Portraits of Hope Huberta v. Voss, 2007-06 Elie Wiesel called the genocide of the Armenians during the First World War the Holocaust before the Holocaust Around one and a half million Armenians men women and children were slaughtered at the time of the First World War This book outlines some of the historical facts and consequences of the massacres but sees it as its main objective to present the Armenians to the foreign reader their history but also their lives and achievements in the present that finds most Armenians dispersed throughout the world 3000 years after their appearance in history 1700 years after adopting Christianity and almost 90 years after the greatest catastrophe in their history these 50 biographical sketches of intellectuals artists journalists and others produce a complicated kaleidoscope of a divided but lively people that is trying once again to rediscover its ethnic coherence Armenian civilization does not consist solely of stories about a far off past but also of traditions and a national conscience suggestive of a future that will transcend the present from the Preface

From Socialist to Post-Socialist Cities Alexander C. Diener, Joshua Hagen, 2016-04-14 The development of post socialist cities has become a major field of study among critical theorists from across the social sciences and humanities Originally constructed under the dictates of central planners and designed to serve the demands of command economies post socialist urban centers currently develop at the nexus of varied and often competing economic cultural and political forces Among these nationalist aspirations previously simmering beneath the official rhetoric of communist fraternity and veneer of architectural conformity have emerged as dominant factors shaping the urban landscape This book explores this burgeoning field of research through detailed cases studies relating to the cultural politics of architecture urban planning and identity in the post socialist cities of Eurasia This book was published as a special issue of Nationalities Papers

The SuperQuack Hoberleigh Phreigh, 2013-12 Why would an honest self respecting practitioner of energy healing call herself a superquack Do I really consider myself a quack Well no However there are quite a number of people who consider the work of energy healing to be quackery and at one time I was one of them After years of extensive study and success in my practice I have changed my mind While I do take my work seriously I don't take myself seriously On that score I am willing to use humor to get my point across This book is the story of my journey from a cold skeptic to a curious explorer to a believer with such passion that I have made energy healing my life's work The accounts range from my

introduction to energy work and my personal experiences beyond the physical senses to sharing information from sessions with clients using energy in the body and in the mind in order to relieve dis ease Welcome to my world **Encyclopedia of Social Networks** George A. Miller,Kimon H. Sargeant,Richard Flory,2013-08-15 An exploration of the global growth and social and political impact of Pentecostalism **Becoming Human Again** Donald E. Miller,2020-03-31 Genocide involves significant death and trauma Yet the enormous scope of genocide comes into view when one looks at the factors that lead to mass killing the struggle for survival during genocide and the ways survivors reconstruct their lives after the violence ends Over a one hundred day period in 1994 the country of Rwanda saw the genocidal slaughter of at least 800 000 Tutsi at the hands of members of the Hutu majority government This book is a powerful oral history of the tragedy and its aftermath from the perspective of its survivors Based on in depth interviews conducted over the course of fifteen years the authors take a holistic approach by tracing how victims experienced the horrific events as well as how they have coped with the aftermath as they struggled to resume their lives The Rwanda genocide deserves study and documentation not only because of the failure of the Western world to intervene but also because it raises profound questions about the ways survivors create a new life out of the ashes of all that was destroyed How do they deal with the all encompassing traumas of genocide Is forgiveness possible And what does the process of rebuilding teach us about genocide trauma and human life **A Sociology of Spirituality** Peter C. Jupp,2016-03-16 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and

Orphans of the Rwanda Genocide Donald Earl Miller, Lorna Touryan Miller, 2004

Finding Faith Richard Flory, Donald Miller, 2008-02-04 Despite the masses still lining up to enter mega churches with warehouse like architecture casually dressed clergy and pop Christian music the Post Boomer generation those ranging in age from twenty to forty is having second thoughts In this perceptive look at the evolving face of Christianity in contemporary culture sociologists Richard Flory and Donald E Miller argue that we are on the verge of another potential revolution in how Christians worship and associate with one another Just as the formative experiences of Baby Boomers were colored by such things as the war in Vietnam the 1960s and a dramatic increase in their opportunities for individual expression so Post Boomers have grown up in less structured households with working often divorced parents These childhood experiences leave them craving authentic spiritual experience rather than entertainment and also cause them to question institutions Flory and Miller develop a typology that captures four current approaches to the Christian faith and argue that this generation represents a new religious orientation of expressive communalism in which they seek spiritual experience and fulfillment in community and through various expressive forms of spirituality both private and public

