Atkins, 1985-06-01 **Laughing Your Way Through Alzheimers** Savanna Jones, 2017-11-10 When my mother was first diagnosed with Alzheimer's everything seemed to be fine Other than forgetting a few things here and there her behavior appeared normal But then I received a call from my sister telling me that when she got home Mom had disappeared She called the police and discovered that she had decided to take a late night walk and was found three miles away from the house It was then that we discovered she could no longer be left alone Once people knew about my mother's condition they suggested different movies for me to watch After seeing these movies had I been a candidate for suicide I would have jumped

right off the cliff Watching my mom go from a thriving adult to a helpless child was heartbreaking enough After spending months crying about my mom s condition I had an epiphany I could continue grieving over her or I could look at the things that made me laugh about her instead of the things that made me cry Looking at her disease from this perspective changed everything Taking care of her was no longer a burden but a joy It was also a way for me to give back to someone who had spent their lifetime giving to me This book is dedicated to caregivers everywhere I hope it will inspire encourage and strengthen you as you take care of your loved ones No matter what the disease I hope your perspective will be to focus on the things that make you laugh instead of cry

twenty four care he soon conceded it was impossible to care and maintain their large home and grounds She was doubly incontinent and rigidity had set in thus he felt compelled to place her in a Nursing Home In the months that followed her condition deteriorated to a degree that she became bedridden and required palliative care His daily eight hour harrowing visits became unbearable and against all advice he decided to take her home to die For nine long painful months her survival prospects were rated very poor Constantly he was warned she was dying but he insisted on care giving in his own way

The Loss of Small White Clouds Morgan Batch, 2023-08-09 This volume seeks to instigate a discussion about dementia in theatre. The discussions in this book borrow from the literature on dementia's representation in other artforms while reflecting on theatre's unique capacity to incorporate multiple artforms in a live context. Hypermediacy: The author examines constructions of diegesis and the use of various performance tools including physical theatre, puppetry and postdramatic performance. She discusses stage representations of interior experiences of dementia, selfhood in dementia, the demarcation of those with dementia from those without, endings, erasure and the pursuit of catharsis, placelessness and disruptions of traditional dramatic constructions of time and ultimately performances creatively led by people with dementia. The book traces patterns of narrativisation on the stage including common dramaturgical forms, settings and character relationships as well as examples that transcend mainstream representation. This book is important reading for theatre and performance students, scholars and practitioners as well as cultural studies writers engaged in research about narratives of dementia.

Me, My Mother, and Alzheimer's Disease Janet O'Connell, 2014-03-06 There is a great deal of information in the story of me, my mother and Alzheimer's disease. Because of the intensity of the story, do not even try to take it all at once. Some of you might find that your life journey is totally different from mine while some facts will jump at you. Focus on this first. If you find that you disagree with some of the facts, just overlook it, but if you get one exceptional thought out of this story which you can use to improve the relationship between you and your mother and you have a deeper understanding of how a diagnosis of Alzheimer's disease affects the individual, the children, family and friends and how to choose the best care for your loved one, then I feel satisfied.
