Hope's Horizon Chip Ward, 2013-04-10 At a time of widespread environmental pessimism **Hope's Horizon** goes on an inspirational offensive In this entertaining and thought

provoking book author Chip Ward tells of his travels among a new generation of activists who are moving beyond defensive environmental struggles and advocating pioneering proactive strategies for healing the land Chip Ward's three year odyssey took him behind the scenes of efforts to reconnect fragmented habitats and rewild the North American continent the campaign to drain Lake Powell and restore Glen Canyon to its natural state and the struggle to keep nuclear waste off Western Shoshone ancestral lands and ultimately to abolish all nuclear power and weapons These movements and the practical visionaries leading them challenge readers with a new paradigm in which land is used in a spirit of collaboration with natural systems rather than domination of them Broad in its sweep Hope's Horizon uses its topical subjects as springboards for exploring how we can redefine our place in the world while restoring damaged habitats replenishing lost diversity and abandoning harmful technologies Lively literate and free of the grimness that characterizes so much environmental writing Hope's Horizon will change the way readers see the world It makes complicated concepts and issues accessible and wild ideas compelling And while the book's starting point is a hard nosed indictment of humanity's failed stewardship of the earth the stories that follow tell of catalytic optimism and ecological wisdom in the face of self destructive habit and blind pride

Journey of Hope Kenneth C. Barnes, 2005-10-12 Liberia was founded by the American Colonization Society ACS in the 1820s as an African refuge for free blacks and liberated American slaves While interest in African migration waned after the Civil War it roared back in the late nineteenth century with the rise of Jim Crow segregation and disfranchisement throughout the South The back to Africa movement held great new appeal to the South's most marginalized citizens rural African Americans Nowhere was this interest in Liberia emigration greater than in Arkansas More emigrants to Liberia left from Arkansas than any other state in the 1880s and 1890s In Journey of Hope Kenneth C Barnes explains why so many black Arkansas sharecroppers dreamed of Africa and how their dreams of Liberia differed from the reality This rich narrative also examines the role of poor black farmers in the creation of a black nationalist identity and the importance of the symbolism of an ancestral continent Based on letters to the ACS and interviews of descendants of the emigrants in war torn Liberia this study captures the life of black sharecroppers in the late 1800s and their dreams of escaping to Africa
