Albert Outler The University Professor The Albert Outler Library:

Albert Outler, the University Professor Albert Cook Outler, 1995-01-01 **The Living Church**, 1955 **A History of Preaching Volume 1** O.C. Edwards, Jr., 2010-09-01

A History of Preaching brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church's ministry of proclamation. Bringing together an impressive array of familiar and lesser known figures, Edwards paints a detailed compelling picture of what it has meant to preach the gospel. Pastors, scholars and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching. Volume 1, appearing in the print edition, contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative. Along the way, the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time: Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth—all of their distinctive contributions receive careful attention. Yet lesser known figures and developments also appear from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands, preachers of the eighteenth century Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. Volume 2, contained on the enclosed CD-ROM, contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. The author has written an introduction to each selection, placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Ecumenical in scope, fair-minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver and listen to a sermon, *A History of Preaching* will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. This work is expected to be the standard text on preaching for the next 30 years, says Ann K. Riggs, who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury Western Theological Seminary, is co-moderator of the commission, which studies church uniting and church dividing issues. *A History of Preaching* is ecumenical in scope and will be relevant in all our churches, we all participate in this field, says Riggs from EcuLink Number 65, Winter 2004/2005, published by the National Council of Churches.

A History of Preaching Otis Carl Edwards, 2004. Accompanying CD-ROM contains the full text of volume one and two. Volume two contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. Each chapter in volume two is geared to its companion chapter in volume one's narrative history.

The American Quest for the Primitive Church Richard Thomas Hughes, 1988. The dream of restoring primitive Christianity lies

close to the core of the identity of some American denominations Churches of Christ Latter day Saints some Mennonites and a variety of Holiness and Pentecostal denominations But how can a return to ancient Christianity be sustained in a world increasingly driven by modernization What meaning might such a vision have in the modern world Twelve distinguished scholars explore these and related questions in this provocative book John Wesley John Wesley,1980-11-13 A major figure in eighteenth century Christianity John Wesley sought to combine the essential elements of the Catholic and Evangelical traditions and to restore to the laity a vital role in church life He began one of the most dynamic movements in the history of modern Protestantism a movement which eventually produced the Methodist churches This volume offers a representative selection of theological writings by Wesley and includes historically oriented introductions and footnotes which indicate Wesley s Anglican patristic and biblical sources **Aging as a Spiritual Journey** Eugene C. Bianchi,2011-07-01 Bianchi s wide ranging book draws together insights from the social sciences the humanities and religion to establish a holistic framework for a spirituality of aging He argues that middle life and late adulthood present opportunities for turning inward for a deeper contemplative life within the context of active worldly endeavors This can also augur a reform of social relationships beyond individual development alone toward the creation of a more cooperative just society In this way physical decline is countered by a spiritual ascent He summons aging persons fortified with universal values and concerns gained from age and experience to return to the centers of decision making Throughout the author ponders such questions as personal power identity fear freedom contemplation sexuality the church faith suffering and hope In candid interviews older religious leaders reflect on their early value formation personal traumas choice of careers midlife transitions experiences of old age and the prospect of death In dwelling mainly on human spiritual dilemmas of the aging cycle Bianchi offers a strong clear message of hope one that stands against the tide of our culture which tends to shunt older people to the outer eddies of life s stream Aging as a Spiritual Journey is immensely valuable to all laypersons and those in the helping professions who are concerned about the quality of the aging process The First Christian Histories Glenn F. Chesnut,1986 *Christian Doctrine from the Bible to the Present* John H. Leith,2017-07-12 Christianity has always been a creedal religion in that it has always been theological It was rooted in the theological tradition of ancient Israel which was unified by its historical credos and declaratory affirmations of faith No pre theological era has been discovered in the New Testament or in the history of the Christian community From the beginning Christianity has been theological involving men in theological reflection and calling them to declarations of faith A non theological Christianity has simply never endured although such has been attempted for instance by individual seers in the sixteenth century and also by collaborators with totalitarian ideologies in the twentieth century The creeds presented here range from the ancient faith of the Hebrews and the creed like formulas of the New Testament to the Barmen declaration of 1934 framed by the Christians in Germany who faced the threat of Nazism and the Batak Creed of 1951 in which Indonesian Christians gave authentic expression to their religious belief in the idiom of

their own culture All the creeds are in some sense official and every major division of Christendom is represented including the Younger Churches The volume ends with the messages of the most important assemblies dealing with the Ecumenical Movement This single volume containing all the major theological affirmations of the Christian community is a source book for the study of Christian theology It comprises a record of the Church's interpretation of the Bible in the past and an authoritative guide to its interpretation on the present Indeed it is a guide to an understanding of the Christian interpretation of life

The Ashgate Research Companion to World Methodism Dr Peter Forsaith, Revd Dr Martin Wellings, Professor William Gibson, 2013-03-28 As a religious and social phenomenon Methodism engages with a number of disciplines including history sociology gender studies and theology This Companion brings together a team of respected international scholars writing on key themes in World Methodism to produce an authoritative and state of the art review of current scholarship mapping the territory for future research and is an invaluable resource for scholars worldwide

