Apprenticeship Writings Of Frank Norris 1896 1898:

The Apprenticeship Writings of Frank Norris, 1896-1898 Frank Norris, 1996 Frank Norris 1870 1902 has long been recognized by cultural historians as a touchstone figure clearly signaling in 1899 the emergence of an American school of Literary Naturalism. *McTeague*, A Story of San Francisco, secured this honor for him that year as it registered more fully than any previous American novel the Darwinian view of life that is the essential characteristic of all subsequent Naturalistic fictions. It thus marked as well the rejection of the Victorian Era's habitually idealistic representations of human nature and its basically religious world view offering instead a post metaphysical portrait of the human condition that has remained popular in 20th century literary and intellectual circles. Includes all of the known writings of Norris published between 11 April 1896 and 1897.

Illus The Apprenticeship Writings of Frank Norris Frank Norris, Joseph R. McElrath, **A Companion to the American Short Story** Alfred Bendixen, James Nagel, 2020-08-24 A COMPANION TO THE AMERICAN SHORT STORY A Companion to the American Short Story traces the development of this versatile literary genre over the past two centuries. Written by leading critics in the field and edited by two major scholars it explores a wide range of writers from Edgar Allan Poe and Edith Wharton at the end of the nineteenth century to important modern writers such as Ernest Hemingway, William Faulkner, F. Scott Fitzgerald and Richard Wright. Contributions with a broader focus address groups of multiethnic Asian and Jewish writers. Each chapter places the short story into context focusing on the interaction of cultural forces and aesthetic principles. The Companion takes account of cutting edge approaches to literary studies and contributes to the ongoing redefinition of the American canon embracing genres such as ghost and detective fiction, cycles of interrelated short fiction and comic social and political stories. The volume also reflects the diverse communities that have adopted this literary form and made it their own featuring entries on a variety of feminist and multicultural traditions. This volume presents an important new consideration of the role of the short story in the literary history of American literature.

Evolution and "the Sex Problem" Bert Bender, 2004 A noteworthy investigation of the Darwinian element in American fiction from the realist through the Freudian eras. Theories of sexual selection and of the emotions are essential elements in American fiction from the late 1800s through the 1950s, particularly during the Freudian era and the years surrounding the Scopes trial, the Sex Problem, and what resulted was a great diversity of American narratives aligned with either Darwinian or a number of anti-Darwinian theories of evolution. Included are intriguing discussions of works by Frank Norris, Jack London, Stephen Crane, Theodore Dreiser, Gertrude Stein, Willa Cather, Sherwood Anderson, F. Scott Fitzgerald, five writers of the Harlem Renaissance, John Steinbeck, and Ernest Hemingway. Among the ideas explored are Darwin's theory of common descent, the question of man's place in nature, the possibility of evolutionary progress, the issues of heredity and eugenics, the Darwinian basis of Freud's theory of sexual repression, the quandary of male violence and the role of female choice in sexual selection, the power of and the problems of racial and sexual selection, the power of and the problems of racial and sexual difference, and the

ecological problems that arose directly from Darwin's theory of evolution America's major narratives of human life and love and will be appreciated by literary scholars and readers interested in Darwinism and culture *Encyclopedia of American Literature* Manly, Inc.,2013-06 Susan Clair Imbarrato Carol Berkin Brett Barney Lisa Paddock Matthew J Bruccoli George Parker Anderson Judith S **The Oxford Handbook of American Literary Naturalism** Keith Newlin,2011-05-26 After its heyday in the late nineteenth and early twentieth century naturalism a genre that typically depicts human beings as the product of biological and environmental forces over which they have little control was supplanted by modernism a genre in which writers experimented with innovations in form and content In the last decade the movement is again attracting spirited scholarly debate The Oxford Handbook of American Literary Naturalism takes stock of the best new research in the field through collecting twenty eight original essays drawing upon recent scholarship in literary and cultural studies The contributors offer an authoritative and in depth reassessment of writers from Stephen Crane Frank Norris Theodore Dreiser and Jack London to Kate Chopin Edith Wharton Ernest Hemingway Richard Wright John Steinbeck Joyce Carol Oates and Cormac McCarthy One set of essays focus on the genre itself exploring the historical contexts that gave birth to it the problem of definition its interconnections with other genres the scientific and philosophical ideas that motivate naturalist authors and the continuing presence of naturalism in twenty first century fiction Others examine the tensions within the genre the role of women and African American writers depictions of sexuality the problem of race and the critique of commodity culture and class A final set of essays looks beyond the works to consider the role of the marketplace in the development of naturalism the popular and critical response to the works and the influence of naturalism in the other arts

Huber, 2023-11-21 The literary response to the dawning cult of wakefulness A turn of the century influx of new technologies and the enormous impact of the electric light transformed not only individual sleeping habits but the ways American culture conceived and valued sleep Hannah L Huber analyzes the works of Henry James Edith Wharton Charles Chesnutt and Charlotte Perkins Gilman to examine the literary response to the period's obsession with wakefulness As these writers blurred the separation of public and private space their characters faced exhaustion in a modern world that permeated every moment of their lives with artificial light traffic noise and the social pressure to remain active at all hours The implacable cultural clock and constant stress over physical limitations had an even greater impact on marginalized figures Huber pays particular attention to how these writers rebutted Americans' confidence in the body's ability to conquer sleep with vivid portraits of the devastating consequences of sleep disruption and deprivation The author also provides a website and text visualization tool that offers readers an interdisciplinary deconstructed analysis of the book's primary texts The website can be found at <https://sleepfictions.org/sleep-scalar/index> **The Cambridge Introduction to American Literary Realism** Phillip J. Prospects for the Study of American Literature (II) Richard Kopley, Barbara Cantalupo, 2009 What can there possibly be left to say about This common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain
