It includes research from psychology philosophy medicine music linguistics and visual arts to bring together theories designed to nourish the search for understanding the human mind *The British Journal of Aesthetics* ,1992 *The Philosophical Review* ,1984 *Meaning in Action* Rein Raud,2017-05-23 In this important new book Rein Raud develops an original theory of culture understood as a loose and internally contradictory system of texts and practices that are shared by intermittent groups of people and used by them to make sense of their life worlds This theory views culture simultaneously in two ways as a world of texts tangible and shareable products of signifying acts and as a space of practices repeatable activities that produce disseminate and interpret these clusters of meaning Both approaches are developed into corresponding models of culture which used together are able to provide a rich understanding of any meaning in action In developing this innovative theory Raud draws on a wide range of disciplines from anthropology sociology and cultural studies to semiotics and philosophy The theory is illustrated throughout with examples drawn from both high and popular culture and from Western and Asian traditions dealing with both contemporary and historical topics The book concludes with two case studies from very different contexts one dealing with Italian poetry in the 13th century the other dealing with the art scene in Eastern Europe in the 1990s This timely and original work makes a major new contribution to the theory of culture and will be welcomed by students and scholars throughout the social sciences and humanities Illustration as an Art Roy R. Behrens,1986 *What Art Is* Michelle Kamhi,Louis Torres,2016-05-26 What is art The arts establishment has a simple answer anything is art if a reputed artist or expert says it is Though many people are skeptical about the alleged new art forms that have proliferated since the early twentieth century today s critics claim that all such work however incomprehensible is art A groundbreaking alternative to this view is provided by philosopher novelist Ayn Rand 1901 1982 Best known as the author of *The Fountainhead* and *Atlas Shrugged* Rand also created an original and illuminating theory of art which confirms the widespread view that much of today s purported art is not really art at all In *What Art Is* Torres and Kamhi present a lucid introduction to Rand s esthetic theory contrasting her ideas with those of other thinkers They conclude that in its basic principles her account is compelling and is corroborated by evidence from anthropology neurology cognitive science and psychology The authors apply Rand s theory to a debunking of the work of prominent modernists and postmodernists from Mondrian Jackson Pollock and Samuel Beckett to John Cage Merce Cunningham and other highly regarded postmodernist figures Finally they explore the implications of Rand s ideas for the issues of government and corporate support of the arts art law and art education This is one of the most interesting provocative and well written books on aesthetics that I know While fully accessible to the general reader *What Art Is* should be of great interest to specialists as well Ayn Rand s largely unknown writings on art especially as interpreted released from dogma and smoothed out by Torres and Kamhi are remarkably refined Moreover her ideas are positively therapeutic after a century of artistic floundering and aesthetic quibbling Anyone interested in aesthetics in the purpose of art or in the

troubling issues posed by modernism and post modernism should read this book Randall R Dipert Author of Artifacts Art Works and Agency Torres and Kamhi effectively situate Rand s long neglected esthetic theory in the wider history of ideas They not only illuminate her significant contribution to an understanding of the nature of art they also apply her ideas to a trenchant critique of the twentieth century s advanced art Their exposure of the invalidity of abstract art is itself worth the price of admission Chris Matthew Sciabarra Author of Ayn Rand The Russian Radical Rand s aesthetic theory merits careful study and thoughtful criticism which Torres and Kamhi provide Their scholarship is sound their presentation is clear and their judgment is refreshingly free from the biases that Rand s supporters and detractors alike tend to bring to considerations of her work Stephen Cox University of California San Diego      *A Challenge to Highbrow Hegemony* Ruth Pirsig Wood,1991
