Arabian Oasis City The Transformation Of Unayzah:

Arabian Oasis City Soraya Altorki, Donald P. Cole, 1989-07-01 Vast social change has occurred in the Middle East since the oil boom of the mid 1970s As the first anthropological study of an urban community in Saudi Arabia since that oil boom Arabian Oasis City is also the first to document those changes Based on extensive interviews and participant observation with both men and women the authors record and analyze the transformation that has occurred in this ancient oasis city throughout the twentieth century the creation of the present Saudi Arabian state and of a new national economy based on the export of oil and the economic boom brought about by the dramatic increases in the price of oil following the October 1973 Arab Israeli War In addition the authors reveal the changes brought about by the fall in the price of oil beginning in 1982 and analyze the problems confronting Unayzah in its aftermath By demonstrating that the area was not exclusively dominated by tribalism and Bedouin nomads this empirical case study destroys stereotypical views about Saudi Arabia Indeed it proves the existence prior to the coming of the modern Saudi Arabian state of surplus agricultural and craft production and the full development of local regional and long distance trade networks It shows that women although veiled played active roles in work outside the household The social impact of change over the years is however profound especially the gradual replacement of the extended family by the nuclear family changing patterns of husband wife relationships the impact of self earned income on the status of women and the emergence of a new middle class of employees and entrepreneurs Because of the high degree of gender segregation in this area of research Altorki and Cole give us a fortunate collaboration between a Saudi Arabian female scholar and an American male scholar experienced in research in the Middle East

patterns of husband wife relationships the impact of self earned income on the status of women and the emergence of a new middle class of employees and entrepreneurs Because of the high degree of gender segregation in this area of research Altorki and Cole give us a fortunate collaboration between a Saudi Arabian female scholar and an American male scholar experienced in research in the Middle East Bedouin, Settlers, and Holiday-makers Donald Powell Cole, Soraya Altorki, 1998 A new e book edition of the classic study of the radical changes in lifestyle trade agriculture and land use that have taken place on Egypt's northwest coast in the face of a huge influx of Nile Valley settlers and tourists The arid regions impose strict limits upon human existence and activity And yet by respecting those limits the flourishing and stable culture of these regions has for centuries been sustained In the late twentieth century however forces such as modernization globalization and the politics and economics of nations became so great that major changes in the old ways

Intimate Selving in Arab Families Suad Joseph, 1999-12-01 The study of relationships a topic which has received considerable attention in Europe the United States and parts of Asia until now has not been addressed in the Arab world Here for the first time are articles written by native feminist scholars that focus on intimate Arab familial relationships and provide a scholarly discussion of gendering of the self the process of intimate selving in the Arab community The book is divided into three parts biographical and autobiographical ethnographic and literary accounts in which the authors identify key family relationships mother son brother sister mother daughter granddaughter co wives and father daughter and explore them in terms of shaping and defining gender in relation to others *Half Past Ten in the Afternoon* James Budd, Paul Auchterlonie, 2014-05-31 Much of this book is a record of the time the author spent between 1965 and 1970 as an English teacher in Aneiza a provincial town in central Saudi Arabia In an entertaining series of anecdotes he describes the daily life and customs of its people his relations with colleagues and students at the local secondary school and the events leading up to his removal from the town he had come to regard as home his transfer to Riyadh and final departure from the country In the 1960s Aneiza was still living partly in the age of Charles Doughty the 19th century explorer who stayed there for some weeks in the 1870s and architecturally the town had changed little over the intervening decades On the other hand its mid 20th century inhabitants were very much aware of what was happening in the wider world and felt deeply involved with events in the region This involvement is reflected in a chapter on inter Arab politics the Six Day War of June 1967 and its causes and aftermath The author's story does not end in 1970 In *Journey to Makkah* he writes of his transition from agnosticism to Islam and gives us an account of his pilgrimage to Makkah in 1996 in the company of one of his old students from Aneiza Finally in *Aneiza Revisited* he describes the town in its 21st century incarnation during his return visit in 2011 Despite Aneiza's material transformation however with its concrete and glass buildings and fast food outlets he found that despite looking very different it had still managed to retain its intimate social character and essential congeniality Arab Society Nicholas S. Hopkins, Saad Eddin Ibrahim, 1997 This all new edition of the classic Arab Society Social Science

