Alcoholism Theory Research And Treatment:

Alcoholism William R. Miller, 1985 **Research on Alcoholism Treatment** Marc Galanter, 2006-04-11 From the President of the Research Society on Alcoholism The sixteenth volume of Recent Developments in Alcoholism contains the latest information on the field of alcoholism treatment research This scholarly volume includes comprehensive reviews of the methodologies available to evaluate treatment outcome state of the art psychosocial interventions and recent advances in pharmacological adjuncts to treatment that are currently available and those on the brink of application Other sections of the book address special issues in the treatment of alcohol dependence including the treatment of the adolescents and other unique populations the management of tobacco dependence and the role of spirituality in recovery among others The clinician will find these reviews an important resource for learning about evidence based treatments for alcoholism and the researcher will find the synthesis of recent developments informative and forward looking The research agenda for the future rests soundly on the progress to date and additional advances in the treatment of alcoholism can be predicted in the near future Stephanie O Malley Ph D President Research Society on Alcoholism xi Preface From the President of the American Society of Addiction Medicine This excellent volume presents investigations covering a wide spectrum of scientific issues It is also evident that many of these articles have clinical significance ranging from assessments of disorder monitoring clinical progress and behavioral and pharmacological interventions *Alcoholism treatment & rehabilitation ; selected abstracts* Information Planning Associates, 1972 The Effectiveness and Costs of Alcoholism Treatment Leonard Saxe, United States. Congress. Office of Technology Assessment, 1983 Alcoholism Treatment and Rehabilitation National Institute of Mental Health (U.S.), 1973 *Alcoholism Treatment and Rehabilitation* National Institute of Mental Health (U.S.), 1972 438 references to worldwide literature published from 1960 to Sept 1971 but mostly from 1964 Materials selected to show broad range of treatment modalities treatment and rehabilitation programs and innovative techniques and methods Classified arrangement Foreign language titles also given in original Author index Subject index **The Effectiveness and costs of alcoholism treatment , Treatment and Rehabilitation of the Chronic Alcoholic** Benjamin Kissin, 2012-12-06 The present volume contains a large variety of treatment approaches to the long term rehabilitation of the alcoholic ranging from the biological to the physiological to the psychological to the social The multiplicity of proposed therapies each of which has its strong proponents suggests that alcoholism is either a complex medical social disease syndrome requiring a multipronged treatment approach or a very simple illness for which we have not yet discovered the remedy The latter may indeed be true but we cannot use what we do not know and must use what we do know We do however have the obligation to be responsible in our treatment to provide the best that is known at this time and to be discriminating in our prescription of appropriate treatment for individual patients If there is one conclusion we would like to offer in our preface it is that alcoholics constitute a markedly heterogeneous population with widely disparate needs for whom at least at our present level of

knowledge a broad spectrum of treatment modalities is necessary If this is true then probably most of this book has validity With this volume on the treatment and rehabilitation of the chronic alcoholic we bring to completion our five volume series The Biology of Alcoholism As the title of the present volume indicates we have departed from our original intention to deal solely with biological aspects of the syndrome and have attempted rather to produce a more comprehensive work

Broadening the Base of Treatment for Alcohol Problems Institute of Medicine, Committee on Treatment of Alcohol Problems, 1990-02-01 In this congressionally mandated study an expert committee of the Institute of Medicine takes a close look at where treatment for people with alcohol problems seems to be headed and provides its best advice on how to get there Careful consideration is given to how the creative growth of treatment can best be encouraged while keeping costs within reasonable limits Particular attention is devoted to the importance of developing therapeutic approaches that are sensitive to the special needs of the many diverse groups represented among those who have developed problems related to their use of man's oldest friend and oldest enemy This book is the most comprehensive examination of alcohol treatment to date *A Guide to Alcoholism Treatment Research*, 1981 *Handbook of Clinical Family Therapy* Jay L. Lebow, 2012-07-05 The latest theory research and practice information for family therapy The last twenty years have seen an explosion of new innovative and empirically supported therapeutic approaches for treating families Mental health professionals working with families today apply a wide range of approaches to a variety of situations and clients using techniques based on their clinically and empirically proven effectiveness their focus on specific individual and relational disorders their applicability in various contexts and their prominence in the field In this accessible and comprehensive text each chapter covers specific problems the theoretical and practical elements of the treatment approach recommended intervention strategies special considerations supporting research and clinical examples The contributors provide step by step guidelines for implementing the approaches described and discuss particular issues that arise in different couple family and cultural contexts *Handbook of Clinical Family Therapy* covers treatment strategies for the most common problems encountered in family therapy including Domestic violence Adolescent defiance anxiety and depression Trauma induced problems Stepfamily conflicts ADHD disruption Substance abuse in adults and adolescents Couple conflict and divorce Chronic illness A detailed reference for today's best treatment strategies the *Handbook of Clinical Family Therapy* brings together the top practitioners and scholars to produce an innovative and user friendly guide for clinicians and students alike *Psychopathology And Psychotherapy* Len Sperry, Jon Carlson, 2013-08-21 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *Treatment Choices for Alcoholism and Substance Abuse* Harvey B. Milkman, Lloyd I. Sederer, 1990-01-01 The text is organized around issues that affect clinical practice biological factors prevention and early intervention multiproblem patients treatment and the law and treatment alternatives *Evaluating Alcohol and Drug Abuse Treatment Effectiveness* Linda Carter Sobell, Mark B. Sobell, Elliott Ward, 2013-10-22 *Evaluating Alcohol and Drug Abuse*

