Loaded Words Marjorie B. Garber, 2012 Asthma is a common chronic inflammatory condition of the airways which causes coughing wheezing shortness of breath and tightness of the chest Asthma attacks can be triggered by exposure to allergens physical exertion stress or can be aggravated as a result of common coughs and colds Over 5 million people in the UK and over 6% of children in the US suffer from Asthma and a recent increase in prevalence is

thought to be attributed to our modern lifestyle such the changes in housing diet and a more hygienic environment that have developed over the past few decades Asthma The Facts is a practical guide to asthma suitable for those who suffer from asthma their families and the health professionals that treat them It details how a diagnosis of asthma is reached and what treatments are available to successfully manage the condition and prevent attacks on a day to day basis The book contains advice on proactive changes which can be made to lifestyles such as avoiding allergens as well as how to cope with an attack and how to administer the relevant treatment effectively The authors conclude that whilst there is currently no cure for asthma by taking a proactive self directed approach to management its impact on the patient and their lives can be significantly reduced

The Entrepreneurial Humanities Alain-Philippe Durand,Christine Henseler,2023-06-07 With AI cryptocurrency and more in the news it seems that being an entrepreneur means being in IT but humanities graduates are launching new businesses every day turning a profit and having social impact This book explores how a humanities background can enable entrepreneurs to thrive Across all levels of education students are given the message that to change the world or make money the arts and humanities are not the subjects to study At the same time discussions of innovation and entrepreneurship highlight the importance of essential skills such as critical thinking storytelling cultural awareness and ethical decision making Here s the disconnect the subjects that help to develop these vital skills are derided at critical points in any aspiring entrepreneur s education This collection of perspectives from entrepreneurs in a range of fields and humanities educators illustrates what individuals and the wider world are missing when humanities are overlooked as a source of inspiration and success in business Featuring a foreword by Sensemaking author Christian Madsbjerg this is a thought provoking guide for aspiring entrepreneurs in all sectors and for educators a window on the practical value of the humanities in an ever more mechanized world _ *The Humanities; Applied Aesthetics* Louise Dudley,Austin Faricy,1967

Applied Drama and Person-Centred Nursing Karl Tizzard-Kleister,2024-12-24 This ground breaking book highlights and extends on the increasing number of research and practice collaborations between the disciplines of drama and nursing across the globe Uniquely it presents how drama based interactive education can enable nursing students to develop an embodied understanding of sympathetic presence within a person centred curriculum This text provides meaningful insights into how to cultivate approaches to be person centred and sympathetically present in every interaction with others through the application of drama based methods The work described within seeks to show how applying drama can help people perform more effective person centred practices with applied drama approaches which are in turn more person centred By focusing on the author s innovative doctoral research study this book seeks to show how taking part in expertly designed drama practice alongside nursing education leads nurses towards engaging more in person centredness overcoming their personal vulnerabilities showing an enhanced ability to attend to others and a greater understanding of how to perform presence Meanwhile showing applied drama practitioners how they can understand facilitation practice through sympathetic

presence to discover practical ways to approach an aesthetics of care in their practice This book offers a process for nurse educators and applied drama artists to work together in a mutual exchange where both fields can contribute specialised expertise in developing the next generation of person centred practitioners Higher Education Careers Beyond the Professoriate Karen Cardozo,Katherine Kearns,Shannan Palma,2024-03-15 Higher Education Careers Beyond the Professoriate is one of the first collections to explore PhD career versatility within higher education The twenty three contributors represent diverse disciplines institution types professional roles and intersectional identities Each thoughtful and personal essay explores firsthand what it means to remain in higher education yet not in the traditional role of a professor Topics include establishing new career paradigms well being and work life balance blended roles and identities and professional work around advocacy and inclusion Unifying the essays is the idea that career diversity is intertwined with other diversity discourse yielding a broad based but critical examination of careers in higher education administration Though the doctoral landscape continues to change a self determined values driven attitude remains essential This book offers powerful insight into cultural and structural barriers that inhibit institutional transformation and obscure the real range of PhD futures Frank about both challenges and opportunities these essays reveal how letting go of track thinking opens a constellation of possibilities and many paths to meaningful work and a fulfilling life **The Science of Citizen**

Science Katrin Vohland,Anne Land-zandstra,Luigi Ceccaroni,Rob Lemmens,Josep Perelló,Marisa Ponti,Roeland Samson,Katherin Wagenknecht,2021-01-11 This open access book discusses how the involvement of citizens into scientific endeavors is expected to contribute to solve the big challenges of our time such as climate change and the loss of biodiversity growing inequalities within and between societies and the sustainability turn The field of citizen science has been growing in recent decades Many different stakeholders from scientists to citizens and from policy makers to environmental organisations have been involved in its practice In addition many scientists also study citizen science as a research approach and as a way for science and society to interact and collaborate This book provides a representation of the practices as well as scientific and societal outcomes in different disciplines It reflects the contribution of citizen science to societal development education or innovation and provides an overview of the field of actors as well as on tools and guidelines It serves as an introduction for anyone who wants to get involved in and learn more about the science of citizen science
