Napoleon I employed a myriad of media through which to promote his propaganda and his universal hegemony Classical Rome home to the great Caesars was central to his ambitious visions for the transformation of Paris into an imperial metropolis of unprecedented magnitude Exploring the interrelationship between antiquity the display of power and the reinvention of Paris this volume evaluates how the Roman world and post antique exploitations of Rome influenced Napoleonic Paris and how Napoleon promoted his authority by appropriating Rome s triumphal architecture and its associated symbolism to relocate Rome in his own times The volume shows how consideration of Louis XIV s legacy is crucial to understanding the evolution of Napoleon s fascination with imperial Rome It also charts Napoleon s manipulation of the populist rhetoric of Republican France and Rome as he moved from being a general fighting for the Revolutionary cause to become the absolute ruler of a new empire
