[Realist Ecstasy](#)

Lindsay V. Reckson, 2020-01-28 Honorable Mention Barnard Hewitt Award from the American Society for Theater Research
Explores the intersection and history of American literary realism and the performance of spiritual and racial embodiment
Recovering a series of ecstatic performances in late nineteenth and early twentieth century American realism
Realist Ecstasy travels from camp meetings to Native American ghost dances to storefront church revivals to explore realism's relationship to spiritual experience
In her approach to realism as both an unruly archive of performance and a wide ranging repertoire of media practices including literature photography audio recording and early film Lindsay V Reckson argues that the real was repetitively enacted and reenacted through bodily practice
Realist Ecstasy demonstrates how the realist imagining of possessed bodies helped construct and naturalize racial difference while excavating the complex shifting and dynamic possibilities embedded in ecstatic performance
its production of new and immanent forms of being beside
Across her readings of Stephen Crane James Weldon Johnson and Nella Larsen among others Reckson triangulates secularism realism and racial formation in the post Reconstruction moment
Realist Ecstasy shows how post Reconstruction realist texts mobilized gestures especially the gestures associated with religious ecstasy to racialize secularism itself
Reckson offers us a distinctly new vision of American realism as a performative practice a sustained account of how performance lives in and through literary archives and a rich sense of how closely secularization and racialization were linked in Jim Crow America

Fort Reno and the Indian Territory Frontier Stan Hoig, 2005-10-01
Following the Indian uprising known as the Red River War Fort Reno in what would become western Oklahoma was established in 1875 by the United States government
Its original assignment was to serve as an outpost to exercise control over the Cheyenne and Arapaho Indians
But Fort Reno also served as an embryonic frontier settlement around which the first trappings of Anglo American society developed a regulatory force between the Indian tribes and the white man and the primary arm of government responsible for restraining land hungry whites from invading country promised to Native American tribes by treaty
With the formation of the new Territory of Oklahoma and introduction of civil law Fort Reno was forced to assume another purpose it became a cavalry remount center
But when the mechanization of the military brought an end to the horse cavalry the demise of Fort Reno was imminent
When Ben Clark the prideful scout who knew and loved Fort Reno ended his own life in 1914 the military post that had once thrived on America's frontier was brought to a poignant end
The story of Fort Reno as detailed here by Stan Hoig touches on several of the most important topics of nineteenth century Western history the great cattle drives Indian pacification and the Plains Wars railroads white settlement and the Oklahoma land rushes
Hoig deals not only with Fort Reno but also with Darlington agency the Chisolm Trail and the trading activities in Indian Territory from 1874 to approximately 1900
The author includes maps photographs and illustrations to enhance the narrative and guide the reader like a scout through a time of treacherous but fascinating events in the Old West
