Abstract Machines Garin Dowd, 2007 Abstract Machines Samuel Beckett and Philosophy after Deleuze and Guattari is an innovative approach to the relationship of the work of Samuel Beckett to philosophy The study seeks to combine intertextual analysis and a schizoanalytic genealogy derived from the thought of Gilles Deleuze and Felix Guattari to explore a becoming philosophy of Beckett s literary writing The author focuses on zones of encounter and confrontation spaces and times of becoming between Beckett selected philosophers and Deleuze and Guattari In the retrospective glance occasioned by that part of Deleuze and Guattari s complex legacy which embraces their interest in the author Beckett s writing in particular effectuates a threshold hesitation which can be seen directly to impact on their approach to the history of philosophy and on their contribution to its molecularization in the name of experimentation Abstract Machines with its arresting perspectives on a wide range of Beckett s work will appeal to academics and postgraduate students interested in the philosophical echoes so evident in his writing The extent of its recourse to philosophers aside from Deleuze and Guattari including notably Alain Badiou renders it a timely and provocative intervention in contemporary debates concerning the relationship of literature to philosophy both within Beckett studies and beyond
