Theology and the Arts David Baily Harned, 2014-04-15 This treatise on the importance of what the artist does especially the man of letters examines recent Christian appraisals of the creative enterprise and argues that Protestant interpretations of culture today are marred by their departure from Biblical faith in God as Creator Today theologians find themselves writing more and more about painting music poetry drama and the novel Many are convinced that no definition of man or interpretation of his condition is adequate if it ignores man as a creator Some Christian writers have been content to explore the possibilities of new dialogue between religion and the arts Others have sought to develop a theology of art a systematic interpretation of what artists are doing why they are doing it and what it means in the context of the Christian story about nature man and God In doing so they have used either the image of creation the cross or consummation as their point of departure for an interpretation of the artist s venture Dr Harned examines the merits and problems involved in the use of each image for the appraisal of the human enterprise and contends that consummation must use the doctrine of God as Creator in order to be useful to contemporary Christianity He emphasizes the need for Protestantism to recover the idea of the natural and defines it in a way congruent with the theology of the Reformers Here are insightful answers for all who want to understand the importance of the arts why theologians are concerned with literature and painting and how that concern has been expressed

Modern Art and the Life of a Culture Jonathan A. Anderson, William A. Dyrness, 2016-05-23 In 1970 Hans Rookmaaker published Modern Art and the Death of a Culture a groundbreaking work that considered the role of the Christian artist in society This volume responds to his work by bringing together a practicing artist and a theologian who argue that modernist art is underwritten by deeply religious concerns [Text, Literature and Aesthetics in Honor of Monroe C. understand and appreciate the language and style of film criticism The Arts and the Christian Life Earl Davey, 2022-05-09

Many find their engagement with works of art raises questions concerning where value is found and how meaning and import are understood and experienced For persons of Christian faith a parallel question arises concerning the significance such experience holds for the Christian life and the spiritual journey This collection of essays pursues questions that address how we perceive value in our experience of the arts how this experience leads to a greater measure of human fullness and what significance engagement with the arts holds for the Christian life The author argues that human experience and the quality of our personhood are enriched in and through the imaginative life and that our spiritual lives are profoundly impacted by our aesthetic engagements An underlying assumption is that all great art all that is beautiful is inherently religious that is it embodies qualities that reflect the glory of God and is therefore valuable to the Christian life and one's spiritual experience Indeed insofar as the noetic privileges language and reason the arts and the domain of the aesthetic provide an alternate pathway by which we are able to encounter the Divine *Problems of Reason: Kant in Context* Antonino Falduto, 2024-09-03

This volume aims to make a significant contribution to the debate surrounding the renaissance of Kant studies in the last few decades with a particular emphasis upon some problems of reason Like no other Kant covered the entire breadth of the modern debate concerning the concept of reason and its forms Accordingly despite the range of topics this volume inevitably deals with Immanuel Kant remains the common point of reference for all contributions The volume is divided into two sections The first section is dedicated to Kant's philosophy in particular and its relationship with the philosophies of Kant's predecessors From the perspective of the history of philosophy interpretations of the significance of different philosophical traditions concerning Kant's thought will be given and of the relationship of Kant's thought to the problems of reason with which Kant and his predecessors dealt The second section is dedicated to the legacy of Kant's philosophy The relevance of the concept of rationality for the genesis and systematics of post Kantian ideas of rationality will be discussed and the potential of Kant's critical philosophy for contemporary thought as well will be examined **John Donne's Lyrics** Arnold Sidney Stein, 1962-01-01

John Donne's Lyrics was first published in 1962 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Combining modern insight with historical perspective Professor Stein offers a fresh interpretation of Donne's lyric poems His method is cumulative it includes cross references to the religious writing analysis of individual poems and their relationship to larger patterns which reflect Donne's poetic mind Among the specific problems he deals with are those which concern metaphor symbol myth wit fictions negative theology consciousness and simplicity binary and ternary form in poetry meter and meaning rationalism and affective language the visual and the auditory Professor Stein demonstrates that to gain insight into the integrity of Donne's poetic mind it is necessary to take seriously two propositions that Donne is a poetic logician endowed with a talent and love for the unity of imaginative form and that Donne's poetry though it is not

simple nevertheless deeply and persistently engages important problems which concern simplicity In one of his sermons Donne wrote The eloquence of inferiours is in words the eloquence of superiours is in action Professor Stein maintains that in his best poems Donne aspires to the eloquence of action and never to the eloquence of words Although the study is focused on Donne s lyrics the interpretation is based on a long study of all the poems and the prose and on background and foreground materials In a postscript the author discusses Donne s modern career **Companion to Historiography**