Perspectives containing thirty new articles by leading scholars examines Arab society in the 1990s Articles by scholars from many countries explore such subjects as Arab unity and identity demographic processes the roles of men women and family rural social change political developments and religious change For students scholars and general readers alike Arab Society offers up to date analysis and discussion of the social political and economic transformations that face the region today

Charity in Saudi Arabia Nora Derbal,2022-07-28 In this innovative study of everyday charity practices in Jeddah Nora Derbal employs a bottom up approach to challenge dominant narratives about state society relations in Saudi Arabia Exploring charity organizations in Jeddah this book both offers a rich ethnography of associational life and counters Riyadh centric studies which focus on oil the royal family and the religious establishment It closely follows those who work on the ground to provide charity to the local poor and needy documenting their achievements struggles and daily negotiations The lens of charity offers rare insights into the religiosity of ordinary Saudis showing that Islam offers Saudi activists a language a moral frame and a worldly guide to confronting inequality With a view to the many forms of local community activism in Saudi Arabia this book examines perspectives that are too often ignored or neglected opening new theoretical debates about civil society and civic activism in the Gulf

Debating Arab Authoritarianism Oliver Schlumberger,2007-11-20 This volume inquires into the working mechanisms the inner logic and the durability of authoritarian rule in Arab countries Written by leading American European and Arab experts the collected essays explore the ongoing political dynamics of the region and show how Arab regimes retain power despite ongoing transformations on regional national and international levels and in societal political and economic spheres The findings of this book strongly suggest that democratization remains off the agenda in any Arab country for the foreseeable future Domestic political protests international pressure toward more liberal governance and reform oriented regimes notwithstanding Debating Arab Authoritarianism indicates that while the impetus for political change is strong it is in the direction of an adaptation to changed circumstances and may even be a revitalization or consolidation of authoritarian rule rather than a systemic transition to democracy

A Most Masculine State Madawi Al-Rasheed,2013-03-15 Women in Saudi Arabia are often described as either victims of patriarchal religion and society or successful survivors of discrimination imposed on them by others Madawi Al Rasheed s new book goes beyond these conventional tropes to probe the historical political and religious forces that have across the years delayed and thwarted their emancipation The book demonstrates how under the patronage of the state and its religious nationalism women have become hostage to contradictory political projects that on the one hand demand female piety and on the other hand encourage modernity Drawing on state documents media sources and interviews with women from across Saudi society the book examines the intersection between gender religion and politics to explain these contradictions and to show that despite these restraints vibrant debates on the question of women are opening up as the struggle for recognition and equality finally gets under way

Reconstructions in Middle East Economic History Don Babai,2024-10-24 This volume

explores major theoretical and empirical themes in the study of the economic history of the Middle East Despite the relative neglect of economic history in Middle Eastern studies this book makes a case for its importance as a discipline of study On the one hand it shows promise in illuminating the economic base of historical trends and events on the other it can elucidate the historical foundations of economic continuity and change The chapters employ an array of theoretical and methodological approaches and ultimately demonstrate how economics and history along with political economy complement each other in studying the Middle East Among the substantive topics explored are the trajectories of the Arab Spring institutional change and economic development in the early Ottoman Empire the destructive effects of the reordering property rights in Iraq by the American led occupation authority the evolution of the political economy of the Islamic Republic of Iran and the determinants of movements in the yields of Egyptian and Ottoman sovereign debt following political and economic crises in the 19th and early 20th centuries The book will be of interest to scholars and students of economic history political economy and the Middle East

