Conkey,Josephine McDonald,2024-05-13 This open access volume explores the impact of globalization on the contemporary study of deep time art The volume explores how early rock art research's Eurocentric biases have shifted with broadened global horizons to facilitate new conversations and discourses in new post colonial realities The book uses seven main themes to explore theoretical methodological ethical and practical developments that are orienting the study of Pleistocene and Holocene arts in the age of globalization Compiling studies as diverse as

genetics visualization with the proliferation of increasingly sophisticated archaeological techniques means that vast quantities of materials and techniques are now incorporated into the analysis of the world's visual cultures. *Deep Time Images in the Age of Globalization* aims to promote critical reflection on the multitude of positive and negative impacts that globalization has wrought in rock art research. The volume brings new theoretical frameworks as well as engagement with indigenous knowledge and perspectives from art history. It highlights technical, methodological and interpretive developments and showcases rock art characteristics from previously unknown in the global north geographic areas. This book provides comparative approaches on rock art globally and scrutinises the impacts of globalization on research, preservation and management of deep time art. Lonely Planet Spain Lonely Planet, **Guy Davenport** Andre Furlani, 2007-07-20 Guy Davenport 1927-2005 an American writer of fiction, poetry, criticism and essays, a translator, painter, intellectual and teacher brought a breadth and depth of knowledge to his pursuits that few other writers could approach, let alone appraise. In Andre Furlani, this twentieth-century American master has finally found an apt critical reader. In this first sustained critical study of Davenport, Furlani elucidates the depths of Davenport's fiction and its poetic precedents, bringing a rare understanding to the author's reworking of twentieth-century literature and intellectual history and offers unusual insight into his compositional technique. Furlani explores key themes across the spectrum of Davenport's fiction: pastoral utopia, twentieth-century dystopia, sexual ethics, the mythologizing of childhood, the inseparability of the archaic and the modern, and a celebration of the union of sophia, eros and poesia. Whether Davenport's view of art and the cosmos should be called postmodern is a question that Furlani considers closely, offering finally a new aesthetic for this American original who in these pages at last receives the thorough and meticulous attention he has long merited.
