Slide Mountain Theodore Steinberg,1995-03-21 The drive to own the natural world in twentieth century America seems virtually limitless Signs of this national penchant for possessing nature are everywhere from suburban picket fences to elaborate schemes to own underground water clouds even the ocean floor Yet as Theodore Steinberg demonstrates in this compelling witty look at Americans attempts to master the environment nature continually turns these efforts into folly In a rich narrative style recalling the work of John McPhee Steinberg tours America

to explore some of the more unusual dilemmas that have arisen in our struggle to possess nature Beginning along the Missouri River Steinberg recounts the battle for three thousand acres of land the river carved from a Nebraska Indian reservation and deposited in Iowa Then he travels to Louisiana where an army of lawyers butted heads over whether Six Mile Lake was actually a lake or a stream He continues to Arizona to investigate who owned the underground then to Pennsylvania's Blue Ridge Mountains to see who claimed the clouds He ends in crowded New York City with Donald Trump's struggle for air rights Americans' obsession with owning nature was immortalized by Mark Twain in the tale of Slide Mountain where a landslide-prone Nevada peak turned the American dream of real estate into dust In relating these modern-day Slide Mountain stories Steinberg illuminates what it means to live in a culture of property where everything must have an owner
