Altavista Search Revolution:

The AltaVista Search Revolution Eric J. Ray, Deborah S. Ray, Richard Seltzer, 1998 Experience the revolutionary search powers of AltaVista The Information Revolution Stuart A. Kallen, 2010-10-29 Smartphones have cameras and speakers but these integrated systems would not be possible if engineers had not first engaged a fundamental problem How does one build a better calculator This question animated many of the sharpest minds of the twentieth century into increasing the precision of instruments such as clocks through electronic circuits This compelling volume discusses the history of the transistor and the integrated circuit better known as the microchip This book also covers as the eccentric and brilliant scientists and engineers who created the intellectual framework for the technology we take for granted today Chapters discuss the notion of the universal brain the quest of build a better calculator the information superhighway the open sharing of information and Web 2 0 *Information Retrieval and Management: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2018-01-05 With the increased use of technology in modern society high volumes of multimedia information exists It is important for businesses organizations and individuals to understand how to optimize this data and new methods are emerging for more efficient information management and retrieval *Information Retrieval and Management Concepts Methodologies Tools and Applications* is an innovative reference source for the latest academic material in the field of information and communication technologies and explores how complex information systems interact with and affect one another Highlighting a range of topics such as knowledge discovery semantic web and information resources management this multi volume book is ideally designed for researchers developers managers strategic planners and advanced level students In Flux Richard Seltzer, 2025-06-15 *In Flux* is a hybrid work part memoir part speculative essay that chronicles Richard Seltzer s personal journey through the early days of the internet especially his time at Digital Equipment Corporation DEC and his experience promoting AltaVista the pioneering search engine Co authored with his son Tim Seltzer the book traces technological change across decades connecting personal anecdotes to broader cultural economic and ethical shifts The book is structured in three major parts 1 DEC the Web and AltaVista An insider s retrospective on how the early internet was shaped by open access technological idealism and the cultural environment of DEC Seltzer recounts his involvement in internet evangelism and the design philosophy of AltaVista emphasizing principles like equality of access textual search indexing and decentralized community building 2 Empowerment and Bias A reflective section that blends sociopolitical commentary and personal narrative It critiques the unintended consequences of early internet optimism maps out the tensions between grassroots empowerment and emergent monopolies and questions how individual actions shape or distort history 3 Ebooks Copyright and AI A forward looking and sometimes cautionary exploration of digital publishing intellectual property and the rising influence of AI It offers critiques of corporate control over content and user data proposing more equitable and decentralized alternatives Throughout the book weaves themes of

idealism disillusionment and cautious hope arguing that technological shifts present both opportunity and risk and that ordinary people can nudge the future this way or that

Infonomics and the Business of Free: Modern Value Creation for Information Services Regazzi, John J.,2013-08-31 The term infonomics has been coined to convey the underlying value of information in terms of its production market demand and economic impact All consumers have come to assume that the information they seek is easily accessible and more importantly free of charge Infonomics and the Business of Free Modern Value Creation for Information Services addresses the question of whether or not information has become a commodity and examines how infonomics and the business of free have changed the way companies must create and market their information to make it accessible and valuable for their customers Information professionals who are responsible for creating valuable information and making services sustainable and accessible will greatly benefit from this book s unique perspective and complete review of current research

The Information Specialist's Guide to Searching and Researching on the Internet and the World Wide Web Ernest Ackermann,Karen Hartman,2014-06-11 Written by a professor of computer science and a reference librarian this guide covers basic browser usage e mail and discussion groups discusses such Internet staples as FTP and Usenet newsgroups presents and compares numerous search engines and includes models for acquiring evaluating and citing resources within the context of a research project The emphasis of the book is on learning how to create search strategies and search expressions how to evaluate information critically and how to cite resources All of these skills are presented as within the context of step by step activities designed to teach basic Internet research skills to the beginner and to hone the skills of the seasoned practitioner

Understanding and Evaluating Search Experience Maria Stone,2022-05-31 This book is intended for anyone interested in learning more about how search works and how it is evaluated We all use search it s a familiar utility Yet few of us stop and think about how search works what makes search results good and who if anyone decides what good looks like Search has a long and glorious history yet it continues to evolve and with it the measurement and our understanding of the kinds of experiences search can deliver continues to evolve as well We will discuss the basics of how search engines work how humans use search engines and how measurement works Equipped with these general topics we will then dive into the established ways of measuring search user experience and their pros and cons We will talk about collecting labels from human judges analyzing usage logs surveying end users and even touch upon automated evaluation methods After introducing different ways of collecting metrics we will cover experimentation as it applies to search evaluation The book will cover evaluating different aspects of search from search user interface UI to results presentation to the quality of search algorithms In covering these topics we will touch upon many issues in evaluation that became sources of controversy from user privacy to ethical considerations to transparency to potential for bias We will conclude by contrasting measuring with understanding and pondering the future of search evaluation

