Airing Dirty Laundry:

Airing Dirty Laundry Amanda M. Vladick, 2007 *The Money Shot* Laura Grindstaff, 2008-11-07 He leaped from his chair ripped off his microphone and lunged at his ex wife Security guards rushed to intercept him The audience screamed then cheered Were producers concerned Not at all They were getting what they wanted the money shot From classy shows like Oprah to trashy shows like Jerry Springer the key to a talk show s success is what Laura Grindstaff calls the money shot moments when guests lose control and express joy sorrow rage or remorse on camera In this new work Grindstaff takes us behind the scenes of daytime television talk shows a genre focused on real stories told by ordinary people Drawing on extensive interviews with producers and guests her own attendance of dozens of live tapings around the country and more than a year s experience working on two nationally televised shows Grindstaff shows us how producers elicit dramatic performances from guests why guests agree to participate and the supporting roles played by studio audiences and experts Grindstaff traces the career of the money shot examining how producers make stars and experts out of ordinary people in the process reproducing old forms of cultural hierarchy and class inequality even while seeming to challenge them She argues that the daytime talk show does give voice to people normally excluded from the media spotlight but it lets them speak only in certain ways and under certain rules and conditions Working to understand the genre from the inside rather than pass judgment on it from the outside Grindstaff asks not just what talk shows can tell us about mass media but also what they reveal about American culture more generally *The I Do's and I Don'ts of a Successful Marriage* Rick L. Cox, 2020-10-15 *The I Do s and I Don ts of a Successful Marriage* By Rick Cox The book is about marriage and relationships I realize there are many self help books covering a variety of issues My desire however was to write a book about marital as well as other relationships that is easy to read yet has enough substance to positively impact readers on a level that would motivate an inward desire to change for the better This is a book that will open the eyes of readers to the fact they are as normal as anyone else It is a book showing how a few changes or corrections in one s daily interaction with one s spouse could make for a better tomorrow The reader will learn not to react responding instead with the right motive and attitude the reader will be able to see how by doing the right things one s life can change for the better and so can the lives of all in the household I grew up hearing how difficult the marital relationship is due to the differences between men and women I heard about how women are hard to figure out or that most men never know what it is their wives want In my life I have not found this to be true what I have found is it takes a conscious effort on my part to observe and get to know my wife her likes and dislikes her wants hopes dreams and desires During this observation I learned she did not like all the things I did and that was okay I learned to accept the fact she might not want to do what I want to do and it is okay if I don t want to do what she wants I learned she is romantic and even has her own personal language This is a language she and other women appear to understand but it didn t readily make sense to me I believe you will find this book to be quite informative and to the point It

Dissenting Fictions Cathy Moses,2014-01-14 This study elucidates the relationship between identity formation and resistance to racial and sexual oppression in a group of contemporary American novels the author terms dissenting fictions narratives that assert the subjectivity and historicity of marginalized peoples at precisely the moment when postmodern critiques proclaim the death of the subject and the inaccessibility of historical truth Of primary concern is the question of how narrative fictions conceive of strategies of resistance to oppression in an age in which the identity politics of the sixties and seventies have given way to positional subjectivities fluid identities and coalition politics Through interpretive readings of the works of well known authors Toni Morrison and Leslie Marmon Silko critically acclaimed novelist David Bradley the well respected but little studied novelist Russell Banks and the relatively unknown Leslie Feinberg whose fiction challenges accepted notions of gender the author explores a range of practices that place notions of identity in crucial relationship to resistance praxis Dissenting fictions emerge in this study as imaginative narratives that perform substantial cultural work reworking classical liberal notions of subjectivity and agency These novels address the failure of conventional individual agency and imagine an interactive agency grounded in an awareness of both a political economy and historic power relations
