Alaska Native Land Claims:

Alaska Native Land Claims United States. Congress. Senate. Committee on Interior and Insular Affairs, 1968 *Alaska Native Land Claims* United States. Congress. House. Committee on Interior and Insular Affairs. Subcommittee on Indian Affairs, 1971 **Chasing the Dark** Kenneth L. Pratt, 2009 The program that ultimately developed in response to Section 14 h 1 of the Alaska Native Claims Settlement Act ANCSA resulted in the largest and most diverse single collection of information ever compiled about the history and cultures of Alaska Natives Through this publication the Bureau of Indian Affairs seeks to both increase public awareness of this important program and offer a glimpse of the valuable information the agency maintains concerning Alaska history and the traditions of Alaska Native peoples Ed preface Alaska Native Land Claims United States. Congress. House. Committee on Interior and Insular Affairs, 1968 Alaska Native Land Claims United States. Congress. Senate. Committee on Interior and Insular Affairs, 1968 *The Governance of Western Public Lands* Martin A. Nie, 2008 Examines the conflict surrounding public land management revealing how problematic language in public land laws scarcity of resources and mistrust cloud the debates and offering a range of solutions to help move beyond the dysfunctional status quo management *Alaska's Place in the West* Roxanne Willis, 2010 The first comprehensive examination of Alaskan development schemes from 1890 to the present Focuses on five major conflicts between environmentalists and developers from reindeer herding to the Trans Alaska Pipeline Takes readers behind common and simplistic representations of the state to explore the rich history and extreme diversity of a land that cannot easily be pigeonholed into typical American conceptions about place Alaska Native Land Claims United States. Congress. Senate. Committee on Interior and Insular Affairs, 1969 *American Forests* Char Miller, 1997 *American Forests* is an interdisciplinary collection of essays that explore the impact of forestry on natural and human landscapes since the mid nineteenth century It has two main goals to present some of the most compelling arguments that have guided our understanding of the complex and evolving relationship between trees and people in the United States and to point out those aspects of this tangled interaction that we have yet fully to understand or to articulate Preface ix *Nontimber Forest Products in the United States* Eric T. Jones, Rebecca Jean McLain, James F. Weigand, 2002 A quiet revolution is taking place in America's forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics

mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests
