British imperial interests in Iraq during and after the First World War are well known and have often been studied But what of British policy towards the Mesopotamian provinces before 1914 In this well documented study Stuart Cohen provides the first coherent account of growing British interest in these provinces in which the defense of India commercial considerations the protection of Shia Muslim pilgrims and fear of a German dominated Berlin to Baghdad railway all had a vital role to play First published in 1976 and now available in paperback for the first time this book is essential reading not only for an understanding of the making of British policy towards the Arab provinces of the Ottoman empire but also of the last days of Turkish rule in Iraq itself

British Naval Policy in the Gladstone-Disraeli Era, 1866-1880 John Francis Beeler,1997 Against a background of rapid industrialization and economic transformation the author describes the structure of British naval administration in the Gladstone Disraeli era assesses the important reforms of that structure by the Liberal politician Hugh Childers and examines the strategic and operational contexts of the navy itself *British and Foreign State Papers* Great Britain. Foreign Office,Great Britain. Foreign and Commonwealth Office,1866 Peace Handbooks: Partition of Africa : British possessions (I), no. 89-95 Great Britain. Foreign Office. Historical Section,1920 **The Pall Mall Budget** ,1887 **British Road Book ...: The southern counties (Kent to Cornwall) comp. and ed. by F.W. Cook. 4th ed. Inter-departmental committee on cable communications,1902 *The British Navy in Eastern Waters* John D. Grainger,2022

Provides a comprehensive overview of the activities of the British navy in the Indian and Pacific Oceans from the earliest times to the present This book outlines the early voyages of the English East India Company its building of its own naval forces and its conflicts with Indian states It examines the opening up of the Pacific Ocean the wars with the French in the eighteenth and early nineteenth centuries and the activities of the British navy in the later nineteenth century both off the coasts of China and Japan and also in the many other places to which the navy s very great power extended It goes on to consider the wars of the twentieth century Britain s withdrawal from east of Suez and Britain s continuing relative decline Throughout the book provides accounts of battles and other actions and relates the activities of the British navy to the wider political situation and to the activities of other European and Asian navies **The Economic Blockade** William Norton Medlicott,1952 *Allen's Indian mail and register of intelligence for British and foreign India* ,1874 **Colonial**

Conference, 1894 Great Britain. Colonial Office,1894 **Full Employment in a Free Society (Works of William H. Beveridge)** William H. Beveridge,2014-11-27 Beveridge defined full employment as a state where there are slightly more vacant jobs than there are available workers or not more than 3% of the total workforce This book discusses how this goal might be achieved beginning with the thesis that because individual employers are not capable of creating full employment it must be the responsibility of the state Beveridge claimed that the upward pressure on wages due to the increased bargaining strength of labour would be eased by rising productivity and kept in check by a system of wage arbitration The cooperation of workers would be secured by the common interest in the ideal of full employment Alternative measures for achieving full employment included Keynesian style fiscal regulation direct control of manpower and state control of the means of production The impetus behind Beveridge s thinking was social justice and the creation of an ideal new society after the war The book was written in the context of an economy which would have to transfer from wartime direction to peace time It was then updated in 1960 following a decade where the average unemployment rate in Britain was in fact nearly 1 5% *The Electrical Journal* ,1899
