Around London with Kids Jacqueline Brown, 2001 The subject of this book is Herodes Atticus the enormously rich Athenian of the second century AD who became one of the politically important persons in his City and who was one of the leading intellectuals of his time in his capacity of sophist orator and teacher to students from all over the Roman Empire Evidence of his munificence were scattered over Greece and Italy in the shape of statues buildings and shrines that he sponsored They contributed to creating an image of a benevolent and generous benefactor This book focuses on one of the tools that he used for disseminating his image namely poetry The approach of this study is different from previous research in the sense that it is totally focused on verse inscriptions connected to Herodes Atticus and found in two different regions of the Roman Empire Those inscriptions have been studied previously but they have almost exclusively been used as sources for Herodes biography and treated as reflections of his person In this study the texts are also treated as illustrations of how occasional poetry functioned in the contemporary society and of how an individual like Herodes exploited the poetic medium in order to enhance his own person his family and his endeavours By a careful study of the epigrams in question the somewhat stereotype picture of Herodes becomes modified and a complex figure appears Without exaggeration Herodes Atticus was one of the most interesting personalities in Athens of the Early Roman Empire **BOOK JACKET** *Around Kensington* Brian Girling, 1996-06-01 This book is part of the Archive Photographs series which uses old photographs and archived images to show the history of various local areas in Great Britain through their streets shops pubs and people
