The Composer As Intellectual Jane F. Fulcher,2005-08-25 In The Composer as Intellectual musicologist Jane Fulcher reveals the extent to which leading French composers between the World Wars were not only aware of but also engaged intellectually and creatively with the central political and ideological issues of the period Employing recent sociological and historical insights she demonstrates the extent to which composers particularly those in Paris since the Dreyfus Affair considered themselves and were considered to be intellectuals and interacted closely with intellectuals in other fields Their consciousness raised by the First World War and the xenophobic nationalism of official culture some joined parties or movements allying themselves with and propagating different sets of cultural and political social goals Fulcher shows how these composers furthered their ideals through the specific language and means of their art rejecting the dominant cultural exclusions or constraints of conservative postwar institutions and creatively translating their cultural values into terms of form and style This was not only the case with Debussy in wartime but with Ravel in the twenties when he became a socialist and unequivocally refused to espouse a narrow exclusionary nationalism It was also the case with the group called Les Six who responded culturally in the twenties and then politically in the thirties when most of them supported the programs of the Popular Front Others could not be enthusiastic about the latter and largely excluded from official culture sought out more compatible movements or returned to the Catholic Church Like many French Catholics they faced the crisis of Catholicism in the thirties when the church not only supported Franco but Mussolini s imperialistic aggression in Ethiopia While Poulenc embraced traditional Catholicism Messiaen turned to more progressive Catholic movements that embraced modern art and insisted that religion must cross national and racial boundaries Fulcher demonstrates how closely music had become a field of clashing ideologies in this period She shows also how certain French composers responded and how their responses influenced specific aspects of their professional and stylistic development She thus argues that from this perspective we can not only better understand specific aspects of the stylistic evolution of these composers but also perceive the role that their art played in the ideological battles and in heightening cultural political awareness of their time *Albert Roussel* Robert Follet,1988-11-18 Although recognized as one of the greatest French composers of the twentieth century Albert Roussel 1869 1937 has been frequently overlooked in recent years However the publication of this bibliography coincides with a renewed interest especially in Roussel s native land in recording his compositions While the majority of English language works on Roussel have concentrated on the details of his life or attempted to define and analyze his compositional style this first annotated bibliography and discography focuses on his opus and provides copious information about specific works

performances recordings and reviews Born in Tourcoing France Roussel received recognition for his compositions as early as 1897 His productivity soared during the 1920s when his work was influenced by Impressionism and his neo classical compositions of the 1930s achieved national recognition The work commences with a biography and then presents a listing voice and includes a directory of publishers A discography broken into similar divisions follows The annotated bibliography covers books and articles about Roussel program notes and writings by the composer Two appendices provide an index to first lines and a chronological list of compositions An index of personal and corporate names completes the reference This bibliography will be an important addition to university libraries and music departments **Albert Roussel** Norman Demuth,1947 Catalogue de L'Oeuvre D' Albert Roussel Albert Roussel,1957 *Accenting the Classics* Deborah Mawer,Barbara L. Kelly,Rachel Moore,Graham Sadler,2023 Brings new insights to the music of well known European composers by telling a fascinating little known story about French music publishing specifically through the lens of Jacques Durand s dition Classique French composers performers and musicologists acted as editors of eighteenth and nineteenth century European classics primarily for piano Among these editors were Faur Saint Sa ns Debussy Ravel and Dukas the objects of their enquiries included core works by Rameau Bach Mozart Beethoven Mendelssohn Schumann and Chopin Presenting six composer editor case studies the volume shows that the French accent both musical and cultural upon this predominantly Austro German music was highly varied Editorial responses range from scholarly approaches to those directed by performance or compositional agendas and from pan European to strongly patriotic stances Intriguing intersections are revealed between old and new and between French and cross European canons Beyond editing the book explores the dition s role in pedagogy and performance including by pianists Robert Casadesus and Yvonne Loriod and in the reassertion of contemporary French composition especially regarding innovation around neoclassicism It will interest a wide readership including musicologists performers and concert goers cultural historians and other humanities scholars Albert Roussel ,1993 Writing through Music Jann Pasler,2007-12-12 Drawing on a passion for music a remarkably diverse interdisciplinary toolbox and a gift for accessible language that speaks equally to scholars and the general public Jann Pasler invites us to read as she writes through music unveiling the forces that affect our sonic encounters In an extraordinary collection of historical and critical essays some appearing for the first time in English Pasler deconstructs the social moral and political preoccupations lurking behind aesthetic taste Arguing that learning from musical experience is vital to our understanding of past present and future Pasler s work trenchantly reasserts the role of music as a crucial contributor to important public debates about who we can be as individuals communities and nations The author s wide ranging and perceptive approaches to musical biography and history challenge us to rethink our assumptions about important cultural and philosophical issues including national identity and postmodern musical hybridity material culture the economics of power and the relationship between classical and popular music Her work uncovers the self fashioning of modernists such as

