The Aquarium: an Unveiling of the Wonders of the Deep Sea Philip Henry Gosse, 1856 **The Aquarium** Philip Henry Gosse, 2017-11-24 Excerpt from *The Aquarium An Unveiling of the Wonders of the Deep Sea* The inhabitants of the deep sea have hitherto been almost inaccessible to such observation as this and hence exceedingly little has been accumulated of their Biography A paragraph went the round of the papers some months ago to the effect that an eminent French zoologist in order to prosecute his studies on the marine animals of the Mediterranean had provided himself with a water tight dress suitable spectacles and a breathing tube so that he might walk on the bottom in a considerable depth of water and mark the habits of the various creatures pursuing their avocations Whether a scheme so elaborate was really attempted I know not but I should anticipate feeble results from it The marine aquarium however bids fair to supply the required opportunities and to make us acquainted with the strange creatures of the sea About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works THE AQUARIUM: AN UNVEILING OF THE WONDERS OF THE DEEP SEA.
