Stringer, Paul A. Parrish, 2005-12-01 Praise for previous volumes This variorum edition will be the basis of all future Donne scholarship Chronique This is the 4th volume of The Variorum Edition of the Poetry of John Donne to appear This volume presents a newly edited critical text of the Holy Sonnets and a comprehensive digest of the critical scholarly commentary on them from Donne's time through 1995 The editors identify and print both an earlier and a revised authorial sequence of sonnets as well as presenting the scribal collection which contains unique authorial versions of several of the sonnets inscribed by Donne's friend Rowland Woodward in the Westmoreland manuscript **Early Modern Authorship and the Editorial Tradition** Aleida Auld, 2023-12-12 This volume adds a new dimension to authorship studies by linking the editorial tradition to the transformative reception of early modern authors and their works across time Aleida Auld argues that the editorial tradition provides privileged access to the reception of early modern literature informing our understanding of certain reconfigurations and sometimes helping to produce them between their time and our own At stake are reconfigurations of oeuvre and authorship the relationship between the author and work the relationship between authors

and the author's own role in establishing an editorial tradition. Ultimately this study recognizes that the editorial tradition is a stabilizing force while asserting that it may also be a source of strange and provocative reconceptions of early modern authors and their works in the present day. Scholars and students of early modern literature will benefit from this approach to editing as a form of reception that encompasses all the editorial decisions that are necessary to put forth a text.

Anthologies of British Poetry, 2021-11-22 From Tottel's Miscellany 1557 to the last twentieth century

Oxford Book of English Verse 1999 anthologies have been a prime institution for the preservation and mediation of poetry. The importance of anthologies for creating and re-creating the canon of English poetry for introducing new programmes of poetry as a record of changing poetic fashions, audience tastes and reading practices or as a profitable literary commodity has often been asserted. Despite its impact, however, the poetry anthology in itself has attracted surprisingly little critical interest in Britain or elsewhere in the English-speaking world. This volume is the first publication to explore the largely unmapped field of poetry anthologies in Britain. Essays written from a wide range of perspectives in literary and cultural studies and the point of view of poets, editors, publishers and cultural institutions aim to do justice to the typological, functional and historical variety with which this form of publication has manifested itself from early modern print culture to the postmodern age of the world wide web.

Approaches to Teaching the Works of Sor Juana Inés de la Cruz Emilie L. Bergmann, Stacey Schlau, 2007. This volume addresses the religious, sociocultural and political context of colonial society. Sor Juana lived in a convent, a community of women whose lives were strictly regulated by the rules of their order; in her case, the Hieronymites. She was subject to the authority of the bishop and other clerics. She lived in the capital of an enormously wealthy, colonized region whose vast territory and many inaccessible rural areas created governance nightmares. She participated in a highly stratified colonial society in which class, race, religion and gender determined performative behaviors to a great extent. She was subject to a power struggle between the secular and religious arms of government as well as internecine church conflicts. Her ability to throw off some of the weight of restrictions and limitations on a woman of her temperament, vocation and family background remains truly remarkable. Emilie L. Bergmann and Stacey Schlau, Preface p. xii.

Translucence Carol Gilbertson, Gregg Muilenburg, An ongoing seminar led by Ronald Thiemann of Harvard Divinity School took the arts as the point of departure for consideration of the role of religion in public life, particularly the ways in which Lutheran intellectuals and academics might participate. The emergence of religious meaning in the arts, especially music and literature, and the nature of the spirituality that results are considered by the seminar participants: Curt Thompson, Gregg Muilenburg, Bruce Heggen, Carol Gilbertson, Kathryn P. Duffy, Karen Black, Kathryn Ananda Owens, James Hanson.

Metaphysical Poetry Colin Burrow, 2013-07-04. A key anthology for students of English literature. Metaphysical Poetry is a collection whose unique philosophical insights are some of the crowning achievements of Renaissance verse, edited with an introduction and notes by Colin Burrow. In Penguin Classics. Spanning the Elizabethan age to the Restoration and beyond, Metaphysical poetry sought to describe a time of startling progress, scientific discovery, unrivalled exploration and deep religious uncertainty. This compelling collection of the best and most enjoyable poems from the era includes tightly argued lyrics, erotic and libertine considerations of love, divine poems and elegies of lament by such great figures as John Donne, George Herbert, Andrew Marvell and John Milton, alongside pieces from many other, less well-known but equally fascinating poets of the age such as Anne Bradstreet, Katherine Philips and Thomas Traherne. Widely varied in theme, all are

characterized by their use of startling metaphors imagery and language to express the uncertainty of an age and a profound desire for originality that was to prove deeply influential on later poets and in particular poets of the Modernist movement such as T S Eliot In his introduction Colin Burrow explores the nature of Metaphysical poetry its development across the seventeenth century and its influence on later poets and includes A Very Short History of Metaphysical Poetry from Donne to Rochester This edition also includes detailed notes a chronology and further reading Colin Burrow is Reader in Renaissance and Comparative Literature at Gonville and Caius College Cambridge He has edited Shakespeare s Sonnets for OUP and The Complete Works of Ben Jonson and is working on the Elizabethan volume of the Oxford English Literary History If you enjoyed Metaphysical Poetry you might like John Donne s Selected Poems also available in Penguin Classics

Tottel's Songes and Sonettes in Context Stephen Hamrick, 2016-02-24 Though printer Richard Tottel s Songes and Sonettes 1557 remains the most influential poetic collection printed in the sixteenth century the compilation has long been ignored or misunderstood by scholars of early modern English culture Embracing a broad range of critical and historical perspectives the eight essays within this volume offer the first sustained analysis of the many ways that consumers read and understood Songes and Sonettes as an anthology over the course of the early modern period Copied by a monarch set to music sung carried overseas studied appropriated rejected edited by consumers transferred to manuscript and gifted by Shakespeare this multi author verse anthology of 280 poems transformed sixteenth century English language and culture With at least eleven printings before the end of Elizabeth I s reign Tottel s ground breaking text greatly influenced the poetic publications that followed including individual and multi author miscellanies Contributors to this essay collection explore how in addition to offering a radically new kind of English verse Tottel s Miscellany engaged politics friendship religion sexuality gender morality and commerce in complex and at times contradictory ways
