Drug and Alcohol Abuse Marc A. Schuckit, 2012-12-06 When this series was conceived a book on substance abuse including alcohol and alcoholism was to be of the highest priority This priority was a reflection of my view that the subject is often inadequately or insufficiently taught in many training programs Few clinicians have had comprehensive didactic education in this area despite the frequency with which these problems are encountered in practice All too often these encounters are in situations in which accurate diagnosis and rapid treatment are of critical importance We wanted a book that would be concise and easily readable but also comprehensive in its presentation of the basic principles underlying clinical manifestations diagnosis and management It was of particular importance that the book also serve as an easy reference guide in emergency situations Marc Schuckit a man with impeccable credentials as a scholar and an experienced clinician in this field produced just such a book with his critically acclaimed first edition That volume rapidly became a resource of great significance for psychiatrists psychotherapists and physicians in general It has been adopted as a text in medical schools and residency training as well as for courses in psychology emergency medicine social work and nursing The entire volume has been revised and updated to reflect changes in knowledge and clinical practice since the publication of the first edition and in order to keep the comprehensive references current There is a new chapter on phencyclidine and another on caffeine and nicotine

Alcoholism, a Treatment Manual Wayne Poley, Gary Lea, Gail Vibe, 1979 This book provides a general introduction to and description of North America's major drug of abuse alcohol Multidisciplinary in approach the Manual addresses itself to the variety of methods The reader is given observable behavioural and here and now techniques for treatment as well as answers to such fundamental questions as What effects does alcohol have on the individual How do we treat the alcoholic How successful are we in our efforts The Manual was written as a guide for frontline workers those who need practical answers to questions that are beyond the scope of the alcohol clinic pamphlet but are too general for the highly technical or specialized reference work It should appeal to counselors therapists educators physicians

nurses law enforcement officers administrators and social workers It will also be of interest to lay readers interested in the field of alcoholism and its treatment **mhGAP Humanitarian Intervention Guide (mhGAP-HIG) training of health-care providers** ,2022-04-04 Treatment Improvement Protocol (TIP) Series ,1993
