Archaeological Insights Into The Custer Battle:

Archaeological Insights Into the Custer Battle Douglas D. Scott, 1987 In August 1983 a grassfire raged up Deep Ravine and across the dry grass covered battlefield where in 1876 men of the Seventh U S Cavalry under George Armstrong Custer had fought and died at the hands of a Sioux and Cheyenne force led by Sitting Bull The removal of the normally dense ground cover revealed enough evidence to suggest that an archaeological survey would be fruitful and perhaps could address some unanswered questions about the battle Describing archaeological investigations during the first year 1984 of a two year survey this book offers a detailed analysis of the physical evidence remaining after the battle Precise information regarding the locations of artifacts and painstaking analyses of the artifacts themselves have uncovered much new information about the guns used in the battle by the victorious Indian warriors Not only have the types of guns been identified but through the use of archaeological and criminal investigative techniques the actual numbers of firearms can now be estimated This analysis of the battlefield which represents a significant advance in methodology shows that the two forces left artifacts in what can be defined as combatant patterns What did happen after Custer s trumpeter John Martin dispatched with an order for Captain Benteen to be quick turned and saw the doomed battalion for the last time Written to satisfy both professional and layman this book is a vital complement to the historical record

Archaeology, History, and Custer's Last Battle Richard A. Fox, 2015-02-16 On the afternoon of June 25 1867 an overwhelming force of Sioux and Cheyenne Indians quickly mounted a savage onslaught against General George Armstrong Custer s battalion driving the doomed troopers of the U S Seventh Cavalry to a small hill overlooking the Little Bighorn River where Custer and his men bravely erected their heroic last stand So goes the myth of the Battle of the Little Bighorn a myth perpetuated and reinforced for over 100 years In truth however Custer s Last Stand was neither the last of the fighting nor a stand Using innovative and standard archaeological techniques combined with historical documents and Indian eyewitness accounts Richard Allan Fox Jr vividly replays this battle in astonishing detail Through bullets spent cartridges and other material data Fox identifies combat positions and tracks soldiers and Indians across the Battlefield Guided by the history beneath our feet and listening to the previously ignored Indian testimonies Fox reveals scenes of panic and collapse and ultimately a story of the Custer battle quite different from the fatalistic versions of history According to the author the five companies of the Seventh Cavalry entered the fray in good order following planned strategies and displaying tactical stability It was the sudden disintegration of this cohesion that caused the troopers defeat The end came quickly unexpectedly and largely amid terror and disarray Archaeological evidences show that there was no determined fighting and little firearm resistance The last soldiers to be killed had rushed from Custer Hill

Archaeological Perspectives on the Battle of the Little Bighorn Douglas D. Scott, Richard A. Fox, Melissa A. Connor, Dick Harmon, 2013-05-01 Ever since the Custer massacres on June 25 1876 the question has been asked What happened what REALLY happened at the Battle of the Little Bighorn We know some of the answers because half of George

Armstrong Custer's Seventh Cavalry the men with Major Marcus Reno and Captain Frederick Benteen survived the fight but what of the half that did not the troopers civilians scouts and journalist who were with Custer Now because a grass fire in August 1983 cleared the terrain of brush and grass and made possible thorough archaeological examinations of the battlefield in 1984 and 1985 we have many answers to important questions On the basis of the archaeological evidence presented in this book we know more about what kinds of weapons were used against the cavalry We know exactly where many of the men fought how they died and what happened to their bodies at the time of or after death We know how the troopers were deployed what kind of clothing they wore what kind of equipment they had how they fought Through the techniques of historical archaeology and forensic anthropology the remains and grave of one of Custer's scouts Mitch Boyer have been identified And through geomorphology and the process of elimination we know with almost 100 percent certainty where the twenty eight missing men who supposedly were buried en masse in Deep Ravine will be found **Lakota**

Life is a singular achievement scholarly and authoritative offering a complete portrait of the man and a fuller understanding of his place in American Indian and United States history **Partisans, Guerillas, and Irregulars** Steven D. Smith, Clarence R. Geier, 2019-06-25 Essays that explore the growing field of conflict archaeology Within the last twenty years the archaeology of conflict has emerged as a valuable subdiscipline within anthropology contributing greatly to our knowledge and understanding of human conflict on a global scale Although archaeologists have clearly demonstrated their utility in the study of large scale battles and sites of conventional warfare such as camps and forts conflicts involving asymmetric guerilla or irregular warfare are largely missing from the historical record **Partisans Guerillas and Irregulars Historical Archaeology of Asymmetric Warfare** presents recent examples of how historical archaeology can contribute to a better understanding of asymmetric warfare The volume introduces readers to this growing study and to its historic importance Contributors illustrate how the wide range of traditional and new methods and techniques of historiography and archaeology can be applied to expose critical actions sacrifices and accomplishments of competing groups representing opposing philosophies and ways of life which are otherwise lost in time The case studies offered cover significant events in American and world history including the French and Indian War the American Revolution Indian wars in the Southeast and Southwest the Civil War Reconstruction Prohibition and World War II All such examples used here took place at a local or regional level and several were singular events within a much larger and more complex historic movement While retained in local memory or tradition and despite their potential importance they are poorly and incompletely addressed in the historic record Furthermore these conflicts took place between groups of significantly different cultural and military traditions and capabilities most taking on a David vs Goliath character further shaping the definition of asymmetric warfare **Sacred Ground** Edward Tabor Linenthal, 1991 Examines how different groups of Americans have competed to control define and own cherished national stories relating to events at four battlefields Amazon com **Geological Methods for Archaeology** Norman Herz, Ervan G. Garrison, 1998 Written as a survey text covering appropriate techniques and methods from geology geophysics geochemistry and geochronology this book shows the practicality and importance of techniques used in solving archaeological problems **Custer, the Seventh Cavalry, and the Little Big Horn** Mike O'Keefe, 2012-11-20 Since the shocking news first broke in 1876 of the Seventh Cavalry's disastrous defeat at the Little Big Horn fascination with the battle and with Lieutenant George Armstrong Custer has never ceased Widespread interest in the subject has spawned a vast outpouring of literature which only increases with time This two volume bibliography of Custer literature is the first to be published in some twenty five years and the most complete ever assembled Drawing on years of research Michael O Keefe has compiled entries for roughly 3 000 books and 7 000 articles and pamphlets Covering both nonfiction and fiction but not juvenile literature the bibliography focuses on events beginning with Custer's tenure at West Point during the 1850s and ending with the massacre at Wounded Knee in 1890 Included within this span are Custer's experiences in the Civil War and

