Hassoun, 2005-10-24 The state of Michigan hosts one of the largest and most diverse Arab American populations in the United States As the third largest ethnic population in the state Arab Americans are an economically important and politically influential group It also reflects the diversity of national origins religions education levels socioeconomic levels and degrees of acculturation Despite their considerable presence Arab Americans have always been a misunderstood ethnic population in Michigan even before September 11 2001 imposed a cloud of suspicion fear and uncertainty over their ethnic enclaves and the larger community In Arab Americans in Michigan Rosina J Hassoun outlines the origins culture religions and values of a people whose influence has often exceeded their visibility in the state The Development of Arab-American Identity Ernest Nasseph McCarus, 1994 Looks at all aspects political religious and social of the Arab American experience Rethinking Arab American Activism Pamela E. Pennock, 2025-02-26 Rethinking Arab American Activism analyzes the long overlooked political activities of Arab Americans in the United States uncovering a rich history that dispels common misconceptions that Arab American activism emerged only in the aftermath of the September 11 attacks of 2001 Pennock chronicles how the Arab Israeli Wars of 1967 and 1973 galvanized a wave of secular leftist activism Grassroots organizing in cities like Detroit and the formation of organizations

such as the Organization of Arab Students and the Association of Arab American University Graduates illustrated this era of political awakening in the 1960s and 1970s. These groups formed coalitions with African Americans and other minority groups and Arab American activism transitioned into more mainstream political realms during the 1980s and 1990s to address civil rights, anti-imperialism, and anti-discrimination efforts. Following September 11, Arab Americans faced increased scrutiny and discrimination but also found new avenues for activism and coalition building. By shedding light on the enduring and diverse contributions of Arab Americans to US socio-political landscapes, this book also explores the legacy of that period of organizing for contemporary justice activism on Palestinian rights. This volume provides a comprehensive yet concise history for readers interested in Arab American history, the history of social movements and activism, and contemporary American history.

**The Making of Arab Americans** Hani J. Bawardi, 2014-05-01 While conventional wisdom points to the Arab-Israeli War of 1967 as the gateway for the founding of the first Arab American national political organization, such advocacy in fact began with the Syrian nationalist movement which emerged from immigration trends at the turn of the last century. Bringing this long neglected history to life, *The Making of Arab Americans* overturns the notion of an Arab population that was too diverse to share common goals. Tracing the forgotten histories of the Free Syria Society, the New Syria Party, the Arab National League, and the Institute of Arab American Affairs, the book restores a timely aspect of our understanding of an area then called Syria that comprises modern-day Syria, Lebanon, Jordan, Israel, and Palestine. Hani Bawardi examines the numerous Arab American political advocacy organizations that thrived before World War I, showing how they influenced Syrian and Arab nationalism. He further offers an in-depth analysis exploring how World War II helped introduce a new Arab American identity as priorities shifted and the quest for assimilation intensified. In addition, the book enriches our understanding of the years leading to the Cold War by tracing both the Arab National League's transition to the Institute of Arab American Affairs and new campaigns to enhance mutual understanding between the United States and the Middle East. Illustrated with a wealth of previously unpublished photographs and manuscripts, *The Making of Arab Americans* provides crucial insight for contemporary dialogues.

*Contemporary Arab-American Literature* Carol Fadda-Conrey, 2014-05-30 The last couple of decades have witnessed a flourishing of Arab American literature across multiple genres. Yet increased interest in this literature is ironically paralleled by a prevalent bias against Arabs and Muslims that portrays their long presence in the US as a recent and unwelcome phenomenon. Spanning the 1990s to the present, Carol Fadda-Conrey takes in the sweep of literary and cultural texts by Arab American writers in order to understand the ways in which their depictions of Arab homelands, whether actual or imagined, play a crucial role in shaping cultural articulations of US citizenship and belonging. By asserting themselves within a US framework while maintaining connections to their homelands, Arab Americans contest the blanket representations of themselves as dictated by the US nation-state. Deploying a multidisciplinary framework at the intersection of Middle Eastern studies, US ethnic studies, and diaspora studies, Fadda-Conrey argues for a transnational

discourse that overturns the often rigid affiliations embedded in ethnic labels Tracing the shifts in transnational perspectives from the founders of Arab American literature like Gibran Kahlil Gibran and Ameen Rihani to modern writers such as Naomi Shihab Nye Joseph Geha Randa Jarrar and Suheir Hammad Fadda Conrey finds that contemporary Arab American writers depict strong yet complex attachments to the US landscape She explores how the idea of home is negotiated between immigrant parents and subsequent generations alongside analyses of texts that work toward fostering more nuanced understandings of Arab and Muslim identities in the wake of post 9 11 anti Arab sentiments The Arabic Language in America Aleya Rouchdy,1992 As in any other situation of languages in contact Arabic spoken in the United States is changing under the influence of English It has incorporated different linguistic innovations and interference from English occurs on the various linguistic levels However in many cases this interference does not lead to language attrition but rather to the creation of an ethnic language with special uses understood only by members of the Arab American community Developed out of Aleya Rouchdy s own involvement and teaching of Arabic in the United States this book the first of its kind is devoted to the full range of Arabic in America In Part I contributors discuss borrowing and the changes occurring on the various linguistic levels of Arabic and the social factors that have contributed to these changes Other chapters in Part I deal with code switching between English and Arabic Part II examines the shift toward English and the maintenance of Arabic as well as the attitudes that speakers display toward Arabic Chapters in Part III are pedagogical in nature The essays explore the history of the study of Arabic in the United States and examine methods and materials used in the teaching of Arabic as well as some of the theoretical and practical implications associated with these different approaches Primarily for readers with special interest in Arab immigration settlement and ethnicity The Arabic Language in America will also engage the attention of sociologists social historians anthropologists linguists and sociolinguists who will find the book relevant for their work

**Backlash 9/11** Anny Bakalian, Medhi Bozorgmehr, 2009-03-05 Bakalian and Bozorgmehr provide a comprehensive account of the processes by which certain American religious and ethnic groups were transformed into scapegoats and objects of hate Herbert J Gans Robert S Lynd Emeritus Professor of Sociology Columbia University The recent history of the United States has taken many strange unexpected turns not least of which was the way in which the tragedy of 9 11 2001 triggered a backlash against the Middle Easterners living in the United States which in turn pushed this population into activism and transforming them into full Americans Bakalian and Bozorgmehr s humane and beautifully written book is the essential window into this process providing a fascinating original account of an important aspect of contemporary American life Roger Waldinger Distinguished Professor of Sociology University of California Los Angeles This is the first truly comprehensive look at the challenges faced by the Middle Eastern and Muslim American organizations defending the rights and liberties of their constituents in the aftermath of 9 11 Muzaffar Chishti Director Migration Policy Institute Office at New York University School of Law Bakalian and Bozorgmehr cast the post 9 11 backlash unleashed by American society and government against Muslims and Arab Americans in a comparative historical perspective This indispensable work concludes somewhat unexpectedly that rather than foster alienation the backlash prompted a mobilization of the targeted groups to seek greater integration in American society Aristide Zolberg Walter

Eberstadt Professor of Political Science New School University Bakalian and Bozorgmehr have captured the untold story of how the tragedy of 9 11 altered the landscape for Middle Eastern communities in America The quality and scope of this research not only documents a critical chapter in our nation s struggle with tolerance and racial profiling it brings to light the deep impact the backlash continues to have on the ethnic and religious institutions that serve the affected populations It is a thorough and timely chronicle of the internal and external challenges to American pluralism during the ongoing war on terror Helen Samhan Executive Director Arab American Institute Foundation
