African American Women Confront the West, 1600-2000 Quintard Taylor, Shirley Ann Wilson Moore,2008-08-01
Reconstructs the history of black women s participation in western settlement A stellar collection of essays by talented authors who explore fascinating topics Journal of American Ethnic History African American Women Confront the West 1600 2000 is the first major historical anthology on the topic The editors argue that African American women in the West played active though sometimes unacknowledged roles in shaping the political ideological and social currents that have influenced the United States over the past three centuries Contributors to this volume explore African American women s life experiences in the West their influences on the experiences of the region s diverse peoples and their legacy in rural and urban communities from Montana to Texas and from California to Kansas The essayists explore what it has meant to be an African American woman from the era of Spanish colonial rule in eighteenth century New Mexico to the black power era of the 1960s and 1970s **No Two Alike** Eli Leon,1998 African American Quiltmaking in Michigan Marsha MacDowell,1997 A valuable historical contribution this is the first book on the quiltmaking tradition of African Americans in Michigan With 60 photographs of quilts it brings together many images in the exploration of African American quilting and examines quiltmaking as a form women have used to make a contribution to the historic meaning of the African American family and community *Accidentally on Purpose* Eli Leon,2006 This exuberantly illustrated book celebrates the sophistication vivacity and significance of improvisational African Aemrican quilts both as artistic achievements and as expressions of African American traditions The knowledge attitudes and values carried across the Atlantic by enslaved Africans appear to have informed a quiltmaking tradition so powerful that to this day it preserves its identity in a special province of African American quilts Such Afro traditional quilts are made by people who have no formal art training and who usually do not consider themselves artists they learned their craft and absorbed its aesthetics by watching and helping their mothers aunts and grandmothers who in turn learned form previous generations The resulting often highly idiosyncratic quilts call out to be seen as the works of art that they are The brilliance of this work must be partially credited to a tradition which encourages individual expression and provides a context in which the talents of individual artists can flourish Improvisation pervasive in black African art and familiar as a basic element of many African American musical forms is a vital force in this tradition The artists maintain a generous attitude toward the accidental embracing innovations that originate beyond the conscious domain they use approximate measurement and flexible patterning in which the design conceived of as a an invitation to variation will not repeat but will materialize in a sequence of visual elaborations Afro traditional attitudes and methods are antithetical to the standard American quiltmaking tradition practiced by both whites and blacks in which

great value is placed on precise measurement and exact pattern replication Instead they bear a keen likeness to the improvisatory practices of the textile makers of Kongo and West Africa regions from which American slaves were taken These antipathies and affinities suggest an enduring African influence on the Afro traditional quilt *Black Threads* Kyra E.
