Art And Words:

A Companion to Art Theory Paul Smith, Carolyn Wilde, 2008-04-15 The Companion provides an accessible critical survey of Western visual art theory from sources in Classical Medieval and Renaissance thought through to contemporary writings

Tove Jansson Life, Art, Words Boel Westin, 2013-12-18 The Finnish Swedish writer and artist Tove Jansson achieved worldwide fame as the creator of the Moomin stories written between 1945 and 1970 and still in print in more than twenty languages However the Moomins were only a part of her prodigious output Already admired in Nordic art circles as a painter cartoonist and illustrator she would go on to write a series of classic novels and short stories She remains Scandinavia's best loved author Tove Jansson's work reflected the tenets of her life her love of family and special bond with her mother of nature and her insistence on freedom to pursue her art Love and work was the motto she chose for herself and her approach to both was joyful and uncompromising If her relationships with men foundered on her ambivalence towards marriage those with women came as a revelation especially the love and companionship she found with her long time partner the artist Tuulikki Pietil with whom she lived on the solitary island of Klovharu In this meticulously researched authorised biography Boel Westin draws together the many threads of Jansson's life from the studies interrupted to help her family the dark shades of war and her emergence as an artist with a studio of her own to the years of Moomin mania and later novel writing Based on numerous conversations with Tove and unprecedented access to her journals letters and personal archives Tove Jansson Life Art Words offers a rare and privileged insight into the world of a writer whom Philip Pullman described simply as a genius

Art of Words, 2008 A compilation of poems and illustrations by 5 authors *Making Theory/Constructing Art* Daniel Herwitz, 1993-11 Artists and critics regularly enlist theory in their creation and assessment of artworks but few have scrutinized the art theories themselves Making Theory Constructing Art On the Authority of the Avant Garde is among the first philosophical texts to provide a close encounter with this theoretical tendency in twentieth century art and aesthetics exploring the norms assumptions historical conditions and institutions that have framed the development and uses of theory in art In a series of intricate readings of constructivism Mondrian and John Cage Daniel Herwitz outlines the avant garde's belief that theory can perfectly prefigure the avant garde art object and invest it with utopian force Through similarly insightful treatments of Arthur Danto Andy Warhol Jean Francois Lyotard Jean Baudrillard and postmodern art and theory Herwitz demonstrates how the contemporary art world is heir to the avant garde's theoretical assumptions and practices In fact avant garde art objects live as art only by partly resisting the master theories of their makers and interpreters Skillfully resisting the lure of grand theory himself Herwitz urges the art world to be more self critical and self reflective about its uses of theory Making Theory Constructing Art is as accessible and entertainingly written as it is philosophically incisive Since the book is both a philosophical and a cultural encounter with theory in twentieth century art it will engage all those who have tried to grapple with the inscrutability of the theoretical art muse
