Arms And Politics 1958 1978

Charles DeBenedetti

Arms And Politics 1958 1978:

Arms and Politics, 1958-1978 Robin Ranger, 1979

The Foreign and Domestic Dimensions of Modern Warfare

Howard Jones, 1988 In exploring the dangers arising with the advent of limited warfare after development of the atomic bomb in 1942 *The Foreign and Domestic Dimensions of Modern Warfare* focuses on Vietnam Central America and the nuclear arms race During this era Americans became engaged in a new kind of war Enemies and objective slipped out of focus causing political and military aims to mesh in a struggle to contain communism both at home and abroad Policymakers in Washington had to formulate strategies dictated by limited war in their search for peace These essays show that the making of foreign policy is immensely complicated not subject to easy solution or simple explanation *Ibss Poli Sci 29 1980* "International Committee For Social Sciences Documentation", 2013-10-15 The International Bibliography of the Social Sciences IBSS is an essential tool for librarians academics and researchers wishing to be kept up to date with the published literature in the social sciences IBSS is compiled in four divisions Anthropology Sociology Economics and Political Science This is Volume XXIX of the International bibliography of political science as of 1980 *The Soviet Union 1917-1991* Martin McCauley, 2014-02-04 A second edition of this famous survey has been eagerly awaited When the first edition appeared Brezhnev was still in power Gorbachev did not make it to the index and the USSR was a superpower Today the Soviet experiment is over and the USSR no longer exists How Why Martin McCauley has reworked and greatly expanded his book to answer these questions and to provide a complete account of the Soviet years Essential reading to an appreciation of recent history and to a better understanding of whatever happens next *Nuclear Weapons: A Very Short Introduction* Joseph M. Siracusa, 2008-03-20 Despite not having been used in anger since Hiroshima and Nagasaki the Bomb is still the biggest threat that faces us in the 21st century As Bill Clinton's first secretary of defence Les Aspin aptly put it The Cold War is over the Soviet Union is no more But the post Cold War world is decidedly not post nuclear For all the effort to reduce nuclear stockpiles to zero it seems that the Bomb is here to stay This Very Short Introduction reveals why The history and politics of the bomb are explained from the technology of nuclear weapons to the revolutionary implications of the H bomb and the politics of nuclear deterrence The issues are set against a backdrop of the changing international landscape from the early days of development through the Cold War to the present day controversy of George W Bush's National Missile Defence and the threat and role of nuclear weapons in the so called Age of Terror Joseph M Siracusa provides a comprehensive accessible and at times chilling overview of the most deadly weapon ever invented ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Soviet Strategy and the New Military Thinking** Derek Leebaert, Timothy Dickinson, 1992 This book first published in 1991 analyses the unprecedented changes as

well as the troubling continuities that characterized Soviet military thinking during the early 1990s *Soviet-British Relations Since the 1970s* Alex Pravda, Peter J. S. Duncan, Royal Institute of International Affairs, 1990-04-26 This collection brings together empirical and analytical studies of the nature and evolution of Soviet British relations during the 1980s and looks forward to the 1990s The relationship is firmly placed within the wider context of Soviet policy toward the West and NATO The contributors examine mutual perceptions and policy perspectives Soviet interests and objectives in dealing with Britain and the role of economic political diplomatic nongovernmental and security factors in determining policy outcomes A concluding section evaluates the long term significance of current and potential policy developments on both sides Soviet British Relations is the first volume to be produced by the Soviet foreign policy study group at Chatham House and is published in association with The Royal Institute of International Affairs *Strategic Studies and Public Policy* Colin S. Gray, 2021-09-15 Strategic studies as a field of civilian scholarship has developed along distinctive lines in the United States since World War II The rapid proliferation and increasing sophistication of weapons technology have required constant revision of strategic theory while the shifting political climate both internationally and in the United States has had an equally powerful impact One of the field's leading theorists now examines the history and development of American strategic studies the varied roles assumed by civilian strategists and their relationship with those charged with developing and carrying out American military and diplomatic policy This provocative book clearly demonstrates the importance of a sound strategic theory if America is to survive in an age of high arms technology and increased world tensions *Avoiding Armageddon* Andrew Richter, 2011-11-01 The advent of nuclear weapons in the 1940s brought enormous changes to doctrines regarding the use of force in resolving disputes American strategists have been widely credited with most of these Canadians most have assumed did not conduct their own strategic analysis Avoiding Armageddon soundly debunks this notion Drawing on previously classified government records Richter reveals that Canadian defence officials did come to independent strategic understandings of the most critical issues of the nuclear age Canadian appreciation of deterrence arms control and strategic stability differed conceptually from the US models Similarly Canadian thinking on the controversial issues of air defence and the domestic acquisition of nuclear weapons was primarily influenced by decidedly Canadian interests Avoiding Armageddon is a work with far reaching implications It illustrates Canada's considerable latitude for independent defence thinking while providing key historical information that helps make sense of the contemporary Canadian defence debate **Newsletter**, 1980 **The Province of All Mankind** Stephen Buono, 2025-07-15 The Province of All Mankind is the story of a powerful idea about the cosmos Born in the science fiction literature of the nineteenth century and maturing in the Age of Apollo this idea held that outer space should be preserved as a sanctuary from human strife free from weapons warfare and political rivalry If humanity could somehow leave violence behind as it moved into space perhaps peace would finally reign Bucking a half century of space race scholarship Stephen Buono argues that despite

waging a totalizing Cold War the United States achieved stunning diplomatic successes that heralded the cosmos as a realm of peace and cooperation The early story of space politics is not primarily one of militarization but rather of political prescience and restraint The Province of All Mankind demonstrates that space became a unique domain of American foreign relations and international law and provides lessons for the Second Cold War unfolding over the horizon **An American Ordeal** Charles DeBenedetti,1990-03-01 An American Ordeal is the first comprehensive interpretive history of the antiwar movement in the United States throughout the Vietnam era Beginning with the rise of a liberal peace movement against atmospheric nuclear testing from 1955 to 1963 the authors describe the emergence of radical pacifists and politically motivated groups who eventually created a diverse coalition against the Vietnam War They examine how extremist elements came to dominate the movement in the late 1960s to be supplanted by a larger consensus of liberal and pacifist groups in the early 1970s **Newsletter** United States. Department of State,1980 **Congressional Record** United States.

Congress,2000 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Nuclear Power Struggles** William Walker,Måns Lönnroth,2025-03-03 First published in 1983 Nuclear Power Struggles now with a new preface by the authors analyses the strains within the nuclear reactor industry and assesses the scale and location of future markets It looks at the strengths and weaknesses of leading exporters and considers what can be done to avoid a deterioration of trade behaviour The book examines the merits of alternative approaches to nuclear trade from political and strategic standpoints It highlights policy differences between suppliers and especially between the USA and Europe which threaten to place further stress on transatlantic relations It addresses the problems of moving from a non proliferation regime dominated by the USA and USSR to one in which responsibilities must be more widely shared and focuses on the crucial role of France This volume will be an essential reading for policymakers in the government industry and international organisations and for all those concerned with the vital issues of nuclear proliferation and industrial adjustment *Department of State News Letter* United States. Department of State,1980 *Bulletin of the Public Affairs Information Service* Public Affairs Information Service,1979

The Meaning of Munich Fifty Years Later Kenneth Martin Jensen,David Wurmser,United States Institute of Peace,1990 About the implications of the 1938 Munich conference on international foreign policy and conflict resolution in the 1980s
