Alvin Plantinga:

Alvin Plantinga Deane-Peter Baker, 2007-06-18 Few thinkers have had as much impact on contemporary philosophy as has Alvin Plantinga. The work of this quintessential analytic philosopher has in many respects set the tone for the debate in the fields of modal metaphysics and epistemology and he is arguably the most important philosopher of religion of our time. In this volume a distinguished team of today's leading philosophers address the central aspects of Plantinga's philosophy: his views on natural theology, his responses to the problem of evil, his contributions to the field of modal metaphysics, the controversial evolutionary argument against naturalism, his model of epistemic warrant and his view of epistemic defeat and his recent work on mind/body dualism. Also included is an appendix containing Plantinga's often referred to but previously unpublished lecture notes entitled *Two Dozen or so Theistic Arguments* with a substantial preface to the appendix written by Plantinga specifically for this volume.

Epistemology as Theology James K. Beilby, 2005 Locating Plantinga's most recent work in the context of his theological assumptions, his previous work on religious epistemology and the current debate over how knowledge should be characterized, Beilby's book offers a unique perspective on Plantinga's religious epistemology.

Reason, Metaphysics, and Mind Kelly James Clark, Michael Rea, 2012-02-09 Each of the essays in this volume engages with some particular aspect of philosopher Alvin Plantinga's views on metaphysics, epistemology or philosophy of religion.

Readings in Philosophy of Religion Linda Zagzebski, Timothy D. Miller, 2009-03-30 Comprised of readings from ancient to modern times, this volume offers a comprehensive introduction to the central questions of the philosophy of religion. Provides a history of the philosophy of religion from antiquity up to the twentieth century. Each section is preceded by extensive commentary written by the editors followed by readings that are arranged chronologically. Designed to be accessible to both undergraduate and graduate students.

Christian Theology Alister E. McGrath, 2011-01-14 Alister McGrath's *Christian Theology: An Introduction* is one of the most internationally acclaimed and popular Christian theology textbooks in use today. This 5th edition has been completely revised and now features new and extended material, numerous additional illustrations and companion resources ensuring it retains its reputation as the ideal introduction to Christian theology. Fully updated 5th edition of the bestselling textbook incorporating expanded material, numerous student features and new illustrations. Features new sections on Copernicanism and Darwinism. Includes extended discussions of Augustine's doctrine of creation, Trinitarian theologies of religion and the relation of Christianity to other faiths. May be used as a stand-alone volume or alongside the *Christian Theology Reader* 4th edition for a complete overview of the subject. Retains the chapter structure of the 4th edition ensuring comparability with earlier editions and courses based on these. Accompanied by a revised instructor's website featuring expanded resources including study questions and answers, visit www.wiley.com/go/mcgrath for more details and to register for access.

Analytic Philosophy of Religion James Franklin Harris, 2013-03-14 When Gene Long editor of Kluwer's Handbook of Contemporary Philosophy of Religion Series first invited me to write the volume on Analytic Philosophy of Religion I accepted with great enthusiasm My only explanation for that enthusiasm now is that I was younger and more naive at the time Soon after starting work on the volume my enthusiasm was dampened by the daunting magnitude of the task I began as a sprinter and quickly settled into the pace of a long distance runner Although I considered myself well read in the subject I soon discovered that I had a great deal of research to do to be confident that I had considered all of the major contributions to the various discussions issues and of religion As I read more and more problems found within analytic philosophy books and articles I realized that I had rushed into a territory already well trodden by the angels I am greatly impressed by the sophistication and subtlety of philosophical argument that characterize the different debates in contemporary analytic philosophy of religion This volume covers a vast amount of material I have endeavored to provide the fairest possible reading of different authors and in cases where I include my own critical evaluations and develop my own positions I have endeavored to provide the strongest possible interpretations of the positions I criticize **About Haecceity**