Goshen-Gottstein, 2018-08-08 All the world's religions are experiencing rapid change due to a confluence of social and economic global forces Factors such as the pervasive intrusion of globalizing political and economic developments polarized and morally equivalent presentations seen in the media and the sense of surety demanded in and promised by a culture dominated by science are some of the factors that have placed extreme pressure on all religious traditions This has stimulated unprecedented responses by religious groups ranging from fundamentalism to the syncretistic search for meaning As religion takes on new forms the balance between individual and community is disrupted and reconfigured Religions often lose the capacity to recall their ultimate purpose or lead their adherents toward it This is the situation we call the crisis of the holy It is a confluence of threats challenges and opportunities for all religions This volume explores the contours of pressures changes and transformations and reflects on how all our religions are changing By identifying commonalities across religions as they respond to these pressures The Crisis of the Holy recommends ways religious traditions might cope with these changes and how they might join forces in doing so Contributors Vincent J Cornell Alon Goshen Gottstein Sidney H Griffith Maria Reis Habito B Barry Levy Deepak Sarma Michael von Brück

Preaching as Reminding Jeffrey D. Arthurs, 2017-11-07

We know of the preacher's roles as both teacher and proclaimer but Jeffrey Arthurs adds another assignment the Lord's remembrancer With decades of preaching experience he explains how to stir the memory of Christ followers fanning the flames of faith through vivid language story delivery and ceremony When knowledge fades and conviction cools the church needs to be reminded of the great truths of the faith

The Continuing Relevance of Wesleyan Theology Nathan Crawford, 2011-06-01 What does the Wesleyan message have to say to the greater theological world This is a question that Laurence Wood has taken up as his concern throughout his career In order to honor his work this collection takes up this question through a series of essays designed to show how Wesleyan Theology while distinctive has a continued relevance to

the wider world of theological scholarship This collection does this in two ways First by showing how the Wesleyan distinctives have been present throughout the history of theology And secondly the collection brings the Wesleyan distinctives into conversation with various contemporary theological conversations ranging from theological hermeneutics and the science religion dialogue to the practice of preaching and spirituality The result is a volume that puts Wesleyan theology into continued dialogue with the broader theological world showing its vitality and importance for the contemporary situation **The Encyclopedia Americana** Grolier Educational Staff,1998-03 *The Bible and the University*

Zondervan,2009-09-03 It is well known that the Western university gradually evolved from the monastic stadium via the cathedral schools of the twelfth century to become the remarkably vigorous and interdisciplinary European institutions of higher learning that transformed Christian intellectual culture in the thirteenth and fourteenth centuries It is equally well known that subsequent disciplinary developments in higher education including the founding and flourishing of many of the most prestigious of North American universities owe equally to the Protestant and perhaps particularly Calvinist influence But that the secularized modern university that descended from these developments is now in something of an identity crisis is becoming widely and often awkwardly apparent The reason most often given for the crisis is our general failure to produce a morally or spiritually persuasive substitute for the authority that undergirded the intellectual culture of our predecessors This is frequently also a reason for the discomfort many experience in trying to address the problem for it requires an acknowledgement at least that the secularization hypothesis has proven inadequate as a basis for the sustaining of coherence and general intelligibility in the university curriculum Nowhere is this more apparent than in the disciplines of biblical studies and theology which once were the anchor or common point of reference for theological thought but which are now both marginalized in the curriculum and internally divided as to meaning and purpose even where the Church itself is concerned In this final volume of the Scripture and Hermeneutic Series a group of distinguished scholars have sought to understand the role of the Bible in relation to the disciplines in a fresh way Offered in a spirit of humility and experimentally the essays here consider the historic role of the Bible in the university the status of theological reflection regarding Scripture among the disciplines today the special role of Scripture in the development of law the humanities and social sciences and finally the way the Bible speaks to issues of academic freedom intellectual tolerance and religious liberty Contributors Include Dallas Willard William Abraham Al Wolters Scott Hahn Glenn Olsen Robert C Roberts Byron Johnson Robert Cochran Jr David I Smith John Sullivan Robert Lundin C Stephen Evans David Lyle Jeffrey Unpredictable Journey Ernlé W.D. Young,2017-12-22 In this memoir Ernl W D Young tells of growing up as a farm boy in Bedfordview Johannesburg South Africa and making the unpredictable life journey to Palo Alto California from being a printer pastor and political activist in South Africa to becoming a full professor at Stanford University from having had to leave his native land because of his implacable opposition to the Nationalist governments apartheid policies and he and his family making new lives in their

adopted country It is the story of one trained in ethics primarily concerned about social justice founding in Bloemfontein a branch of the Progressive Party committed to building a racially integrated South Africa having to make the transition to biomedical ethics and the ethical conduct of research first at Stanford and then at NASAs Ames Research Center in Mountain View It is the story of a fifty eight year marriage to his beloved wife Margaret who believed in him and stood by him through thick and thin of a marriage almost wrecked and then painstakingly salvaged and re built stronger than ever It is the story of the achievements and accomplishments of their four children and seven grandchildren
