Al Biruni Hakim Mohammed Said, Ansar Zahid Khan, 1990 **The Kushnameh** Iranshah, 2022-05-24 The first English translation of a strange and unusual Persian epic this action packed tale of an evil monstrous king explores questions of nature and nurture and brings the global middle ages to life The great Persian epic known as the Kushnameh follows the entangled lives of Kush the Tusks a monstrous antihero with tusks and ears like an elephant descended from the evil emperor Zakhak and Abtin the exiled grandson of the last true Persian emperor Abandoned at birth in the forests of China and raised by Abtin Kush grows into a powerful and devious warrior Kush and his foes scheme and wage war across a global stage reaching from Spain and Africa to China and Korea Between epic battles and magnificent feasts are disturbing sometimes realistic portrayals of abuse and oppression and philosophical speculation about nature and nurture and the origins of civilization A fantastical adventure story stretching across the known world and a literary classic of unparalleled richness this important work of medieval Persian literature is a valuable source for understanding the history of racism and constructions of race and the flows of lore and legend from the Central Asian Silk Road and the Sahara to the sea routes of the Indian Ocean and the Mediterranean The Kushnameh is a treasure trove of Islamic and pre Islamic Persian cultural history and a striking contemporary document of the global middle ages now available to English speaking readers for the first time **Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures** Helaine Selin, 2013-11-11 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa **An Encyclopaedia in Spatio-Temporal Dimensions** Patit Paban
