Francesco Ferrari, Laura Villanueva, Davide Tacchini, Binyamin Gurstein, 2024-04-15 Reconciliation studies are concerned with the processes of rebuilding and improving damaged relationships after major wrongdoings They focus on factors such as law economics and international relations as well as on elements such as emotions and ethics culture and religion media and education Reconciliation research therefore requires a transdisciplinary approach to analyse both the procedures leading to the recognition of truth as well as those in which justice is administered both the impact of public apologies and cooperation agreements both the implementation of memory policies and civil society initiatives both the outcomes of trauma therapy and intergenerational encounter groups While on the surface the relationships in question are those between states groups organisations and individuals at a deeper level reconciliation always addresses and involves many axes of damaged relationships those with others intergroup those with one's own group intragroup those with oneself those with the environment and those with transcendence Reconciliation studies deal therefore with a much broader spectrum of relationships than that taken into consideration by neighbouring disciplines such as conflict resolution and peace studies In this volume Francesco Ferrari and Davide Tacchini brought together examples of Leiner's approach to reconciliation studies as a cooperative project of different disciplines The articles are divided into two sections 1 A series of case studies about Japan South Korea relations German Czech reconciliation Nagorno Karabakh conflict using the methods of Martin Leiner Sayyid Qutb's view of American society and South Africans revisiting TRC 2 A series of theoretical clarifications on reconciliation and moderation from a Palestinian point of view evolutionary game theory looking at reconciliation processes by a team of economists grace and reconciliation from a Catholic theological point of view philosophical reflections

on the concept of reconciliation after Auschwitz cognitive and affective aspects in reconciliation from a Catholic theological point of view ecology and spatiality of reconciliation seen by a social geographer and political dimensions of reconciliation

New Microhistorical Approaches to an Integrated History of the Holocaust Frédéric Bonnesoeur, Hannah Wilson, Christin Zühlke, 2023-11-06 In 1997 Saul Friedländer emphasized the need for an integrated history of the Holocaust His suggestion to connect the policies of the perpetrators the attitudes of surrounding society and the world of the victims provides the inspiration for this volume Following in these footsteps this innovative study approaches Holocaust history through a combination of macro analysis with micro studies Featuring a range of contemporary research from emerging scholars in the field this peer reviewed volume provides detailed engagement with a variety of historical sources such as documents artifacts photos or text passages The contributors investigate particular aspects of sound materiality space and social perceptions to provide a deeper understanding of the Holocaust which have often been overlooked or generalised in previous historical research Yet as we approach an era of no first hand witnesses this multidisciplinary micro historical approach remains a fundamental aspect of Holocaust research and can provide a theoretical framework for future studies

Approaches to Metaphysics William Sweet, 2006-02-28 Today when systematic philosophy and reason itself are challenged both outside of and within philosophy is it still possible to do metaphysics This volume provides a broad perspective on contemporary approaches to the nature and the fundamental questions of metaphysics Drawing on scholars from continental Europe Asia Canada the United States and Great Britain and representing a variety of philosophical cultures and traditions this volume surveys and extends work in metaphysics and its implications for broader philosophical concerns e g in ethics and social philosophy in mathematics and logic and in epistemology It also addresses such questions as the role of history and historicity in undertaking metaphysics the nature of metaphysics the priority of metaphysics over epistemology and the challenges of empiricism and postmodernism

Surviving the Holocaust Ronald Berger, 2010-08-23 Surviving the Holocaust is a compelling sociological account of two brothers who survived the Holocaust in Nazi occupied Poland One brother the author's father endured several concentration camps including the infamous camp at Auschwitz as well as a horrific winter death march while the other brother the author's uncle survived outside the camps by passing as a Catholic among anti Semitic Poles including a group of anti Nazi Polish Partisans eventually becoming an officer in the Soviet army As an exemplary theorized life history Surviving the Holocaust applies concepts from life course theory to interpret the trajectories of the brothers lives enhancing this approach with insights from agency structure and collective memory theory Challenging the conventional wisdom that survival was simply a matter of luck it highlights the prewar experiences agentive decision making and risk taking and collective networks that helped the brothers elude the death grip of the Nazi regime Surviving the Holocaust also shows how one family's memory of the Holocaust is commingled with the memories of larger collectivities including nations states and their institutions and how the memories of individual survivors are infused with

