Kathryn Lowerre,2016-12-05 Unlike collections of essays which focus on a single century or whose authors are drawn from a single discipline this collection reflects the myriad performance options available to London audiences offering readers a composite portrait of the music drama and dance productions that characterized this rich period Just as the performing arts were deeply interrelated the essays presented here by scholars from a range of fields engage in dialogue with others in the volume The opening section examines a famous series of 1701 performances based on the competition between composers to set William Congreve's masque The Judgment of Paris to music The essays in the central section the mainpiece showcase performers and productions on the London stage from a variety of perspectives including English tastes in art and music the use of dance the depiction of madness and masculinity in both spoken and musical performances and genres and modes in the context of contemporary criticism and theatrical practice A brief afterpiece looks at comic pieces in relation to satire parody and homage By bringing together work by scholars of music dance and drama this cross disciplinary collection illuminates the interconnecting strands that shaped a vibrant theatrical world **Van Gogh Studies** John Albert

The Publishers' Trade List Annual ,1978 **The Life and Times of Ward Kimball** Todd James Pierce,2019-01-17 Besides Walt Disney no one seemed more key to the development of animation at the Disney Studios than Ward Kimball 1914 2002 Kimball was Disney's friend and confidant In this engaging cradle to grave biography award winning author Todd James Pierce explores the life of Ward Kimball a lead Disney animator who worked on characters such as Mickey Mouse Donald Duck Jiminy Cricket the Cheshire Cat and the Mad Hatter Through unpublished excerpts from Kimball's personal writing material from unpublished interviews and new information based on interviews conducted by the author Pierce defines the life of perhaps the most influential animator of the twentieth century As well as contributing to classics such as Snow White and the Seven Dwarfs and Pinocchio from the late 1940s to the early 1970s Kimball established a highly graphic idiosyncratic approach to animation alongside the studio's more recognizable storybook realism In effect Ward Kimball became the only animator to run his own in studio production team largely outside of Walt Disney's direction In the 1950s and 1960s he emerged as a director and producer of his own animation while remaining inside Disney's studio Through Kimball the studio developed a series of nonfiction animation programs in the 1950s that members of Congress pointed to as paving the way for NASA The studio also allowed Kimball's work to abandon some ties to conventional animation looking instead to high art and graphic design as a means of creating new animated forms which resulted in films that received multiple Academy Award nominations and two awards Throughout his life Kimball was a maverick animator an artist who helped define the field of

American animation and a visionary who sought to expand the influence of animated films
