Albert the Dinosaur The Adventure Begins Mike Bazane, **The Legend of Mighty Mabel** Vance Avis,2011-08-03

In the distance the ominous rumblings of thunder can be heard while a dark drizzle begins to fall on a dreary summer afternoon that makes no sunny pretenses about what is coming Albert is at Professor Charles house for a high energy physics lesson when a friend bearing a high energy piece of bad news bursts through the doorway The news relates to the murder of a dear friend a week ago and what Albert saw on that foggy night There was a ghostly figure wielding a sword in a rowboat near the scene of the riverbank killing Prof Charles quickly states Albert there is a sword in a diabolically haunted mansion not far from here The mansion was owned by a rich man who was so sinister that many considered him to be the Devil incarnate and he was referred to as The Sovereign of Sin Upon his death several morbidly evil spirits hastily escaped to various rooms of the mansion In one of those rooms is a knight with a sword But the mansion is confusing in its construction and those brave enough to have entered it while being stalked by rattling chains cannot agree on where the room is Albert s girlfriend Molly has just arrived Molly s mother Mabel is a revered teacher and she often helps Albert by telling him her Lessons of Life Sometimes ideas that have become part of our entrenched assumptions need to be looked at again Reexamine all your assumptions even those you find irrefutable and relook at clues you have been unable to fit into any assumption Perhaps that will lead you in new directions The news of a sword accessible to the murderer gives Albert and Molly a new clue to follow Molly considers finding the killer their higher calling and Albert follows clues with the enthusiasm and perspicacity of Sherlock Holmes They start their journey with trepidation The densely tree surrounded path to the haunted mansion begins surreally serene given that its destination is the home of The Sovereign of Sin Only the storm clouds and the heavy mist add a subtle version of reality which precedes the more demanding version that occurs when a huge lightning strike hits nearby The closer Albert and Molly get to the haunted mansion the more the path takes on the threatening encompassment of their goal The trees and thick overgrowth turn into strangely evil forms as they become darkly shadowed and more impenetrable and the sky fills with ghost shaped black rain clouds that close in on Molly and Albert and move and morph and forebode the fast approaching ill omened night Then another massive lightning strike with its bone rattling thunder shakes Molly and Albert s nerves raw Did you see that exclaims Albert terrifyingly as he points up to a spot in one of the trees ahead of them See what asks Molly worriedly During the lightning up in that tree I saw something staring at us anxiously responds Albert It was the form of a ghost which looked to me like one of the morbidly wicked spirits that The Sovereign of Sin turned into upon his death As they slowly walk past the tree each stares up at the spot then another

lightning flash occurs and instantaneously both their expressions turn ghostly fear stricken They run past the tree Albert exclaims So you saw The Sovereign of Sin s malevolent spirit No cries Molly I saw the Grim Reaper reaching out to grab me Great ghouls declares Albert Aren t we two with our spine chilling imaginations going to have fun in the haunted mansion Albert and Molly have many grand adventures in store for them as they follow clues to a killer lurking near the rich waters of the grand ol river and its lush surrounding forest The Legend of Mighty Mabel is the story of a summer of wonderful joy great adventures scary fun fun for the sake of fun and a bit of romance And it is the story of the bravery the love and the Lessons of Life of Mighty Mabel **A Penny for Albert** Gerri Cook,2002 Penny Moonstar is in the Alberta Badlands looking for a story for her Wierd Science TV show and finds a surprising new friend The Complete Dinosaur M. The Second Jurassic Dinosaur Rush Paul D. Brinkman, 2024-05-31 The so-called Bone Wars of the 1880s, which pitted Edward Drinker Cope against Othniel Charles Marsh in a frenzy of fossil collection and discovery, may have marked the introduction of dinosaurs to the American public, but the second Jurassic dinosaur rush, which took place around the turn of the twentieth century, brought the prehistoric beasts back to life. These later expeditions, which involved new competitors hailing from leading natural history museums in New York, Chicago, and Pittsburgh, yielded specimens that would be reconstructed into the colossal skeletons that thrill visitors today in museum halls across the country. Reconsidering the fossil speculation, the museum displays, and the media frenzy that ushered dinosaurs into the American public consciousness, Paul Brinkman takes us back to the birth of dinomania, the modern obsession with all things Jurassic. Featuring engaging and colorful personalities and motivations, both altruistic and ignoble, *The Second Jurassic Dinosaur Rush* shows that these later expeditions were just as foundational, if not more so, to the establishment of paleontology and the budding collections of museums than the more famous Cope and Marsh treks. With adventure, intrigue, and rivalry, this is science at its most swashbuckling.

Dinosaur Impressions Philippe Taquet, 1999-08-28 *Dinosaur Impressions* is the engaging account of thirty years of travel and paleontological exploration by Philippe Taquet, one of the world's most noted paleontologists. In this 1998 book, Dr. Taquet takes the reader on a surprisingly far-flung tour, ranging from the Provence countryside to the Niger desert, from the Brazilian bush to the Mongolian Steppes, and from the Laos jungle to the Moroccan mountains, in search of dinosaur bones and what they have to tell us about a vanished world. With wry humor and lively anecdotes, Dr. Taquet retraces the history of paleontological research, along the way discussing the latest theories of dinosaur existence and extinction. *Dinosaur Impressions* provides a unique, thoughtful perspective, not often encountered in English-speaking works. This insightful, first-hand account of an exceptional career is also a travelogue par excellence that will enthrall enthusiasts and general readers alike.

Dinosaurs W. D. Matthew, Pal ontology deals with the History of Life Its time is measured in geologic epochs and periods in millions of years instead of centuries Man by this measure is but a creature of yesterday his forty centuries of civilization 1 but a passing episode It is by no means easy for us to adjust our perspective to the immensely long spaces of time involved in geological evolution We are apt to think of all these extinct animals merely as prehistoric to imagine them all living at the same time and contending with our cave dwelling ancestors for the mastery of the earth In order to understand the place of the Dinosaurs in world history we must first get some idea of the length of geologic periods and the immense space of time separating one extinct fauna from another The Age of Man Prehistoric time as it is commonly understood is the time when barbaric and savage tribes of men inhabited the world but before civilization began and earlier than the written records on which history is based This corresponds roughly to the Pleistocene epoch of geology it is included along with the much shorter time during which civilization has existed in the latest and shortest of the geological periods the Quaternary It was the age of the mammoth and the mastodon the megatherium and Irish deer and of other quadrupeds large and small which are now extinct but most of its animals were the same species as now exist It was marked by the great episode of the Ice Age when considerable parts of the earth's surface were buried under immense accumulations of ice remnants of which are still with us in the icy covering of Greenland and Antarctica
