that they are all of a piece They represent one man s attempt to wade through history and text language and symbol an array of voices both past and present while always focusing on the essential question What does it mean to be a religious human being and what does Judaism teach us about it This the author considers to be the heart of the matter Publisher s description

Laws of the Spirit Ariel Evan Mayse,2024-05-28 The compelling vision of religious life and practice found in Hasidic sources has made it the most enduring and successful Jewish movement of spiritual renewal of all time In this book Ariel Evan Mayse grapples with one of Hasidism s most vexing questions how did a religious movement known for its radical views about immanence revelation and the imperative to serve God with joy simultaneously produce strict adherence to the structures and obligations of Jewish law Exploring the movement from its emergence in the mid 1700s until 1815 Mayse argues that the exceptionality of Hasidism lies not in whether its leaders broke or upheld rabbinic norms but in the movement s vivid attempt to rethink the purpose of Jewish ritual and practice Rather than focusing on the commandments as law he turns to the methods and vocabulary of ritual studies as a more productive way to reckon with the contradictions and tensions of this religious movement as well as its remarkable intellectual vitality Mayse examines the full range of Hasidic texts from the eighteenth and early nineteenth centuries from homilies and theological treatises to hagiography letters and legal writings reading them together with contemporary theories of ritual Arguing against the notion that spiritual integrity requires unshackling oneself from tradition *Laws of the Spirit* is a sweeping attempt to rethink the meaning and significance of religious practice in early Hasidism

Your Word is Fire, 2017-09-05 A fully updated and revised edition of a classic text on Jewish prayer The power of prayer for spiritual renewal and personal transformation is at the core of all religious traditions Because Hasidic literature contains no systematic manual of contemplative prayer the texts included in this volume have been culled from many sources From the teachings of the Hasidic Masters the Ba'al Shem Tov the Maggid Dov Baer of Meidzyrzec and their immediate disciples the editors have gleaned hints as to the various rungs of inner prayer and how they are attained Hasidism the Jewish revivalist movement that began in the late eighteenth century saw prayer as being at the heart of religious experience and was particularly concerned with the nature of a person's relationship with God The obstacles to prayer discussed by the Hasidic masters distraction loss of spirituality and inconstancy of purpose feel very close to concerns of our own age Through advice parables and explanations the Hasidic masters of the past speak to our own attempts to find meaning in prayer

Religious Truth Alon Goshen-Gottstein, 2020-04-02 Truth informs much of the self understanding of religious believers Accordingly understanding what we mean by truth is a key challenge to interreligious collaboration The contributors to this volume all leading scholars consider what is meant by truth in classical and contemporary Jewish thought and explore how making the notion of truth more nuanced can enable interfaith dialogue Their essays take a range of approaches some focus on philosophy proper others on the intersection with the history of ideas while others engage with the history of Jewish mysticism and thought Together they open up the notion of truth in Jewish religious discourse and suggest ways in which upholding a notion of one s religion as true may be reconciled with an appreciation of other faiths By combining philosophical and theological thinking with concrete case studies and discussion of precedents and textual resources within Judaism the volume proposes new interpretations of the concept of truth going beyond traditional exclusivist uses of the term A key aim is to help Jews seeking dialogue with other religions to do so while

remaining true to their own faith tradition in pursuit of this the volume concludes with suggestions of how the ideas presented can be applied in practice CONTRIBUTORS Cass Fisher Jerome Yehuda Gellman Alon Goshen Gottstein Avraham Yizhak Arthur Green Stanislaw Krajewski Tamar Ross