collective symbolic meaning **Visualizing Jews Through the Ages** Hannah Ewence, Helen Spurling, 2015-03-24 This volume explores literary and material representations of Jews Jewishness and Judaism from antiquity to the twenty first century Gathering leading scholars from within the field of Jewish Studies it investigates how the debates surrounding literary and material images within Judaism and in Jewish life are part of an on going strategy of image management the urge to shape direct authorize and contain Jewish literary and material images and encounters with those images a strategy both consciously and unconsciously undertaken within multifarious arenas of Jewish life from early modern German lands to late twentieth century North London late Antique Byzantium to the curation of contemporary Holocaust exhibitions Gray Zones Jonathan Petropoulos, John Roth, 2006-10-01 Few essays about the Holocaust are better known or more important than Primo Levi s reflections on what he called the gray zone a reality in which moral ambiguity and compromise were pronounced In this volume accomplished Holocaust scholars among them Raul Hilberg Gerhard L Weinberg Christopher Browning Peter Hayes and Lynn Rapaport explore the terrain that Levi identified Together they bring a necessary interdisciplinary focus to bear on timely and often controversial topics in cutting edge Holocaust studies that range from historical analysis to popular culture While each essay utilizes a particular methodology and argues for its own thesis the volume as a whole advances the claim that the more we learn about the Holocaust the more complex that event turns out to be Only if ambiguities and compromises in the Holocaust and its aftermath are identified explored and at times allowed to remain lest resolution deceive us will our awareness of the Holocaust and its implications be as full as possible **The Problem of Evil and Its Symbols in Jewish and Christian Tradition** Henning Graf Reventlow, Yair Hoffman, 2004-12-30 The existence of evil in the world represents one of the most complex problems for those who believe in God Here a range of Jewish and Christian contributors examine the issue of evil in the Bible and its impact on Judaism and Christianity from a variety of perspectives For example how has Jewish mysticism explained evil and what were Luther s thoughts on the topic The dialogue between specialists from different fields allows a broad overview of this problematic issue **Stereotypes and Intercultural Relations: Interdisciplinary Integration, New Approaches, and New Contexts** John W. Berry, Dmitry Grigoryev, Lusine Grigoryan, Anastassia Zabrodskaia, Susan T. Fiske, 2021-11-02 *Long Night's Journey into Day* Alice L. Eckardt, A. Roy Eckardt, Irving Greenberg, Franklin H. Littell, 2016-11-08 *Long Night's Journey Into Day* is a stimulating and provocative attempt to deal with the impact and meaning of the Holocaust within contemporary Christian and Jewish thought To Jews the Holocaust is the most terrible happening in their history but it must also be seen as a Christian event The Eckardts call for a radical rethinking of the Christian faith in the light of the Holocaust examining such issues as the relation between human and demonic culpability the charge of God s guilt and the reality of forgiveness They clarify the theological meaning of the Holocaust and the responsibility that must be borne for it by the Christian Church and discuss possible responses to it as exemplified in the writings of selected modern theologians and church councils This enlarged and revised

edition takes into account new topics and developments including the issue of Austrian responsibility for the Holocaust the significance and aftermath of Bitburg and antisemitism in German feminism More detailed attention is also given to other modern genocides and occasions of humanly caused mass death Additional literary historical and religious works are considered and appropriate quotations incorporated The new edition also includes a revised preface an updated bibliography and two new appendices

Between Cross and Resurrection Alan E. Lewis, 2003-06-20 For much of Christian history the church has given no place to Holy Saturday in its liturgy or worship Yet the space dividing Calvary and the Garden may be the best place from which to reflect on the meaning of Christ's death and resurrection This superb work by the late Alan Lewis develops on a grand scale and in great detail a theology of Holy Saturday The first comprehensive theology of Holy Saturday ever written Between Cross and Resurrection shows that at the center of the biblical story and the church's creed lies a three day narrative Lewis explores the meaning of Holy Saturday the restless day of burial and waiting from the perspectives of narrative hearing the story doctrine thinking the story and ethics living the story Along the way he

visits as many spiritual themes as possible in order to demonstrate the range of topics that take on fresh meaning when viewed from the vantage point of Holy Saturday Between Cross and Resurrection is not only incisive and elegantly written but it is also a uniquely moving work deeply rooted in Christian experience While writing this book Lewis experienced his own Holy Saturday in suffering from and finally succumbing to cancer He considered Between Cross and Resurrection to be the culmination of his life s work

As the Witnesses Fall Silent: 21st Century Holocaust Education in Curriculum, Policy and Practice Zehavit Gross,E. Doyle Stevick,2015-03-16 This volume represents the most comprehensive collection ever produced of empirical research on Holocaust education around the world It comes at a critical time as the world observes the 70th anniversary of the liberation of Auschwitz We are now at a turning point as the generations that witnessed and survived the Shoah are slowly passing on Governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples The policies and practices of Holocaust education around the world are as diverse as the countries that grapple with its history and its meaning Educators around the globe struggle to reconcile national histories and memories with the international realities of the Holocaust and its implications for the present These efforts take place at a time when scholarship about the Holocaust itself has made great strides In this book these issues are framed by some of the leading voices in the field including Elie Wiesel and Yehuda Bauer and then explored by many distinguished scholars who represent a wide range of expertise Holocaust education is of such significance so rich in meaning so powerful in content and so diverse in practice that the need for extensive high quality empirical research is

critical This book provides exactly that Jews and the Christian Imagination S. Haynes, 1995-03-22 Reluctant Witnesses
Jews and the Christian Imagination is an analysis of the ancient Christian myth that casts Jews as a witness people and this
myth's presence in contemporary religious discourse It treats diverse products of the Christian imagination including

people myth which was first articulated by Augustine and which determined official attitudes towards Jews in medieval
Christendom remains a powerful force in the Christian imagination
