Pietro Bembo Carol Kidwell, 2004 Carol Kidwell's lavishly illustrated book is the first full length biography of Renaissance Cardinal Pietro Bembo Her extensive use of translations from Bembo's 2 600 letters including exchanges of love letters with Lucrezia Borgia provides a picture of personal life in the brilliant turbulent years of the Italian Renaissance Bembo a Venetian patrician and man of letters had a close association with the printer Aldus He enjoyed a rich life with illicit love affairs in the courts of Ferrara Urbino and finally Rome where he was appointed Latin secretary to Leo X Ten years later

ill and bored Bembo left Rome for Padua with Morosina the young sister of a Vatican courtesan To guarantee a living he took vows of chastity poverty and obedience in the aristocratic order of St John of Jerusalem and then started a family Bembo was active in education in Padua and his great achievement was to have helped create a common language for Italy through the revival of medieval Tuscan in his poetry and prose Appointed official historian of Venice after Morosina's death he became a cardinal An open mind coupled with staunch support of the established church during the troubled years of the reformation made him an asset to the papal curia At the time of his accidental death in Rome in 1547 he was considered a likely successor to Paul III

Calendar of Home Office Papers of the Reign of George III, preserved in Her Majesty's public Record Office, 1878 *The Scottish Jurist*, 1867

European Yearbook of Constitutional Law 2019 Ernst Hirsch Ballin, Gerhard van der Schyff, Maarten Stremler, 2019-12-02 The European Yearbook of Constitutional Law EYCL is an annual publication initiated by the Department of Public Law and Governance at Tilburg University and devoted to the study of constitutional law It aims to provide a forum for in depth analysis and discussion of new developments in the field both in Europe and beyond This inaugural volume examines the safeguards and limits of judicial power in a variety of constitutional systems both at the national and supranational level The book approaches the judiciary as part of the constitutional system operating within a legal order that connects the citizens and institutions of the state to each other Looking at the judiciary from this broader perspective the traditional doctrine of the separation of powers would appear no longer to adequately represent the diversity and complexity of constitutional systems and their democratic legitimacy Judicial independence does not mean isolation but should better be understood as institutionalizing relationships that legitimize the power of the courts The notions of

safeguards and limits indicate the reciprocally enabling and protecting nature of these relationships. In recognition of this, the contributions to this volume analyse these safeguards and limits as relations existing within a complex constitutional architecture. State institutions today are involved in a fundamental transformation of their selfunderstanding as a result of changes in political culture. Several contributions to this volume provide examples of political criticism and pressure on the judiciary against which the usual guarantees are unable to provide adequate protection. A convincing and effective response to threats to the judiciary's independence requires a detailed and precise analysis of the judiciary's constitutional safeguards and limits. This book offers a step in that direction.
