Bernhard Sindberg Peter Harmsen,2025-08-05 shows that sometimes the most unlikely of people become the most heroic Asian Review of Books In December 1937 the Chinese capital Nanjing falls and the Japanese army unleash an orgy of torture murder and rape Over the course of six weeks hundreds of thousands of civilians and prisoners of war are killed At the very onset of the atrocities the Danish supervisor at a cement plant just outside the city 26 year old Bernhard Arp Sindberg opens the factory gates and welcomes in 10 000 Chinese civilians to safety beyond the reach of the blood thirsty Japanese He becomes an Asian equivalent of Oskar Schindler the savior of Jews in the European Holocaust This biography follows Sindberg from his childhood in the old Viking city of Aarhus and on his first adventures as a sailor and a Foreign Legionnaire to the dramatic 104 days as a rescuer of thousands of helpless men women and children in the darkest hour of the Sino Japanese War It describes how after his remarkable achievement he receded back into obscurity spending decades more at sea and becoming a naturalized American citizen before dying of old age in Los Angeles in 1983 completely unrecognized In this respect too there is an obvious parallel with Schindler who only attained posthumous fame The book

sets the record straight by providing the first complete account of Sindberg's life in English based on archival sources hitherto unutilized by any historian as well as interviews with surviving relatives. What emerges is the surprising tale of a person who was average in every respect but rose to the occasion when faced with unimaginable brutality, discovering an inner strength and courage that transformed him into one of the great humanitarian figures of the 20th century and an inspiration for our modern age, demonstrating that the determined actions of one person, any person, can make a huge difference.

Chinese Capitalists in Japan's New Order Parks Coble, 2003-04-01 In this probing and original study Parks M. Coble examines the devastating impact of Japan's invasion and occupation of the lower Yangzi on China's emerging modern business community. Arguing that the war gravely weakened Chinese capitalists, Coble demonstrates that in occupied areas the activities of businessmen were closer to collaboration than to heroic resistance. He shows how the war left an important imprint on the structure and culture of Chinese business enterprise by encouraging those traits that had allowed it to survive in uncertain and dangerous times. Although historical memory emphasizes the entrepreneurs who followed the Nationalists' armies to the interior, most Chinese businessmen remained in the lower Yangzi area. If they wished to retain any ownership of their enterprises, they were forced to collaborate with the Japanese and the Wang Jingwei regime in Nanjing. Characteristics of business in the decades prior to the war, including a preference for family firms and reluctance to become public corporations, distrust of government, opaqueness of business practices, and reliance of personal connections (*guanxi*), were critical to the survival of enterprises during the war and were reinforced by the war experience. Through consideration of the broader implications of the many responses to this complex era, *Chinese Capitalists in Japan's New Order* makes a substantial contribution to larger discussions of the dynamics of World War II and of Chinese business culture. *Official Gazette of the United States Patent and Trademark Office*, 1993

Japanese Classical Theater in Films Keiko I. McDonald, 1994 Noh, Kabuki, and Bunraku are the three distinct genres of classical theater that have made Japan's dramatic art unique. The audience steeped in these traditional theatrical forms sees many aspects of stage conventions in Japanese cinema. This intimacy makes the aesthetic intellectual experience of films more enriching. *Japanese Classical Theater in Films* aims at heightening such awareness in the West, the awareness of the influence that these three major dramatic genres have had on Japan's cinematic tradition. Using an eclectic critical framework, a solid combination of historical and cultural approaches reinforced with formalist and auteurist perspectives, Keiko I. McDonald undertakes this much-needed ambitious task.