in Texas the 1873 Yellowstone and 1874 Black Hills expeditions the Great Sioux War of 1876 77 and the Seventh Cavalry's pursuit of the Nez Perces in 1877 The literature on Custer the Battle of the Little Big Horn and the Seventh Cavalry touches the entire American saga of exploration conflict and settlement in the West including virtually all Plains Indian tribes the frontier army railroading mining and trading Hence this bibliography will be a valuable resource for a broad audience of historians librarians collectors and Custer enthusiasts

The Medieval Way of War Gregory I. Halfond, 2016-03-09 Few historians have argued so forcefully or persuasively as Bernard S. Bachrach for the study of warfare as not only worthy of scholarly attention but demanding of it In his many publications Bachrach has established unequivocally the relevance of military institutions and activity for an understanding of medieval European societies politics and mentalities In so doing as much as any scholar of his generation he has helped to define the status quaestionis for the field of medieval military history The Medieval Way of War Studies in Medieval Military History in Honor of Bernard S. Bachrach pays tribute to its honoree by gathering in a single volume seventeen original studies from an international roster of leading experts in the military history of medieval Europe Ranging chronologically from Late Antiquity through the Later Middle Ages ca AD 300 1500 and with a broad geographical scope stretching from the British Isles to the Middle East these diverse studies address an array of critical themes and debates relevant to the conduct of war in medieval Europe These themes include the formation and implementation of military grand strategies the fiscal material and administrative resources that underpinned the conduct of war in medieval Europe and religious legal and artistic responses to military violence Collectively these seventeen studies embrace the interdisciplinarity and topical diversity intrinsic to Bachrach's research Additionally they strongly echo his conviction that the study of armed conflict is indispensable for an accurate and comprehensive understanding of medieval European history

The Dust Rose Like Smoke James O. Gump, 2016 In 1876 Lakota and Cheyenne warriors annihilated Custer's Seventh Cavalry at Little Bighorn Three years later and half a world away a British force was wiped out by Zulu warriors at Isandhlwana in South Africa In both cases the total defeat of regular army troops by forces regarded as undisciplined barbarian tribesmen stunned an imperial nation Although the similarities between the two frontier encounters have long been noted James O. Gump's book *The Dust Rose Like Smoke* is the first to scrutinize them in a comparative context This study issues a challenge to American

exceptionalism he writes Viewing both episodes as part of a global pattern of intensified conflict in the latter 1800s resulting from Western domination over a vast portion of the globe Gump s comparative study persuasively traces the origins and aftermath of both episodes He examines the complicated ways in which Lakota and Zulu leadership sought to protect indigenous interests while Western leadership calculated their subjugation to imperial authority The second edition includes a new preface from the author revised and expanded chapters and an interview with Leonard Little Finger great great grandson of Ghost Dance leader Big Foot whose story connects Wounded Knee and Nelson Mandela

A Surgeon with Custer at the Little Big Horn James Madison DeWolf,2017-05-25 In spring 1876 a physician named James Madison DeWolf accepted the assignment of contract surgeon for the Seventh Cavalry becoming one of three surgeons who accompanied Custer s battalion at the Battle of the Little Big Horn Killed in the early stages of the battle he might easily have become a mere footnote in the many chronicles of this epic campaign but he left behind an eyewitness account in his diary and correspondence *A Surgeon with Custer at the Little Big Horn* is the first annotated edition of these rare accounts since 1958 and the most complete treatment to date While researchers have known of DeWolf s diary for many years few details have surfaced about the man himself In *A Surgeon with Custer at the Little Big Horn* Todd E Harburn bridges this gap providing a detailed biography of DeWolf as well as extensive editorial insight into his writings As one of the most highly educated men who traveled with Custer the surgeon was well equipped to compose articulate descriptions of the 1876 campaign against the Indians a fateful journey that began for him at Fort Lincoln Dakota Territory and ended on the battlefield in eastern Montana Territory In letters to his beloved wife Fannie and in diary entries reproduced in this volume exactly as he wrote them DeWolf describes the terrain weather conditions and medical needs that he and his companions encountered along the way After DeWolf s death his colleague Dr Henry Porter who survived the conflict retrieved his diary and sent it to DeWolf s widow Later the DeWolf family donated it to the Little Bighorn Battlefield National Monument Now available in this accessible and fully annotated format the diary along with the DeWolf s personal correspondence serves as a unique primary resource for information about the Little Big Horn campaign and medical practices on the western frontier

Nickens,2012-12-06 Technology transfer has played an increasingly important role in historic preservation during the latter half of the twentieth century a situation attested to by the undertaking of an important congressional study in 1986 that assessed the role of federal agencies in the field In this book leading researchers update the earlier findings and contribute state of the art reviews and evaluations of technological progress in their areas of expertise