Matthew Davidson,2024-03-05 This book offers an in depth and updated examination of the nature of haecceity that primitive entity which explains why something is distinct from other things The book begins by exploring different conceptions of haecceity throughout history The discussion of various figures across history is important for getting clear on the nature of haecceity and its role in individuation The next part of the book examines different views about the nature of haecceity The author defends a view on which haecceities have objects that instantiate them as constituents Following that the book considers arguments for and against the existence of haecceities the epistemology of haecceity and the distinction between qualitative and non qualitative properties About Haecceity will appeal to scholars and advanced students working in metaphysics philosophy of language epistemology logic and history of philosophy *Philosophers Who Believe* Kelly James Clark,1997-10-29 Eleven leading philosophers including Basil Mitchell Mortimer Adler Alvin Plantinga Nicholas Wolterstorff and Richard Swinburne describe why they have embraced Christian belief and offer fascinating insights into their individual spiritual journeys Edited by Kelly James Clark Reason, Metaphysics, and Mind ,2012 Each of the essays in this volume engages with some particular aspect of philosopher Alvin Plantinga s views on metaphysics epistemology or philosophy of religion Miracles in Said Nursi and Thomas Aquinas Edmund Michael Lazzari,2024-11-26 In order to preserve contemporary understandings of the sciences many figures of the Divine Action Project DAP held that God could never violate or suspend a law of nature causing the marginalization of miracles from scholarly theology science dialogue In the first substantive entry of interreligious dialogue on the topic this book provides fresh contemporary accounts of Said Nursi and Thomas Aquinas on miracles and science challenges contemporary noninterventionist presuppositions and explores rich untapped avenues in the theology metaphysics and epistemology of miracles and laws of science Through an exploration of Nursi s Ash arite Quranic interpretation of the sciences and St Thomas s neglected doctrine of obediential potency this volume marshals powerful tools from the world s two largest religions to elucidate the foundations of God s interaction with creatures As well as contributing to the contemporary debate this volume provides Muslim and Christian readers alike substantive intellectual frameworks in which to think about the sciences from the heart of their own intellectual traditions while at the same time giving them as alternatives to mainstream contemporary approaches for scientists and other readers engaged in theology science dialogue *Epistemology as Theology* James Beilby,2017-09-29 Alvin Plantinga is arguably one of the most influential philosophers of our time Much of his career has been devoted to explaining and defending the intellectual acceptability of Christian belief Recently he has developed a comprehensive rigorous and distinctively Christian religious epistemology This book presents the development of Plantinga s religious epistemology before considering Plantinga s mature religious epistemology in detail Locating Plantinga s most recent work in the context of his theological assumptions his previous work on religious epistemology and in the context of the current debate over how knowledge should be characterized Beilby blends theological and philosophical discussion to offer a unique perspective on Plantinga s

influential proposal *Where the Conflict Really Lies* Alvin Plantinga, 2011-11-30 In this long awaited book pre eminent analytical philosopher Alvin Plantinga argues that the conflict between science and theistic religion is actually superficial and that at a deeper level they are in concord **Plantinga's 'Warranted Christian Belief'** Dieter Schönecker, 2015-10-16 Alvin Plantinga's Warranted Christian Belief has very quickly become one of the most influential books in philosophy of religion In this collection of essays German philosophers theologians and a mathematician deal critically with several aspects of Plantinga's seminal work In a long essay Plantinga answers to these critics Knowledge and Reality Thomas M. Crisp, Matthew Davidson, David Vander Laan, 2006-07-19 This volume was conceived as a Festschrift to surprise Alvin Plantinga on his 70th birthday That original plan was not entirely successful For one thing the day came and went well before the work was complete For another the project wasn't quite a surprise Plantinga caught wind of it though not of its details before the unveiling The occasion was marked however by a presentation of a projected table of contents and an early draft of the cover painting by Keith Lehrer Plantinga then saw the details and was quite taken aback that the editors and a few contributors had come to South Bend from as far Virginia Florida and California to celebrate Now we are pleased to offer the essays themselves The collection ranges widely over metaphysics and epistemology Its wingspan testifies to the breadth both of Plantinga's own work and of the audience that has valued it Some of the essays deal with ontology examining actualism presentism antirealism properties and artifacts Several essays in epistemology raise skeptical questions work through the implications of naturalism or intuitionism and engage Plantinga's own Reidian account of warrant Other contributions consider the bearing of philosophical ideas on the Christian faith of split brain cases on the doctrine of the Trinity for example and of materialism on the afterlife The contributors are friends colleagues and former students of Plantinga The editors thank all of them for their eager participation in this project A Faithful Guide to Philosophy Peter S. Williams, 2019-02-14 A Faithful Guide to Philosophy is the only British Christian introduction to philosophy a book that will be used as a course textbook and by church study groups and individual readers alike It covers subjects of central importance to the Christian worldview discussing the broadest range of topics covered by any Christian introduction to philosophy and will be prized by many

The Case Against Christianity Michael Martin, 1991 In this systematic philosophical critique of the major tenets of Christianity Michael Martin examines the semantic and epistemological bases of religious claims and beliefs Beginning with a comparison and evaluation of the Apostles Creed the Niceno Chalcedonian Creed and the Athanasian Creed Martin discusses the principal theological historical and eschatological assumptions of Christianity These include the historicity of Jesus the Incarnation the Second Coming the Virgin Birth the Resurrection Salvation through faith in Jesus and Jesus as a model of ethical behavior Until now an adequately convincing criticism of Christianity did not exist Martin's use of historical evidence textual analysis and interpretations by philosophers and theologians provides the strongest case made to date against the rational justification of Christian doctrines Logic of the Heart, The James R. Peters, 2009-03 Drawing from the thought of

Augustine Pascal and Hume Peters provides a clear philosophical defense of the rationality of Christian faith in a postmodern world *The Blackwell Companion to Natural Theology* William Lane Craig,J. P. Moreland,2012-02-27 With the help of in depth essays from some of the world s leading philosophers The Blackwell Companion to Natural Theology explores the nature and existence of God through human reason and evidence from the natural world Provides in depth and cutting edge treatment of natural theology s main arguments Includes contributions from first rate philosophers well known for their work on the relevant topics Updates relevant arguments in light of the most current state of the art philosophical and scientific discussions Stands in useful contrast and opposition to the arguments of the new atheists
