Let Me Count the Ways Tomás Q. Morín, 2022-03 2023 Vulgar Genius Nonfiction Award 2022 Writer's League of Texas Nonfiction Book Award Growing up in a small town in South Texas in the eighties and nineties poverty machismo and drug addiction were everywhere for Tom's Q Morín He was around four or five years old when he first remembers his father cooking heroin and he recalls many times he and his mother accompanied his father while he was on the hunt for more Morín in the back seat keeping an eye out for unmarked cop cars just as his father taught him It was on

one of these drives that for the first time he blinked in a way that evolution hadn't intended. *Let Me Count the Ways* is the memoir of a journey into obsessive compulsive disorder, a mechanism to survive a childhood filled with pain, violence and unpredictability. Moron's compulsions were a way to hold onto his love for his family in uncertain times until OCD became a prison he struggled for decades to escape. Tender, unflinching and even funny, this vivid portrait of South Texas life challenges our ideas about fatherhood, drug abuse and mental illness. *Flying Forwards, Facing Backwards* Jim Walls, 2022-07-20

Since he was a child in the 1950s watching Vampires and Meteors operating from RAF Turnhouse, Jim Walls wanted to fly aircraft; he just never envisaged that his flying career would be spent in the back seat as opposed to the front. Jim guides readers through his 40-year RAF career that started as a Boy Entrant at RAF Cosford, then as an air radar tradesman, before specializing as an air electronics operator (AEOP) in the Nimrod MR1 and later as an air electronics officer (AEO) who flew in Nimrod R1s and Vulcan B2s. With detailed insight into the world of radar, electronic countermeasures and signals intelligence, Jim highlights the role they played in warfare for numerous operations during the Cold War as well as the Falklands campaign, First Gulf War and Bosnian War. He also recalls the peacetime role of the Nimrod and Vulcan with stories from his time on 51, 120 and 617 Squadrons. As well as focusing on his career, Jim gives his viewpoint on matters such as Operation Black Buck and the reduced war-fighting capability of the Vulcan as it neared retirement. This fascinating book showcases the vital role that AEOs held and the importance of radar and electronic warfare in the fight against enemy forces. It is also a tribute to the much-loved Cold War icons, the Nimrod and the Vulcan. With photography throughout, mainly from the author's personal collection, this book will appeal to Cold War enthusiasts and fans of the iconic jets of that era. **Albatrosses** Terence Lindsey, 2008-06-22

Most albatrosses range across the Southern Hemisphere from Antarctica to Australia and from South Africa to South America. The ferocious air encircling Antarctica is an impossible place for almost all non-aquatic animals, but not for the albatross. The most distinctive characteristic of albatrosses is that they ride storms. They do not evade storms or flee them, but climb aboard and ride them effectively throughout their lives. Aside from a few close relatives among the petrels and shearwaters, they are the only animals that do this. Albatrosses outline the life histories of these spectacular birds and explore some of the main strategies that have evolved to enable them to achieve mastery of one of the most hostile regions on the planet. Complemented by stunning photographs taken from remote locations, this book will be treasured by natural history and bird enthusiasts. *Proceedings* New Zealand Ecological Society, 1953.
