Medieval Muslim Philosophers and Intercultural Communication Wisam Kh. Abdul-Jabbar, 2022-12-30 This book examines the works of Medieval Muslim philosophers interested in intercultural encounters and how receptive Islam is to foreign thought to serve as a dialogical model grounded in intercultural communications for Islamic and Arabic education The philosophers studied in this project were instructors tutors or teachers such as Al Kindi Al Farabi Al Ghazali and Averroes

whose philosophical contributions directly or indirectly advanced intercultural learning The book describes and provides examples of how each of these philosophers engaged with intercultural encounters and asks how their philosophies can contribute to infusing intercultural ethics and practices into curriculum theorizing First it explores selected works of medieval Muslim philosophers from an intercultural perspective to formulate a dialogical paradigm that informs and enriches Muslim education Second it frames intercultural education as a catalyst to guide Muslim communities interactions and identity construction encouraging flexibility tolerance deliberation and plurality Third it bridges the gap between medieval tradition and modern thought by promoting interdisciplinary connections and redrawing intercultural boundaries outside disciplinary limits This study demonstrates that the dialogical domain that guides intercultural contact becomes a curriculum oriented structure with Al Kindi a tripartite pedagogical model with Al Farabi a sojourner experience with Al Ghazali and a deliberative pedagogy of alternatives with Averroes Therefore the book speaks to readers interested in the potential of dialogue in education intercultural communication and Islamic thought research Crucially bridging the gap between medieval tradition and modern thought by promoting interdisciplinary connections and redrawing intercultural boundaries outside disciplinary limits it will speak to readers interested in the dialogue between education intercultural communication and Islamic thought

God's Image and Global Cultures Kenneth Nehrbass, 2016-08-26 Globalization has raised numerous questions about theology and culture for Christians How should we respond to outsourcing and immigration How does anti Western sentiment affect the proclamation of the gospel What is the role of the church in society This book argues that Christians will be most fulfilled and most effective if they embrace their cultural activity rather than feel ambivalent about it The central question of this book is how does bearing God's image relate to cultural activity Nehrbass explains that spheres of culture such as political technological and social structures are systems that God has instilled in humans as his image bearers so that they can glorify and enjoy him forever Therefore a theology of culture involves recognizing that the kingdom of God encompasses heaven and Earth rather than pitting heaven against Earth The text surveys anthropological explanations for humanity's dependence on culture and shows that each explanation provides only partial explanatory scope The most satisfying explanation is that a major functional aspect of bearing God's image is engaging in culture since the Trinity has been eternally engaged in cultural functions like ruling communicating and creating Each chapter contains a summary and questions about what it means to be a world changer in the twenty first century

Environmental Policy, Assessment and Communication David Canter, Martin Krampen, David Stea, 2024-11-07 Originally published in 1988 reissued now with a new series introduction Environmental Policy Assessment and Communication was the second in a trilogy of books to open the series Ethnoscapes Current Challenges in the Environmental Social Sciences These three titles brought together specially commissioned contributions that cover much of the range of topics that the series as a whole would cover Although the following volumes would not have the same format the opening trilogy gave an overview of what

was to come while also providing a broad base for the future authors to build upon This volume has a practical orientation Its contributions deal directly with research on those environmental matters on which government agencies and other organisations formulate policies or develop design strategies This therefore covers the assessment and evaluation of designs and design proposals as well as background research to policy issues **Critical Power Tools** J. Blake Scott ,Bernadette Longo ,Katherine V. Wills,2007-06-01 Winner of the 2007 National Council of Teachers of English NCTE Award for Best Collection of Essays on Technical and Scientific Communication The first book to focus on the intersection of cultural studies and technical communication Critical Power Tools draws on various traditions of cultural studies to develop new or expanded theoretical methodological and pedagogical approaches to technical communication Offered as a sourcebook for the field the book is organized into three parts The first section emphasizing theory building reconceptualizes key concepts or practices such as usability through a cultural studies lens The second section illustrates alternative research methods through several case studies The third section offers critical and productive pedagogical approaches including specific assignments applicable to both undergraduate and graduate courses
