

The background of the book cover is a vibrant, abstract artwork. It features large, stylized red silhouettes of human figures. On the left, a head is shown in profile with a yellow circle for an eye and a red oval for a mouth. On the right, a full-body figure stands, also with a yellow circle for an eye and a series of yellow circles along its torso. The background is a warm, textured orange-yellow. Various other symbols are scattered throughout: a small figure with a crown and radiating lines at the top center; a cluster of black vertical bars in the top right; a small figure with a lantern in the center; a large eye in the bottom right; and a group of small black silhouettes at the bottom right. The overall style is reminiscent of mid-20th-century abstract art.

Keith Sawyer, 2006-01-19 Explaining Creativity is an accessible introduction

to the latest scientific research on creativity In the last 50 yearss psychologists anthropologists and sociologists have increasingly studied creativity and we now know more about creativity that at any point in history Explaining Creativity considers not only arts like painting and writing but also science stage performance and business innovation Until about a decade ago creativity researchers tended to focus on highly valued activities like fine art painting and Nobel prize winning science Sawyer brings this research up to date by including movies music videos cartoons videogames hypertext fiction and

computer technology For example this is the first book on creativity to include studies of performance and improvisation Sawyer draws on the latest research findings to show the importance of collaboration and context in all of these creative activities Today s science of creativity is interdisciplinary in addition to psychological studies of creativity Explaining Creativity includes research by anthropologists on creativity in non Western cultures and research by sociologists about the situations contexts and networks of creative activity Explaining Creativity brings these approaches together within the sociocultural approach to creativity pioneered by Howard Becker Mihaly Csikszentmihalyi and Howard Gardner The sociocultural approach moves beyond the individual to consider the social and cultural contexts of creativity emphasizing the role of collaboration and context in the creative process **The New Encyclopedia of Southern Culture** Carol

Creativity, Madness and Civilisation Richard Pine, 2021-04-16 What is creativity And what is madness How far can we interpret an artist s work through our knowledge of his or her mental state and how far can we infer a mental state from a work of art When does a work of art cease to be a personal statement by the artist and become a matter of public concern The contributions to this book attempt to answer some of these questions They come from a wide range of disciplines and experiences a practising psychiatrist a practising artist suffering from reactive depression and critics working in literature film music and the visual arts The essays include discussions of the myth of creativity the music of Robert Schumann the borders of sanity in the writing of Lawrence Durrell the insane truth of Virginia Woolf the meeting of doctor and patient in the poetry of Anne Sexton mood disorders in the fiction of David Foster Wallace love and madness in the poetry of Hafiz of Shiraz and the paintings of Adolf W lfl Central to this discussion of creativity madness and civilisation is the difficulty of establishing an appropriate and effective vocabulary and mindset between critics and clinical psychiatrists which would

enable them to work together in understanding mental disturbance in creative artists
