Slade, 2001 A three volume reference guide to the available literature concerning pornography and sexual representation in America **Pornographic Art and the Aesthetics of Pornography** H. The Future of Post-Human Sexuality Peter Baofu,2009-12-14 What precisely resides in sexuality which warrants the popular discourse on sexuality as part of our world freedom or something as an inspiring source for our own creation of new forms of relationships or new forms of love never before possible in human history This popular treatment of sexual freedom has become so politically correct in this day and age of ours that it fast degenerates into a seductive ideology which has impoverished our understanding of sexuality by blinding us from its dark sides Contrary to this intoxicating conventional wisdom the dark sides of this seductive ideology have yet to be systematically understood and that its very creative freedom is neither possible nor desirable to the extent that its advocates would like us to believe Of course this is not to suggest that sexuality should not be about freedom nor creativity or that the literature in sexual studies and other related fields like gender studies queer studies and cultural studies for example should be ignored because of their scholarly nonsense Needless to say neither of these two extreme views is reasonable either Instead the purpose of this book is to provide an alternative better way to understand the nature of sexuality in special relation to the sexual body and spirit in conjunction with the mind while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other This seminal project if successful will fundamentally change the way that we think about the nature of sexuality from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate **The Bloodiest Thing**

That Ever Happened In Front Of A Camera Stephen Milligen,2017-04-06 How porno chic became porno hell In the early 1970s outrageous claims were made of a new blood spattered cinematic extreme This was the legend of the snuff movie which promoted the inhuman notion that a woman had been murdered to satisfy the sexual appetite of a jaded public The story was produced by a kind of madness incarnate but it reflected the desperation of America in cultural turmoil Snuff was a backlash against the na ve liberalism of the counterculture embraced by people who preferred to believe the worst about their society Once unleashed the concept was embraced and manipulated by the tabloid media and a variety of political and social crusaders each using it to further their own cause Brutal evil ghastly beyond belief snuff became an iconic urban legend This book is the true startling and hideously exploitative history of that legend and how it was created SNUFF THE BLOODIEST THING THAT EVER HAPPENED IN FRONT OF A CAMERA *The Palgrave Handbook of the Philosophy of*

Romanticism and Postromanticism Claudia Moscovici,2007-02-09 Claudia Moscovici asserts in Romanticism and

Postromanticism that the Romantic heritage far from being important only in a historical sense has philosophical relevance and value for contemporary art and culture With an emphasis on artistic tradition as a continuing source of inspiration and innovation she touches upon each main branch of philosophy aesthetics epistemology and ethics The book begins by describing some of the most interesting features of the Romantic movement that still fuel our culture It then addresses the question How did an artistic movement whose focus was emotive expression change into a quest for formal experimentation And finally Moscovici considers the aesthetic philosophy of postromanticism by thinking through how the Romantic emphasis upon beauty and passion can be combined with the modern and postmodern emphasis on originality and experimentation

Art History as a Reflection of Inner Spiritual Impulses Rudolf Steiner, 2016-06-01 13 slide presentations Dornach Oct 8 1916 Oct 29 1917 CW 292 I am going to show you a series of reproductions of slides from a period in art history to which the human mind will probably always return to contemplate and consider for if we consider history as a reflection of inner spiritual impulses it is precisely in this evolutionary moment that we see certain human circumstances ones that are among the deepest and most decisive for the outer course of human history expressed through a relationship to art Rudolf Steiner Rudolf Steiner understood that the history of art is a field in which the evolution of consciousness is symptomatically and transparently revealed This informal sequence of thirteen lectures was given during the darkest hours of World War I It was a moment when the negative consequences of what he called the age of the consciousness soul which began around 1417 were made most terribly apparent In these lectures he sought to provide an antidote to pessimism After describing the movement of consciousness from Greece into Rome coupled with influences from the Orthodox East he showed how these influences transformed as the Middle Ages became the Renaissance The process that begins with Cimabue and Giotto develops deepens and becomes more conscious in the great Renaissance masters Leonardo Michelangelo and Raphael Then this movement continues with the Northern masters Dürer and Holbein as well as the German tradition One entire lecture is devoted to Rembrandt followed by one on Dutch and Flemish paintings Themes are woven together to show how past epochs of consciousness and art live again in our consciousness soul period Replete with interesting information and more than 600 color and black and white images these lectures are rich and dense with ideas enabling us to understand both the art of the Renaissance and the transformation of consciousness it announced These lectures demonstrate to paraphrase Shelley that artists truly are the unacknowledged legislators of the age Art History as a Reflection of Inner Spiritual Impulses is a translation from German of *Kunstgeschichte als Abbild innerer geistiger Impulse* GA 292 Rudolf Steiner Verlag 2000
