Transients John K. B. Ford,Graeme M. Ellis,1999 Killer whales are found in all oceans of the world but nowhere are they better known than in the coastal waters of Washington British Columbia and Southeastern Alaska where 25 years of study have yielded many surprising discoveries about their natural history One of the most remarkable is that two genetically distinct forms of killer whales reside in these waters The two groups of whales do not associate and each leads a completely different lifestyle Residents specialize in a diet of salmon and other fish while transients are hunters of seals sea lions porpoises and even large whales Enigmatic and elusive these mammal hunting whales travel in small groups often moving unpredictably Transients contains the latest information on the natural history of transient killer whales including their feeding habits social lives and distribution patterns It also includes photographs of and notes on over 200 individual whales Numerous sidebars contain interesting observations on encounters with transients as well as information on how and where to best watch them *Encyclopedia of the Sea* ,2000 Ellis s research has taken him all over the world from Nantucket to Patagonia Now with more than 450 of his own illustrations he takes readers from A to Z abalone to zooxanthellae in this one unprecedented volume of the sea of color paintings 471 illustrations
