Aire Nuestro:

Aire nuestro de Jorge Guillén Ignacio Prat, 1974 *Jorge Guillén, Aire nuestro* Jorge Guillén, 1991 **Guillén on Guillén** Jorge Guillén, 2015-03-08 Jorge Guillén is one of Spain's most important and productive poets of the twentieth century yet though recently honored with prestigious literary prizes in Spain Italy and the United States he remains little known in this country This selection of his poetry and his commentary on the poems comprise an extraordinary introduction of the poet to an English speaking audience Ranging over the nearly sixty years of Guillén's poetic career this anthology consists of the poet's own selection of forty one poems that represent for him the coherence and unity of his life's work His commentary on each poem explains its place and significance in this context With the original Spanish and the English translations on facing pages the anthology proceeds thematically The poet asks us to consider the architecture of his work as a whole and not necessarily his development as a poet At Guillén's invitation the translators visited him at his home in Cambridge Massachusetts where they taped the poet reading and talking about his poetry for more than five hours Guillén on Guillén is the edited transcript of that meeting Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The World and Man in Jorge Guillén's 'Aire Nuestro'*, 1978 **Literatura de las nuevas tecnologías:** Jara CALLES HIDALGO, 2012-04-01 En la presente tesis se aborda la idea de una Literatura de las nuevas tecnologías que podrá quedar descrita y caracterizada por una serie concreta de procedimientos y formas de articulación de contenidos que guardan estrecha relación con el hecho de asumir las nuevas tecnologías y también la ciencia como espacio de subjetivación **Daños a la salud por contaminación atmosférica**, 2001 *Postgrowth Imaginaries* Luis I. viaje literario por la obra de los más importantes escritores españoles e hispanoamericanos del siglo pasado sin los cuales es imposible entender en toda su complejidad ese convulso periodo. Desde autores que sentaron las bases estilísticas necesarias para el desarrollo posterior como Miguel de Unamuno, Juan Ramón Jiménez, Horacio Quiroga o César Vallejo hasta autores cuyas raíces nacieron en el siglo XX y han crecido hasta adentrarse en el siglo XXI como Mario Vargas Llosa, Gabriel García Márquez, Roberto Bolaño o Javier Marías. Mediante una serie de concisos y completos ensayos que buscan ser sobre todo una invitación a la lectura, 100 escritores del siglo XX ámbito hispánico recoge los nombres más representativos y sobresalientes de las diferentes literaturas hispánicas para presentarlos desde una perspectiva tanto individual como global.
