Armenian Neume System of Notation R. A. At'ayan, Vrej N Nersessian, Vrej N. Nersessian, 2013-11-19 The study of the Armenian system of notation called Khazs Neumes is of significance both for Armenian and Byzantine music from a historical and aesthetic point of view Over the centuries the Armenian people have created a musical culture which is largely inaccessible because of the fact that to this day the medieval notation of this music has not been deciphered Prof R A At'ayan's unique study based on the abundant manuscript sources of the Institute of Ancient Manuscripts Erevan not only traces the origin and development of this notation system convincingly but also re creates the tunes of the numerous chants and songs composed over the centuries

The Armenian Diaspora and Stateless Power Talar Chahinian, Sossie Kasbarian, Tsolin Nalbantian, 2023-11-02 From genocide forced displacement and emigration to the gradual establishment of sedentary and rooted global communities how has the Armenian diaspora formed and maintained a sense of collective identity This book explores the richness and magnitude of the Armenian experience

through the 20th century to examine how Armenian diaspora elites and their institutions emerged in the post genocide period and used stateless power to compose forms of social discipline. Historians, cultural theorists, literary critics, sociologists, political scientists and anthropologists explore how national and transnational institutions were built in far flung sites from Istanbul, Aleppo, Beirut and Jerusalem to Paris, Los Angeles and the American mid west. Exploring literary and cultural production as well as the role of religious institutions, the book probes the history and experience of the Armenian diaspora through the long 20th century from the role of the fin de siècle migr Armenian press to the experience of Syrian Armenian asylum seekers in the 21st century. It shows that a diaspora's statelessness can not only be evidence of its power but also how this stateless power acts as an alternative and complement to the nation state.

The New Grove Dictionary of Music and Musicians: Aristoxenus to Bax Stanley Sadie, 2001 **Whitaker's Books in Print**, 1998 **Bibliographic Guide to Slavic, Baltic, and Eurasian Studies**, 2000 *Medieval Scholarship* Helen Helen Damico, 2015-12-22. This is the third of a three volume set on medieval scholarship that presents original biographical essays on scholars whose work has shaped medieval studies for the past four hundred years. A companion to Volume 1 History and Volume 2 Literature and Philology, Volume 3 Philosophy and the Arts covers the lives of twenty eminent individuals from Victor Cousin 1792-1867 to Georges Chehata Anawati 1905-1994 in Philosophy from H J W Tillyard 1881-1968 to Gustave Reese 1899-1977 in Music and from Alois Riegl 1858-1905 to Louis Grodecki 1910-1982 in Art History whose subjects were the art music and philosophical thought of Europe between 500-1500. The scholars of medieval philosophy strove to identify the nexus of philosophical truth whether they were engaged in the clash of the Christian church and secular republicanism as reflected in the tension between theology and philosophy in addressing the conflicting perceptions of Muslim identity or in defining Jewish philosophical theology in non Jewish culture. Medieval musicologists who are included as the subjects of the essays pioneered or recontextualized traditional views on the definition of music as subject matter on the relationship between music and philosophical concepts on interpretative distinctions between secular and sacred music, monophony and polyphony and concepts of form and compositional style. The art historians treated in this volume not only overturn the view of medieval art as an aesthetic decline from classical art but they demonstrate the continual development of form and style inclusive of minor and major arts in textiles, architecture and architectural sculpture, manuscripts, ivory carvings and stained glass. The philosophers, musicologists and art historians who appear in Volume 3 worked in three newly emerging disciplines largely of nineteenth century origin. In their distinguished and extraordinary output of energy in scholarly and academic arenas they contributed significantly to the emergence and formation of medieval studies as the prime discipline of historical inquiry into and hence the key to understanding of the human experience.

Medieval Scholarship: Philosophy and the arts Helen Damico, Joseph B. Zavadi, Donald Fennema, Karmen Lenz, 1995. This third volume completes this series. It presents original biographical essays on scholars in the fields of art music and philosophy whose work has shaped medieval studies for the