Internet Research Ned L. Fielden,2001-01-01 To many people the use of computers and the Internet as

research tools is not a new concept To others though computers are a relatively recent if necessary addition to their research toolkit A lack of experience presents many difficulties for first time users and others with limited computer know how This work a second edition to the acclaimed Internet Research Theory and Practice provides useful information for anyone who wants to broaden the range and scope of their research tools or anyone who wants to increase their knowledge about what is available electronically The author discusses the following basic methods of research using Internet protocols Internet history techniques for online searching research theory and suggestions for maximizing results mechanisms helpful in distinguishing good from bad or mediocre information and ways for individuals to improve their research skills Also included is an expanded discussion of Internet search engines and their operation issues in scholarly communication and other emerging matters and an enlarged and updated bibliography

Web Business Bootcamp Richard Seltzer, 2018-03-01 First published in 2002 The specific examples are dated because business on the Internet changes rapidly But the underlying principles and lessons hold true You re in basic training for the battle of your life Your mission is to keep your company alive and to help it move forward quickly in unfamiliar territory You must master the tools and techniques needed to serve customers and beat the competition into the strange and potentially hostile online business environment This no nonsense tip driven guide targets key activities that anyone can perform to truly achieve online business success Internet marketing pioneer Richard Seltzer gets managers out of the boardroom and into the trenches for crucial hands on Web experience which provides insight into how to win on the e commerce battlefield He also helps entrepreneurs develop a viable business model without depending on high priced design services and consultants as well as gives technology oriented professionals a broad business perspective for tackling new online responsibilities

Natural Language Processing for Online

Applications Peter Jackson, Isabelle Moulinier, 2002-01-01 This text covers the emerging technologies of document retrieval information extraction and text categorization in a way which highlights commonalities in terms of both general principles and practical issues It seeks to satisfy a need on the part of technology practitioners in the Internet space faced with having to make difficult decisions as to what research has been done and what the best practices are It is not intended as a vendor guide such things are quickly out of date or as a recipe for building applications such recipes are very context dependent But it does identify the key technologies the issues involved and the strengths and weaknesses on evaluation in every chapter both in terms of methodology how to evaluate and what controlled experimentation and industrial experience have to tell us

Trojan Tales Richard Seltzer, 2024-03-30 These stories selected from three novels show events of the Trojan War reflected through the minds of participants who are immersed in the immediacy of the moment Because we re blessed with the gift of not knowing the future life isn t just what happens It s enriched by the cloud of possibilities what might happen what we expect and hope for This novel is a showing rather than a telling of the stories of Troy restoring the immediacy of the moment as experienced by Cassandra Helen Clytemnestra Iphigenia Polyxena Andromache and Hecuba Your familiarity

with the traditional stories will prompt you to anticipate only to be surprised by depths of personality and motivation consistent with the original but unexpected And you ll savor the ironic differences between what you know as a reader and what the characters know Rather than tediously proceed from one event to the next you leap ahead from one dramatic moment to the next The action takes place in dialogue and inner dialogue thoughts in the making rather than narration exposition A standard synopsis plot summary would miss the point of the book The story unfolds as traditionally known but the personalities and motivations of the main characters are often surprising For example Helen and Paris don t go to Troy and no one knows where they are until after the war has gone on for more than nine years When she shows up she had close cropped hair and a jagged scar across her cheek from an encounter with pirates Achilles is a cross dresser He has a romance with Polyxena daughter of the king of Troy who has the look and the training of an Amazon and can out wrestle her Clytemnestra s handmaid is her lover Aegisthus in disguise Her children are his not her husband Agamemnon s One Family Richard Seltzer,2024-12-01 In this mosaic of historical and personal anecdotes fact and fiction are intertwined We lie to ourselves and to one another and coincidence shifts the paths of our lives this way and that We believe what we re ready to believe and what we believe is more important than what actually happens And we all share a common ancestry connected as one family Shop Online Richard Seltzer,1999 Internet shopping is becoming a popular and efficient way of buying a wide range of products This guide shows how to safely shop via the Internet Recent Advances in Computational Terminology Didier Bourigault,Christian Jacquemin,Marie-Claude L'Homme,2001 This first collection of selected articles from researchers in automatic analysis storage and use of terminology and specialists in applied linguistics computational linguistics information retrieval and artificial intelligence offers new insights on computational terminology The recent needs for intelligent information access automatic query translation cross lingual information retrieval knowledge management and document handling have led practitioners and engineers to focus on automated term handling This book offers new perspectives on their expectations It will be of interest to terminologists translators language or knowledge engineers librarians and all others dependent on the automation of terminology processing in professional practices The articles cover themes such as automatic thesaurus construction automatic term acquisition automatic term translation automatic indexing and abstracting and computer aided knowledge acquisition The high academic standing of the contributors together with their experience in terminology management results in a set of contributions that tackle original and unique scientific issues in correlation with genuine applications of terminology processing Natural Language Processing and Information Systems Zoubida Kedad,Nadira Lammari,Elisabeth Métais,Farid Meziane,Yacine Rezgui,2007-08-15 This book constitutes the refereed proceedings of the 12th International Conference on Applications of Natural Language to Information Systems NLDB 2007 held in Paris France in June 2007 It covers natural language for database query processing email management semantic annotation text clustering ontology engineering natural language for information system design information

