Mujeres de conquista CARLOS CUAUHTÉMOC SÁNCHEZ, 2014-09-26. Esposa mía perdíname. He sido injusto contigo muchas veces. Trabajas en una oficina, aconsejas a los demás, te involucras en obras sociales y cuidas la casa. Cuando terminas parece que no has hecho nada y yo te reclamo. Siempre he reprochado que gastas demasiado. Si te compras un vestido nuevo todos te elogian y a mí sólo se me ocurre preguntarte cuánto te costó. Mujer, perdíname. En las noches cuando nuestros hijos lloraban, tú te levantabas a atenderlos y yo me tapaba con las cobijas. Hoy me he dado cuenta de mis errores y de tu gran valor. Quiero decirte que las personas cercanas te necesitamos mucho. Eres una MUJER DE CONQUISTA. Tu capacidad de amar es irremplazable, tu esfuerzo en los proyectos importantes es fundamental. Tu sensibilidad te permite comprender y sanar el corazón de otros seres humanos. Eres el equilibrio del mundo y generas la vida espiritual desde tus entrañas. Amor, debes saber que en gran medida es tu vida la que le ha dado sentido a la mía.

The Missionary William Carmichael, David Lambert, 2009-03-01. David Eller is an American missionary in Venezuela married to missionary nurse Christie. Together they rescue homeless children in Caracas. But for David that isn't enough. The supply of homeless children is endless because of massive poverty and the oppressive policies of the Venezuelan government led by the Hugo Chavez-like Armando Guzmán. In a moment of anger, David publicly rails against the government unaware that someone dangerous might be listening, a revolutionary looking for recruits. David falls into an unimaginable nightmare of espionage ending in a desperate life or death gamble to flee the country with his wife and son with all the resources of a corrupt dictatorship at their heels.

Inequality and Climate Change Delgado-Ramos, Gian Carlo, 2015-12-01. Climate change is one of the most pressing challenges of the twenty-first century. Anthropogenic activities such as fossil fuel consumption and other activities focused on enhancing economic growth have been identified as the main drivers of changes in the environment that defy planetary boundaries. The transgression of planetary boundaries has

profound implications for practically all biophysical and human systems and their impact could also be related to the exacerbation of existing problems such as land tenure insecurity poverty and inequality marginalization of poorer populations climate induced migration and resource wars or conflicts From a global South perspective research on the multifaceted nature of climate change is thus necessary and appropriate including the analysis of socioeconomic political and cultural aspects This book is an outcome of the Comparative Research Workshop on Inequality and Climate Change Perspectives from the South of the South South Collaborative Programme of CLACSO CODESRIA IDEAS It gathers a diversity of case studies from the South with ample biophysical differences and particular social and cultural realities As such it is a fresh contribution offering a vantage point from which to examine some of the current perspectives on inequality and climate change