Overkill Eliot Borenstein, 2011-05-02 Perestroika and the end of the Soviet Union transformed every aspect of life in Russia and as hope began to give way to pessimism popular culture came to reflect the anxiety and despair felt by more and more Russians Free from censorship for the first time in Russia's history the popular culture industry publishing film and television began to disseminate works that featured increasingly explicit images and descriptions of sex and violence In

Overkill Eliot Borenstein explores this lurid and often disturbing cultural landscape in close imaginative readings of such works as *You're Just a Slut My Dear Ty* prosto shliukha dorogaia a novel about sexual slavery and illegal organ harvesting the Nympho trilogy of books featuring a Chechen fighting sex addict and the Mad Dog and Antikiller series of books and films recounting respectively the exploits of the Russian Rambo and an assassin killing in the cause of justice Borenstein argues that the popular cultural products consumed in the post perestroika era were more than just diversions they allowed Russians to indulge their despair over economic woes and everyday threats At the same time they built a notion of nationalism or heroism that could be maintained even under the most miserable of social conditions when consumers felt most powerless For Borenstein the myriad depictions of deviance in pornographic and also detective fiction with their patently excessive and appalling details of social and moral decay represented the popular culture industry's response to the otherwise unimaginable scale of Russia's national collapse The full sense of collapse he writes required a panoptic view that only the media and culture industry were eager to provide amalgamating national collapse into one master narrative that would then be readily available to most individuals as a framework for understanding their own suffering and their own fears

A Faustian Foreign Policy from Woodrow Wilson to George W. Bush Joan Hoff, 2007-12-10 A Faustian Foreign Policy from Woodrow Wilson to George W. Bush critiques U.S. foreign policy during this period by showing how moralistic diplomacy has increasingly assumed Faustian overtones especially during the Cold War and following September 11 The ideological components of American diplomacy originating in the late 18th and 19th centuries evolved through the 20th century as U.S. economic and political power steadily increased Seeing myth making as essential in any country's founding and a common determinant of its foreign policy Professor Joan Hoff reveals how the basic belief in its exceptionalism has driven America's past and present attempts to remake the world in its own image She expands her original concept of independent internationalism as the *modus operandi* of U.S. diplomacy to reveal the many unethical Faustian deals the United States entered into since 1920 to obtain its current global supremacy

Survival of a Perverse Nation Tamar R. Shirinian, 2024-10-11 In *Survival of a Perverse Nation* Tamar R. Shirinian traces two widespread rhetorics of perversion sexual and moral in postsocialist Armenia showing how they are tied to anxieties about the nation's survival In her fieldwork with Armenians Shirinian found that right wing nationalists focus on sexual perversion centers the figure of the homosexual while questions of moral perversion surround oligarchs and other members of the political economic elite While the homosexual is seen as non or improperly reproductive the oligarch's moral deviations from the caring and paternalistic expectations associated with national leadership also endanger Armenia's survival Shirinian shows how both figures threaten the nation's proper social reproduction a source of great anxiety for a nation whose primary point of identity is surviving genocide In the existential threat posed by these forms of perversion Shirinian finds paths where nonsurvival might mean the creation of futures that are queerer and more just Detailing how the language of perversion offers trenchant critiques of

capitalism as a perversion of life Shirinian presents a new queer theory of political economy Historical Dictionary of Armenia Rouben Paul Adalian, 2010-05-13 There are two Armenias the current Republic of Armenia and historic Armenia The modern state dates from the early 20th century Historic Armenia was part of the ancient world and expired in the Middle Ages Its people however survived and from its residue recreated a new country The history of the Armenians is the story of how an ancient people endured into modern times and how its culture evolved from one conceived under the influence of Mesopotamia to one redefined by the civilization of Europe The second edition of the Historical Dictionary of Armenia relates the turbulent past of this persistent country through a chronology an introductory essay a bibliography and over 200 cross referenced dictionary entries on significant persons events places organizations and other aspects of Armenian history from the earliest times to the present