retrieval systems and natural language processing techniques **Internet Retailing and Future Perspectives** Eleonora Pantano,Bang Nguyen,Charles Dennis,Sabine Gerlach,2016-12-08 Since the first edition of this landmark textbook online shopping has grown exponentially to the point that it now threatens to eclipse the high street With online retail offering both advantages and challenges that are distinct from traditional commerce this textbook provides new approaches to retailing and as such helps readers to take advantage of new digital technologies This long awaited new edition provides a thorough and substantial update to its solid core principle of digital retailing and its relationship with conventional retail methods These principles are explained clearly and practically to provide students entrepreneurs and researchers with a reliable guide to the implementation and operation of a successful online retailing business Updates to this edition include Search engine marketing and search engine optimization New and updated case studies including Tesco s virtual store Ray Ban s smart mirror IKEA s mobile catalogue and Nordstrom s TextStyle Social networks and electronic word of mouth communication A new chapter on ubiquitous retailing A brand new companion website to support tutors With accessibly written features such as key learning points questions think points and further reading *Internet Retailing and Future Perspectives* is ideal for anyone using studying or researching digital commerce *Mining the World Wide Web* George Chang,Marcus Healey,James A. M. McHugh,T.L. Wang,2012-12-06 Mining the World Wide Web An Information Search Approach explores the concepts and techniques of Web mining a promising and rapidly growing field of computer science research Web mining is a multidisciplinary field drawing on such areas as artificial intelligence databases data mining data warehousing data visualization information retrieval machine learning markup languages pattern recognition statistics and Web technology Mining the World Wide Web presents the Web mining material from an information search perspective focusing on issues relating to the efficiency feasibility scalability and usability of searching techniques for Web mining Mining the World Wide Web is designed for researchers and developers of Web information systems and also serves as an excellent supplemental reference to advanced level courses in data mining databases and information retrieval Let the Women Have Their Say: a Trojan Novel Richard Seltzer,2024-04-30 Because we re blessed with the gift of not knowing the future life isn t just what happens It s enriched by the cloud of possibilities what might happen what we expect and hope for This novel is a showing rather than a telling of the stories of Troy restoring the immediacy of the moment as experienced by Cassandra Helen Clytemnestra Iphigenia Polyxena Andromache Leda and Hecuba Your familiarity with the traditional stories will prompt you to anticipate only to be surprised by depths of personality and motivation consistent with the original but unexpected And you ll savor the ironic differences between what you know as a reader and what the characters know Rather than tediously proceed from one event to the next you leap ahead from one dramatic moment to the next The action takes place in dialogue and inner dialogue thoughts in the making rather than narration exposition **Evolution Of Language, The - Proceedings Of The 9th International Conference (Evolang9)** Erica A Cartmill,Thomas C Scott-phillips,Monica

Tamariz, James R Hurford, 2012-02-29 Proceedings of Evolang IX the 9th International Conference on the Evolution of Language The Evolang conferences are the leading international conferences for new findings in the study of the origins and evolution of language They attract a multidisciplinary audience The proceedings are an important resource for researchers in the field

Corpus Linguistics and the Web, 2015-07-14 Using the Web as Corpus is one of the recent challenges for corpus linguistics This volume presents a current state of the arts discussion of the topic The articles address practical problems such as suitable linguistic search tools for accessing the www the question of register variation or they probe into methods for culling data from the web The book also offers a wide range of case studies covering morphology syntax lexis as well as synchronic and diachronic variation in English These case studies make use of the two approaches to the www in corpus linguistics web as corpus and web for corpus building The case studies demonstrate that web data can provide useful additional evidence for a broad range of research questions