Vincent d'Indy, Augusta Holm's, Jean Cocteau and John Cage and addresses categories such as race, gender and class in the early 20th century in ways that resonate with experiences today. She also explores how music uses time and constructs narrative. Pasler's innovative and influential methodological approaches such as her notion of question spaces open up the complex cultural and political networks in which music participates. This provides us with the reasons and tools to engage with music in fresh and exciting ways. In these thoughtful essays, music, whether beautiful or cacophonous, reassuring or seemingly incomprehensible, comes alive as a bearer of ideas and practices that offers deep insights into how we negotiate the world. Jann Pasler's *Writing through Music* brilliantly demonstrates how music can be a critical lens to focus the contemporary critical, cultural, historical and social issues of our time.

Le Chant Intime François Le Roux, Romain Raynaldy, 2021. In this translation of the groundbreaking *Le Chant Intime*, internationally renowned baritone François Le Roux in conversation with journalist Romain Raynaldy presents a master class on French art song with a thorough analysis of 60 selected songs that deviate from the traditionally narrow repertoire of the m'lodie genre. Taking an approach that goes far beyond the typical limiting conventions, Le Roux and Raynaldy adhere to composer Francis Poulenc's principle that a song should always be a love affair, not an arranged marriage. Neither theoretical nor purely academic, this guide instills in its readers a deep appreciation for the historical and artistic context of each piece by enriching each analysis with the full text of the lyrical poem and several musical examples as well as fascinating details of historic premieres, concert halls, singers and poets. Paired with intensive and practical notes related to the nuances of melody and vocal delivery, each analysis provides an essential reference for performers and listeners alike. The translation is due to the expertise of musicologist and pianist Sylvia Kahan, Professor of Music at the Graduate Center and College of Staten Island, CUNY.

Olivier Messiaen: Journalism 1935-1939 Stephen Broad, 2016-05-06. One of the foremost composers of the twentieth century, Olivier Messiaen wrote widely on his music and on his beliefs. This is the first edition of his early journalism and provides both the original French text and an English translation. The writing in this volume dates from the 1930s, before the composer gained the international reputation that he and his music now enjoy. The pieces he wrote range from reviews of individual performances to essays on particular works or composers and articles that discuss more general themes such as sincerity of expression in music. Many of the articles included in this collection are new to the Messiaen bibliography and others are available here for the first time in English. A number are, as Broad describes them, quietly shocking in that they force us to reappraise certain aspects of the composer, such as his role in *La Jeune France* and his wider participation in the debates of his time. This edition therefore represents a new source for understanding Messiaen and provides a fascinating glimpse of the composer in the early part of his career.

Conducting Favourite Concert Pieces Norman Del Mar, 1998. This collection of essays on the interpretation of twenty-two unusual concert pieces was assembled partly with a view to more imaginative program planning. There are many composers who may

have written only one or two masterpieces yet failed to leave a worthy oeuvre these sadly are often forgotten or overlooked when conductors assemble programs This compilation spans a little over a hundred years from the 19th and 20th centuries and all the works are colorful and attractive Once again Norman Del Mar brings his expertise in handling the orchestra to a wide variety of styles His infectious enthusiasm and broad knowledge make him an invaluable guide to the aspiring conductor the expert and the music loving listener The essays range from Russia to Spain from Schoenberg to Kodaly from Wolf to Poulenc with such established favorites as the overture to La Forza del Destino with its unexpected tricky moments and the Four Sea Interludes and Passacaglia from Peter Grimes for which Del Mar offers suggestions from Britten himself with whom he worked for many years