The Saudi Enigma Pascal Ménoret, 2005-05 Despite speculation about Saudi interests and loyalties that have been directed at the country since 9 11 Arabia remains the key US ally in the Arab Middle East Menoret debunks the facile notions about Saudi society and focuses our attention on present political and economic realities that cannot be reduced to essentialist tribalist ideas Menoret illustrates the emerging autonomous and Islamic manifestations of Saudi national identity fiercely reformist rather than medieval complex and varied rather than merely a justification or support for the rule of the al Saud royal family Underlying this account is a sophisticated economic history of the Saudi state from the eighteenth century to the present day which details all the alliances and manoeuvres that have brought the country and its rulers to their current precarious position

Graveyard of Clerics Pascal Menoret, 2023-05-25 The inside story of political protest in Saudi Arabia on the ground in the suburbs and in the face of increasing state repression *Graveyard of Clerics* takes up two global phenomena intimately linked in Saudi Arabia urban sprawl and religious activism Saudi suburbia emerged after World War II as citizens fled crowded inner cities Developed to encourage a society of docile isolated citizens suburbs instead opened new spaces for political action Religious activists in particular turned homes schools mosques and summer camps into resources for mobilization With the support of suburban grassroots networks activists won local elections and found opportunities to protest government actions until they faced a new wave of repression under the current Saudi leadership Pascal Menoret spent four years in Saudi Arabia in the places where today s Islamic activism first emerged With this book he tells the stories of the people actively countering the Saudi state and highlights how people can organize and protest even amid increasingly intense police repression This book changes the way we look at religious activism in Saudi Arabia It also offers a cautionary tale the ongoing repression by Saudi elites achieved often with the complicity of the international community is shutting down grassroots political movements with significant consequences for the country and the world A distinguished ethnographer Pascal Menoret excavates the Islamic Awakening in Saudi Arabia with great empathy

and understanding Once again he demonstrates his ability to penetrate a world often associated with radicalism bigotry intolerance and violence bringing us face to face with the men of the movement and their rise and demise in the Saudi state
Madawi al Rasheed author of *The Son King* **A Companion to the History of the Middle East** Youssef M.

Choueiri,2008-04-15 *A Companion to the History of the Middle East* offers a fresh account of the multifaceted and multi layered history of this region A fresh account of the multifaceted and multi layered history of the Middle East Comprises 26 newly commissioned essays by leading international scholars Primarily focused on the modern and contemporary periods Covers religious social cultural economic political and military history Treats the region as four differentiated political units Iran Turkey Israel and the Arab world Includes a section on current issues such as oil urban growth the role of women and democratic human rights **Tribes and State Formation in the Middle East** Philip Shukry Khoury,Joseph Kostiner,1990

Offering a fuller understanding of the complexities and particular patterns of state formation in regions where tribes have exercised a significant influence this volume focuses on the continuing existence of tribal structures and systems in contemporary times within contemporary nation states The contributors offer hypotheses as to why these groups have managed to survive and what impact they have had on modern states backcover **Globalization and the Gulf** John W. Fox,Nada Mourtada-Sabbah,Mohammed Al Mutawa,2006-09-27 For centuries the Arabian Gulf has been a crossroads where seafaring people and Bedouins alike travelled great distances transacting business Events of the past few years both good and bad have directed the world s attention to the Arabian Peninsula where a rich cultural tradition is rapidly incorporating the latest innovations from around the world This is the process of globalization New economies create enormous potential but it will require great care for the people of the region to steer through a period of profound change Political and economic interests intent on maintaining the flow of petroleum products on one hand and people in the Gulf region who assess their won interests from quite a different perspective on the other exert pressures from conflicting directions Reconciling these interests in a time of rapid globalization poses enormous challenges This timely volume brings together the work of scholars from both the Middle East and the West who have the expertise to evaluate the interaction of new ideas new technologies and new economies Brought together by the American University of Sharjah and the Sociological Association of the UAE the contributors reflect on both the process of globalism and on the traditions of Gulf society and culture offering views on how these trends interact within the global system *Joyriding in Riyadh* Pascal Menoret,2014-04-21 Based on four years of fieldwork *Joyriding in Riyadh* explores the history and social fabric of Riyadh and of Saudi Arabia through youth culture specifically joyriding *Aspects of Education in the Middle East and Africa* Colin Brock,Lila Zia Levers,2007-05-07 The chapters in this volume do not represent the whole of the Middle East and North Africa as such a collection would have been too large for one volume Rather the selection here is intended to present different perspectives on a range of educational issues relevant to a particular focus or country or common to a number of countries in the area There is no overarching

