Mias on the reception of Greek myth through history H. S. Versnel on the intersections of myth and ritual Carolina Lopez Ruiz on the Near Eastern contexts Joseph Falaky Nagy on Indo-European structure in Greek myth William Hansen on myth and folklore Claude Calame on the application of semiotic theory of narrative Christiane Sourvinou Inwood on reading visual sources such as vase paintings and Robert A. Classical Art Caroline Vout, 2018-05-29 How did the statues of ancient Greece wind up dictating art history in the West How did the material culture of the Greeks and Romans come to be seen as classical and as art What does classical art mean across time and place In this ambitious richly illustrated book art historian and classicist Caroline Vout provides an original history of how classical art has been continuously redefined over the millennia as it has found itself in new contexts and cultures All of this raises the question of classical art's future What we call classical art did not simply appear in ancient Rome or in the Renaissance or in the eighteenth century Academy Endlessly repackaged and revered or rebuked Greek and Roman artifacts have gathered an amazing array of values both positive and negative in each new historical period even as these objects themselves have reshaped their surroundings Vout shows how this process began in antiquity as Greeks of the Hellenistic period transformed the art of fifth century Greece and continued through the Roman empire Constantinople European court societies the neoclassical English country house and the nineteenth century up to the modern museum A unique exploration of how each period of Western culture has transformed Greek and Roman antiquities and in turn been transformed by them this book revolutionizes our understanding of what classical art has meant and continues to mean

Approaches to the Study of Attic Vases Philippe Rouet, 2001 This book concerns the history of the interpretation of Attic painted vases and is based on a comparative study of the works of Edmond Pottier 1855 1934 the founder and organizer of the *Corpus Vasorum Antiquorum* and John Beazley 1885 1970 who carried out the majority of vase attributions The comparison between the two men involves an examination of two intellectual traditions which run through the history of the study of pottery The first of these accentuates the documentary value of vases and the need to ensure their global publication while the second views vases as objects d'art and endeavours to trace the development of artistic forms by constructing a history of vase painters In reality these approaches are not directly conflicting but represent two poles around which the discipline of pottery scholarship is organized By showing how both interpretations have gained support in the more recent past this work aims to provide a better understanding of the issues involved in the study of pottery today

Comic Angels and Other Approaches to Greek Drama through Vase-Paintings Oliver Taplin, 1993-01-28 This book opens up a neglected chapter in the reception of Athenian drama especially comedy and it gives stage centre to a particularly attractive and entertaining series of vase paintings which have been generally regarded as marginal curiosities These are the so called phryx vases nearly all painted in the Greek cities of South Italy in the period 400 to 360 BC Up till now they have been taken to reflect some kind of local folk theatre but Oliver Taplin prompted especially by three that have only been published in the last twelve years argues that most if not all reflect Athenian comedy of the sort represented by Aristophanes This bold thesis opens up questions of the relation of tragedy as well as comedy to vase painting the cultural climate of the Greek cities in Italy and the extent to which Athenians were aware of drama as a potential export It also enriches appreciation of many key aspects of Aristophanic comedy its metatheatricality and self reference its use of stage action and stage props its unabashed indecency and its polarised relationship even rivalry with tragedy The book has assembled thirty six photographs of vase paintings Many are printed here for the first time outside specialist publications that are not readily accessible
