Alternatives to Economic Orthodoxy Randy Pearl Albelda, Christopher Eaton Gunn, William Waller, 1987 Alternatives to Economic Orthodoxy Randy P. Albelda, 1987 **Weekly Weather and Crop Bulletin**, 1998 Alternatives to Economic Orthodoxy Randy Albelda, 2016-07-08 Exploring the question of whether China's peasantry was a revolutionary force this volume pays particular attention to the first half of the 20th century when peasant based conflict was central to nationwide revolutionary processes It traces key themes of social conflict and peasant resistance **Handbook of Alternative Theories of Political Economy** Stilwell, Frank, Primrose, David, Thornton, Tim B., 2022-05-13 This Research Handbook advances entrepreneurship theory in new ways by integrating and contributing to contemporary theories of practice Leading theorists and entrepreneurship experts who are part of the growing Entrepreneurship as Practice EaP research community expertly propose methodologies theories and empirical insights into the constitution and consequences of entrepreneuring practices The Palgrave Handbook of African Political Economy Samuel Ojo Oloruntoba, Toyin Falola, 2020-06-23 This handbook constitutes a specialist single compendium that analyses African political economy in its theoretical historical and policy dimensions It emphasizes the uniqueness of African political economy within a global capitalist system that is ever changing and complex Chapters in the book discuss how domestic and international political economic forces have shaped and continue to shape development outcomes on the continent Contributors also provoke new thinking on theories and policies to better position the continent's economy to be a critical global force The uniqueness of the handbook lies in linking theory and praxis with the past future and various dimensions of the political economy of Africa **The Political Economy of Patriarchy in the Global South** Ece Kocabiçak, 2022-07-11 Recent decades have witnessed both a renewed energy in feminist activism and widespread attacks taking back hard won rights Despite powerful feminist movements the Covid 19 pandemic has significantly undermined the progress women have struggled for decades to achieve how can this be What explains this paradox of a strong feminist movement coexisting with stubborn patriarchal arrangements How can we stop the next global catastrophe initiating a similar backlash This book suggests that the limitations of social theory prevent feminist strategies from initiating transformative changes and achieving permanent gains It investigates the impact of theoretical shortcomings upon feminist strategies by engaging with two clusters of work ungendered accounts of capitalist development and theories on gendered oppression and inequality Decentering feminist theorising grounded in histories and developments of the global North the book provides an original theory of the patriarchal system by analysing changes within its forms and degrees as well as investigating the relationship between the gender class and race ethnicity based inequalities Turkey offers a case that challenges assumptions and calls for rethinking major feminist categories and theories thereby shedding light on the dynamics of social change in the global South The timely intervention of this book is therefore crucial for feminist strategies going forward The book emerges at the intersections between Gender International Development Political

Economy and Sociology and its main readership will be found in but not limited to these disciplinary fields The material covered in this book will be of great interest to students and researchers in these areas as well as policy makers and feminist activists Since publication it has been nominated for the prestigious 2023 British Sociological Association's Philip Adams Memorial Prize The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license

Economic Report of the People Center for Popular Economics (U.S.), 1986 An alternative to the Economic Report of the US President that explains how we can achieve growth and democracy why IMF policies make the Third World debt problem worse and how economic policies of the new right hurt blacks and women

New Departures in Marxian Theory Stephen Resnick, Richard Wolff, 2006-09-27 Over the last twenty five years Stephen Resnick and Richard Wolff have developed a groundbreaking interpretation of Marxian theory generally and of Marxian economics in particular This book brings together their key contributions and underscores their different interpretations In facing and trying to resolve contradictions and lapses within Marxism the authors have confronted the basic incompatibilities among the dominant modern versions of Marxian theory and the fact that Marxism seemed cut off from the criticisms of determinist modes of thought offered by post structuralism and post modernism and even by some of Marxism's greatest theorists

Reforming Capitalism for the Common Good Whalen, Charles J., 2022-08-23 In this book of carefully selected essays Charles Whalen presents constructive analyses of vital economic problems confronting the United States since the 1970s giving special attention to challenges facing working families The analyses are grounded in Whalen's career of more than three decades during which he has gleaned insight from institutional and post Keynesian economics and contributed to national economic policy making equitable regional development and worker engagement in business decisions The result is a compelling case for reforming capitalism by addressing workers interests as an integral part of the common good and for reconstructing economics in the direction of post Keynesian institutionalism

Reclaiming Capital Christopher Gunn, Hazel Gunn, 2018-08-06 Towns without nationally advertised fast food restaurants often eagerly await the day when the golden arches sprout next door to the local car dealership But what really happens to a community with the arrival of the uni burger Christopher Gunn and Hazel Dayton Gunn demonstrate that perhaps three quarters of the money a community spends at its burger emporium will leave the area Poor communities remain poor they assert because local capital tends to be drained off to financial centers corporate accounts and stockholders portfolios In keeping with ecologists injunction to think globally and act locally this imaginative book documents ways in which communities have counteracted constraints of the capitalist economic system and succeeded in promoting democratic control of their resources Taking as one example the local impact of a new McDonald's restaurant Gunn and Gunn first illustrate how capital potentially available for community development may be identified They then explore a variety of alternative institutions credit unions nonprofit corporations and consumers and workers cooperatives among others that

serve to attract and retain resources foster growth and extend public control over the development process The authors also consider how grassroots activism for social change may be integrated with more conventional political practice Reclaiming Capital will be a vital resource for activists elected officials and others concerned with urban and regional planning

