Politics in Germany M. Donald Hancock, Henry Krisch, 2008-07-10 Germans born in the second decade of the last century will have been a subject of no less than six political regimes even if they lived in the former German Democratic Republic Today Germany's democratic polity pluralistic society institutional structures and market economy are growing increasingly strong In clear and compelling prose Hancock and Krisch argue that German politics today is the politics of a normal European democracy moving toward the EU The authors discuss Germany's course of modernization which involves rapid industrialization and social development following the nation's first unification in 1871 and its subsequent tortuous

course of political change embracing Imperial authoritarianism the democratic experiment of the Weimar Republic Nazi totalitarianism and postwar variants of communism and Western style democracy Chapters detail the country's political history as well as its culture new constitutional debates parties and economic policy and culminate in a look at Germany in global context

Contemporary German Fiction Stuart Taberner, 2007-06-21 The profound political and social changes Germany has undergone since 1989 have been reflected in an extraordinarily rich range of contemporary writing Contemporary German Fiction focuses on the debates that have shaped the politics and culture of the new Germany that has emerged from the second half of the 1990s onwards and offers the first comprehensive account of key developments in German literary fiction within their social and historical context Each chapter begins with an overview of a central theme such as East German writing West German writing writing on the Nazi past writing by women and writing by ethnic minorities The authors discussed include Günter Grass Ingo Schulze Judith Hermann Christa Wolf Christian Kracht and Zafer Senocak These informative and accessible readings build up a clear picture of the central themes and stylistic concerns of the best writers working in Germany today

Post-communist Nostalgia Maria Todorova, Zsuzsa Gille, 2012 Although the end of the Cold War was greeted with great enthusiasm by people in the East and the West the ensuing social and especially economic changes did not always result in the hoped for improvements in people's lives This led to widespread disillusionment that can be observed today all across Eastern Europe Not simply a longing for security stability and prosperity this nostalgia is also a sense of loss regarding a specific form of sociability Even some of those who opposed communism express a desire to invest their new lives with renewed meaning and dignity Among the younger generation it surfaces as a tentative yet growing curiosity about the recent past In this volume scholars from multiple disciplines explore the various fascinating aspects of this nostalgic turn by analyzing the impact of generational clusters the rural urban divide gender differences and political orientation They argue persuasively that this nostalgia should not be seen as a wish to restore the past as it has otherwise been understood but instead it should be recognized as part of a more complex healing process and an attempt to come to terms both with the communist era as well as the new inequalities of the post communist era

Film and Memory in East Germany Anke Pinkert, 2008 Rethinks the politics of public memory in East German film