theme beyond that which is common to most of the countries in this area such as modernity versus tradition the spread of education effecting sociological changes most pronounced in the rural and tribal areas the changing fortunes and roles of women the aspiration and expectation of youth and the state having become the major player in providing education These are all shared by most of the countries represented here [Tournaments of Value](#) Anne Meneley, 2016-08-12 A significant contribution to our understanding of the varied experience of women in the Islamic Middle East *Tournaments of Value* gives a careful description of a world of female socializing and the velocity energy and elaborateness of this remarkable female social world Meneley's data challenges assumptions about the cross cultural validity of a division between household and community between domestic and public domains She demonstrates the fluidity of social life the shifting nature of community organization and in doing so provides a welcome counterpoint to more rigid formulations of Middle Eastern social structure usually expressed in ethnographies *Tournaments of Value* incorporates vignettes to illustrate more analytical points and to enliven the text allowing the reader to enter fully into the rich world of Zabid in Yemen This expanded 20th anniversary edition introduces this seminal work on Middle Eastern ethnography and women's studies to a new generation of readers

Archive Wars Rosie Bsheer, 2020-09-22 A study of the Saudi Arabian monarchy's efforts to construct and disseminate a historical narrative to legitimize its rule The production of history is premised on the selective erasure of certain pasts and the artifacts that stand witness to them From the elision of archival documents to the demolition of sacred and secular spaces each act of destruction is also an act of state building Following the 1991 Gulf War political elites in Saudi Arabia pursued these dual projects of historical commemoration and state formation with greater fervor to enforce their postwar vision for state nation and economy Seeing Islamist movements as the leading threat to state power they sought to de-center religion from educational cultural and spatial policies With this book Rosie Bsheer explores the increasing secularization of the postwar Saudi state and how it manifested in assembling a national archive and reordering urban space in Riyadh and Mecca The elites project was rife with ironies in Riyadh they employed world renowned experts to fashion an imagined history while at the same time in Mecca they were overseeing the obliteration of a thousand year old topography and its replacement with commercial megaprojects *Archive Wars* shows how the Saudi state's response to the challenges of the Gulf War served to historicize a national space territorialize a national history and ultimately refract both through new modes of capital accumulation Praise for *Archive Wars* An instant classic With incredible insight creativity and courage Rosie Bsheer peels away the political and institutional barriers that have so long mystified others seeking to understand Saudi Arabia Bsheer tells us remarkable new things about the exercise and meaning of power in today's Saudi Arabia Toby Jones Rutgers University author of *Desert Kingdom How Oil and Water Forged Modern Saudi Arabia* There are now two distinct eras in the writing of Saudi Arabian history before Rosie Bsheer's *Archive Wars* and after Robert Vitalis University of Pennsylvania author of *Oilcraft* *Archive Wars* explores with conceptual brilliance and historical aplomb the various forms of

historical erasure central not just to the Kingdom of Saudi Arabia but to all modern states In a finely grained analysis Rosie Bsheer rethinks the significance of archives historicism capital accumulation and the remaking of the built environment A must read for all historians concerned with the materiality of modern state formation Omnia El Shakry University of California Davis author of The Great Social Laboratory Subjects of Knowledge in Colonial and Postcolonial Egypt