Institutional Economics: Theory, Method, Policy Marc R. Tool, 2007-07-27 The volume appraises refines and extends the institutionalist s evolutionary theory of political economy in six different areas of inquiry a the provision of a fresh and comparative overview of institutional economics in general b the presentation and refinement of pragmatic methods of inquiry c the exploration of extensions and clarifications of instrumental value theory d the distillation of an emergent institutionalist theory of labor markets e the explication of a culture based theory of economic development and f the formulation of an analytical design that provides direction for institutional policy making Institutional Economics Theory Method Policy appears at an especially opportune time when there is widespread and accumulating analytical dissatisfaction with received economic doctrine The traditional neoclassical and Marxist views of how to explain order and operate a political economy are now in question throughout the world Appeals are being made for more relevant and pragmatic less doctrinaire and dogmatic approaches to economic inquiry and problem solving This volume provides fresh theoretical underpinnings for such problem solving efforts

Mink Coats Don't Trickle Down Center for Popular Economics (U.S.), 1988 Provides activists academics and students with tools and facts to understand the effects of conservative economic policies

International Journal of Political Economy, 1995 **Beyond Capital** Michael A. Lebowitz, 2016-07-27 Marxism has long been accused of economic determinism reductionism and a silence on human experience Beyond Capital argues that these problems can be traced back to Marx s failure to write his planned book on Wage Labour Added to this the subsequent ignorance of Marx s method the result has been an inaccurate presentation of Marxian Rather than rejecting Marx Beyond Capital argues that his political economy of the working class and the process of struggle are central for going beyond capitalism

Child Labour in Global Society Paul Close, 2014-05-30 This book presents a novel study of children s compulsory productive educational labour in modern and modernizing societies under globalization and the implications for such matters as children s everyday lives relationships and rights international legal instruments relevant analytical notions including slavery and sociological analysis

Global Marx, 2022-10-10 Global Marx is a collective research on Marx s account of capital s domination through his critique of disciplinary languages investigation of political structures and analysis of specific political spaces within the world market His discourse appears here as global not only because global is the geography of the world market but also because Marx redefined the relationships between the spaces on which capital exerts its command Global Marx proves that Marx s texts do not identify any global working class nor a centre of power to be conquered but show that within and against the world market there is a social movement that is irreducible to any identity or to a single space from whose perspective one can write a universal history of class struggle Contributors are Luca Basso

Michele Basso Matteo Battistini Eleonora Cappuccilli Michele Cento Luca Cobbe Isabella Consolati Niccol Cuppini Roberta Ferrari Michele Filippini Giorgio Grappi Maurizio Merlo Mario Piccinini Fabio Raimondi Maurizio Ricciardi Paola Rudan and Federico Tomasello **Challenge Magazine** New York University. Institute of Economic Affairs,1988 **Challenging the Orthodoxy** Susan K. Schroeder,Lynne Chester,2013-11-19 Political economy focuses on issues that are fundamental to individual and collective well being and rests on the proposition that economic phenomena do not occur in isolation from social and political processes One leading Australian political economist is Frank Stilwell Highlights of his work include concerns with the creation and use of wealth inequalities between rich and poor the spatial implications of economic growth and the tensions between economic growth and the environment Stilwell has been especially prominent in developing alternative economic policies with seminal contributions to understanding the radical shift in Australian economic and social policies since the early 1980s He has also been a leader in the teaching of political economy to many cohorts of first year university students This collection spanning these themes honours Stilwell s contribution to Australian political economy after more than 40 years teaching at the University of Sydney The book provides not only an opportunity to appreciate his contribution but also a greater understanding of these themes which remain of crucial contemporary relevance

Non-Mainstream Dimensions of Global Political Economy Byasdeb Dasgupta,2013-06-07 The book is a collection of essays written by scholars of global repute in honour of Professor Sunanda Sen Each paper is well researched and offers some new dimension to the understanding of the current global crisis finance and labour including the epistemological viewpoints regarding the current global order The uniqueness of the book is that in one place one can find different heterodox positions dealing with the present global order of finance and labour post Keynesian Marxist etc The contents of the book can be classified into three major sections 1 global finance dealing with current global crisis 2 methodological epistemological concerns in terms of the global crisis and 3 labour in the context of neoliberal global capitalism characterised by the process of financialisation The entire book is an attempt to decipher the meaning and significance the process of financialisation produces for the real economy One of the major conclusions drawn from the different studies in the book relates to the fact that global finance as it has been shaped today cannot delinked from the question of labour The current global finance regime warrants neoliberal labour flexibility regime the latter guaranteeing the necessary surplus generation for the pervasive finance This book offers an analysis of current global crisis relating it to the present day global finance and labour in terms of the process of neoliberal financialisation a flexible labour regime It is based on non mainstream heterodox approach in Economics and as such is a critique of the mainstream neoclassical position on current global crisis The contents of the book will be of immense use to the researchers and students dealing with current global crisis global finance and labour
