Fatherhood and Its

Representations in Middle English Texts Rachel E. Moss, 2013 The figure and role of the late medieval father is reappraised through a close reading of a range of documents from the period including both letters and romances Late medieval English society placed great weight on the practices of primogeniture patrilineal descent and patriarchal government and the significance of the father had cultural resonance beyond the rule of law Yet despite aburgeoning interest in both the family and gender the father has to date received little attention from medievalists This book takes an interdisciplinary approach to the analysis of the fictions of fatherhood the ideological constructs that underpinned late medieval conceptions of fathers and patriarchy Its focus on gentry and mercantile readers and writers also offers new insights into the literary culture of late medieval England by considering how texts were produced and received within gentry and bourgeois communities and demonstrates the ability of texts to not only reflect but also shape hegemonic norms and cultural anxieties Through close examination of late medieval letters and romances it shows how the father was the dominant figure not only of medieval domestic life but also of the medieval imagination Dr RACHEL E MOSS is a Lecturer in History at the University of Northampton

Inter-professional Approaches to Young Fathers Jane Reeves, 2008 With one of the highest teenage pregnancy rates in Europe young fatherhood as a site of economic and personal adversity has become a focus of concern in Britain during the late 1990s However despite this policy interest there is surprisingly little British empirical evidence to review One of the aims of the book is to draw together contemporary research evidence social theory and policy which may effect how practitioners students and academics conceptualise and work with young fathers Consequently each chapter illustrates the points it makes using discrete evidence from that particular field Moreover in order to make this process more user friendly each chapter provides a summary of this literature and evidence Finally in order to make the book come alive it draws on case studies which are drawn variously from two studies conducted by the editor

Regulating Family Responsibilities Mr Craig Lind, Ms Heather Keating, Ms Jo Bridgeman, 2013-02-28 This collection brings together some of the most eminent and exciting authors researching family responsibilities to examine understandings of the day to day responsibilities which people undertake within families and the role of the law in the construction of those understandings The authors explore a range of questions fundamental to our understanding of responsibility in family life To whom and to what ends are family members responsible Is responsibility primarily a matter of care Can we fulfil our family responsibilities by paying those to whom we owe responsibility Or by paying others to fulfil our caring obligations for us In each of these circumstances the chapters in this collection explore what it means to have family responsibilities what constitutes an adequate performance of such responsibilities and the point at which the state intervenes At the heart of this collection is an interest in the way in which the changing family affects people's perception and exercise their family responsibilities and how the law attempts to regulate and understand those responsibilities The essays range across intact and separated or fragmented families from lone and shared parenting in single homes to caring across households and even across international boundaries to reflect on the actual caring responsibilities of family members and on

the fulfilment of financial responsibilities in families This collection seeks to advance our understanding of the attempts of the law and its limits in regulating the responsibilities which family members take for each other **Cultural Approaches**

inequalities make it difficult for parents in developing nations to provide for their children and both mothers and fathers often find that migration in search of higher wages is their only hope Their dreams are straightforward with more money they can improve their children's lives But the reality of their experiences is often harsh and structural barriers particularly those rooted in immigration policies and gender inequities prevent many from reaching their economic goals *Sacrificing Families* offers a first hand look at Salvadoran transnational families how the parents fare in the United States and the experiences of the children back home It captures the tragedy of these families daily living arrangements but also delves deeper to expose the structural context that creates and sustains patterns of inequality in their well being What prevents these parents from migrating with their children What are these families experiences with long term separation And why do some ultimately fare better than others As free trade agreements expand and nation states open doors widely for products and profits while closing them tightly for refugees and migrants these transnational families are not only becoming more common but they are living through lengthier separations Leisy Abrego gives voice to these immigrants and their families and documents the inequalities across their experiences **Aids** Luther Butler, 2000-10-05 The Reverend Nick Fielding was

the Welshness of his poetic temperament and critical attitudes as both man and poet At the same time it illustrates Thomas's wide knowledge of and impact on the long and varied tradition of poetry in English In that connection it delineates and delimits Thomas's relationship to surrealism compares and contrasts his work with that of other poets of the 1930s and 1940s and shows how its power survives his early death in 1953 in the decade of the Movement poets and beyond A major aspect of this book is the close textual analysis of the works quoted it explores anew the recognition due to the man who wrote the work and helps us to separate the intrinsic achievement of the work from the foisted perceptions of the legend