Treatment Effectiveness Recent Advances is a collection of papers that covers the advancement in rehabilitation of individuals with a history of substance abuse The title aims to find ways in identifying the treatment that best fits a specific patient The text first provides a historical account of alcohol and drug treatment outcome research Next the selection considers the use of multiple measures of life health to assess alcohol treatment Chapter 3 deals with the behavioral assessment and treatment evaluation of narcotic addiction while Chapter 4 talks about the evaluation of behavioral and traditional treatment of alcoholics The fifth chapter tackles the contingency contracting with drug abusers and the sixth chapter covers the development of a prototype for the evaluation of alcohol treatment The text also details the problems in alcohol treatment along with the improvement of confidence in treatment of substance abuse The book will be of great use to behavioral scientists social workers and mental health specialists

Handbook of Alcoholism Treatment Approaches Reid K. Hester, William R. Miller, 1989 Each clinical chapter has an overview of the technique special clinical considerations cautions specific guidelines for implementation and two reference lists one of clinical resources the second a bibliography of research Clinical Case Studies in the Behavioral Treatment of Alcoholism William M. Hay, Peter E. Nathan, 2012-12-06

There is no shortage of books on behavioral research on behavioral research on alcoholism or on behavioral research on alcoholism treatment Most of the authors of chapters in this book have been involved in the writing of these books The books and their authors have played an important role in the dramatic increase in the influence of behavioral approaches to one of our society's most troubling human problems There are not many books though which detail the longitudinal course of the behavioral therapies none doing so for behavior therapy with alcoholics and problem drinkers That this book now appears then is a first made more valuable by the fact that the chapter's authors are both researchers and clinicians willing and able to combine respect for empirical data with clinical sensitivity and compassion concern and commitment for their patients The chapters in this book reveal important commonalities and telling divergencies in technique strategy and treatment tactics Despite a common perspective on etiology and treatment the authors of the chapters in this book diverge in criteria for deciding on treatment goal choice of initial intervention target the specifics of techniques used and follow up procedures Common to all though is an openness to innovation a pragmatic appreciation of approaches that work and a sincere respect for the patient and his or her fundamental desire for a healthy happier and more productive life

Alcoholism and Substance Abuse Gary G. Forrest, 1985 *Therapist's Guide to Substance Abuse Intervention* Sharon L.

Johnson, 2003-04-28 Author of AP's bestselling *Therapist's Guide to Clinical Intervention* now turns her attention to substance abuse intervention The book will follow a similar format to her previous book presenting information in easy to read outline form with relevant forms patient questionnaires checklists business documents etc Part I discusses the social impact of substance abuse and provides a general overview of the physiological and psychological characteristics of abuse DSM IV definition of abuse and classifications of the varying types of drugs Part II is the main section of the book and covers

assessment different stages of abuse recovery and treatment choices Coverage includes the discussion of myriad self help choices e g AA group therapy brief therapy and more Discussion will also include making a determination of treatment as inpatient or outpatient and issues relevant to special populations teenagers geriatrics comorbidity patients etc Part III presents skill building resources Part IV covers prevention quality assurance and also includes a glossary Outlines treatment goals and objectives Outlines for assessing special circumstances Offers skill building resources to supplement treatment

Medical and Social Aspects of Alcohol Abuse Boris Tabakoff, 2012-12-06 Alcohol use affects either directly or indirectly nearly all facets of Western civilization Eastern cultures are also not exempt from the influence of alcohol and the present decade has been a time of increased alcohol use in all parts of the world The problems of alcohol abuse and alcoholism are of concern to a variety of professionals in the biomedical and psychosocial health sciences and although the alcohol research literature contains much information on the relationships between alcohol ingestion and physiological neurochemical pharmacologic genetic environmental and psychological effects in humans and in subhuman species there is at the present time no advanced textbook that integrates the available information for use by both students and professionals The writing of Medical and Social Aspects of Alcohol Abuse constitutes an attempt to create a scholarly reference and resource for students researchers practicing clinicians and paraprofessionals who wish to understand the complex interplay of factors related to acute and chronic alcohol intoxication the effects of alcohol on body functions and treatment approaches to alcohol abusers and alcoholics

Behavioral Treatment of Alcohol Problems M. Sobell, 2013-03-09 Ideas about the nature of alcohol problems have been undergoing dramatic change over the past several years This book summarizes the clinical research we have conducted over the past eight years research which has evoked controversy and which we hope will be evaluated as having been influential in the development of a scientific approach to the clinical treatment of alcohol problems Although we reference many studies from the general behavioral literature on alcohol problems we make no pretense of presenting a thorough review of that literature By and large this book focuses on the research we have conducted the rationale for that approach and a detailed discussion of methods and results which cannot be presented in journal articles The book begins by giving the reader a perspective on traditional concepts in the alcohol field and why those concepts are now being challenged Within that conceptual framework we then trace the development and sophistication of our clinical research presenting for the first time in a single work a complete consideration of the rationale methods and results of the study of Individualized Behavior Therapy IBT for alcoholics Following a discussion of many of the more subtle aspects of that study and its results we describe how IBT can be used in an outpatient setting the setting in which we have conducted clinical research for the last six years
