**Rediscovering Palestine** Beshara Doumani,1995-10-12 Drawing on previously unused primary sources this book paints an intimate and vivid portrait of Palestinian society on the eve of modernity Through the voices of merchants peasants and Ottoman officials Beshara Doumani offers a major revision of standard interpretations of Ottoman history by investigating the ways in which urban

rural dynamics in a provincial setting appropriated and gave meaning to the larger forces of Ottoman rule and European economic expansion He traces the relationship between culture politics and economic change by looking at how merchant families constructed trade networks and cultivated political power and by showing how peasants defined their identity and formulated their notions of justice and political authority Original and accessible this study challenges nationalist constructions of history and provides a context for understanding the Palestinian Israeli conflict It is also the first comprehensive work on the Nablus region Palestine s trade manufacturing and agricultural heartland and a bastion of local autonomy Doumani rediscovers Palestine by writing the inhabitants of this ancient land into history Holy Places in the Israeli-Palestinian Conflict Marshall J. Breger, Yitzhak Reiter, Leonard Hammer, 2009-12-16 This book addresses the major generators of conflict and toleration at shared holy places in Palestine and Israel Examining the religious political and legal issues the authors show how the holy sites have been a focus of both conflict and cooperation between different communities Bringing together the views of a diverse group of experts on the region Holy Places in the Israeli Palestinian Conflict provides a new and multifaceted approach to holy places giving an in depth analysis of relevant issues Themes covered include legal regulation of holy places nationalization and reproduction of holy space sharing and contesting holy places identity politics and popular legends of holy sites Chapters cover in detail how recognition and authorization of a new site come about the influence of religious belief versus political ideology on the designation of holy places the centrality of such areas to the surrounding political developments and how historical background and culture affect the perception of a holy site and relations between conflicting groups This new approach to the study of holy places and the Israeli Palestinian conflict has great significance for a variety of disciplines and will be of great interest in the fields of law politics religious studies anthropology and sociology **Palestine** Sarah Irving, 2012-03 The only practical guide to traveling in Palestine and Palestinian communities in Israel *A History of Palestine* Gudrun Krämer, 2011-02-22 Kr mer focuses on patterns of interaction amongst Jews and Arabs Muslim as well as Christian in Palestine an interaction that deeply affected the economic political social and cultural evolution of both communities under Ottoman and British rule *Israel and the Palestinian Territories* Daniel Jacobs, Shirley Eber, Francesca Silvani, 1998 This is the most complete and topical guide to the region with detailed accounts of all the historic monuments and the Jewish Islamic and Christian holy sites **Protestant Missionaries in the Levant** Samir Khalaf, 2012 Through focusing on the unintended by products of New England Puritanism as a cultural transplant in the Levant this book explores the socio historical forces which account for the failure of early envoys attempts to convert the native population Early failure in conversion led to later success in reinventing themselves as agents of secular and liberal education welfare and popular culture Through making special efforts not to debase local culture the missionaries work resulted in large sections of society becoming protestantized without being evangelized An invaluable resource for postgraduates and those undertaking postdoctoral research this book explores a seminal but overlooked interlude in the

encounters between American Protestantism and the Levant Using data from previously unexplored personal narrative accounts Khalaf dates the emergence of the puritanical imagination sparked by sentiments of American exceptionalism voluntarism and soft power to at least a century before commonly assumed      *“And in Length of Days Understanding” (Job 12:12)* Erez Ben-Yosef, Ian W. **The complete city trip guide for Acre (Israel)** YouGuide Ltd, **The Great Globe Itself** Peter Hardy, 2024-10-08 This is a story of the European political dynamics that proceeded from the mid seventeenth century affecting the destinies of Great Britain France Austria Prussia and Russia their allies and their colonies This volume provides an introduction to the period followed by a more detailed study of the years from 1754 to 1799 the years of George Washington Future volumes will relate the years of Napoleon Bonaparte Andrew Jackson and Karl Marx The Oxford History of the Holy Land Robert G. Hoyland, H. G. M Williamson, 2023-03-28 Histories you can trust The Oxford History of the Holy Land covers the 3 000 years which saw the rise of Judaism Christianity and Islam and relates the familiar stories of the sacred texts with the fruits of modern scholarship Beginning with the origins of the people who became the Israel of the Bible it follows the course of the ensuing millennia down to the time when the Ottoman Empire succumbed to British and French rule at the end of the First World War Parts of the story especially as known from the Bible will be widely familiar Less familiar are the ways in which modern research both from archaeology and from other ancient sources sometimes modify this story historically Better understanding however enables us to appreciate crucial chapters in the story of the Holy Land such as how and why Judaism developed in the way that it did from the earlier sovereign states of Israel and Judah and the historical circumstances in which Christianity emerged from its Jewish cradle Later parts of the story are vital not only for the history of Islam and its relationships with the two older religions but also for the development of pilgrimage and religious tourism as well as the notions of sacred space and of holy books with which we are still familiar today From the time of Napoleon on European powers came increasingly to develop both cultural and political interest in the region culminating in the British and French conquests which carved out the modern states of the Middle East Sensitive to the concerns of those for whom the sacred books of Judaism Christianity and Islam are of paramount religious authority the authors all try sympathetically to show how historical information from other sources as well as scholarly study of the texts themselves enriches our understanding of the history of the region and its prominent position in the world s cultural and intellectual history
